PROXY STATEMENT

2008 ANNUAL MEETING OF STOCKHOLDERS

To Be Held on May 15, 2008

This proxy statement, with the enclosed proxy card, is being furnished to stockholders of Vertex Pharmaceuticals Incorporated in connection with the solicitation by our board of directors of proxies to be voted at our 2008 annual meeting of stockholders and at any postponements or adjournments thereof. The annual meeting will be held on Thursday, May 15, 2008, at 9:30 a.m. at our headquarters, located at 130 Waverly Street, Cambridge, Massachusetts.

This proxy statement and the enclosed proxy card are first being mailed or otherwise furnished to our stockholders on or about April 1, 2008. Our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and materials regarding our company are being mailed to the stockholders with this proxy statement, but do not constitute a part hereof.

VOTING PROCEDURES

Your Vote is Important. Whether or not you plan to attend the annual meeting, please take the time to vote by completing and mailing the enclosed proxy card as soon as possible. We have included a postage-prepaid envelope for your convenience.

Who Can Vote? In order to vote, you must have been a stockholder of record at the close of business on the record date, which is March 17, 2008. Stockholders whose shares are owned of record by brokers and other nominees should follow the voting instructions provided by the institution that holds their shares. As of the record date, there were 140,356,485 shares of common stock issued, outstanding and entitled to vote. Each share of common stock is entitled to one vote on each matter to be voted upon.

How Do I Vote? If your shares are held of record in your own name, you may vote by completing and returning the enclosed proxy card by mail or by voting in person at the annual meeting. If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the institution that holds your shares that you must follow in order for your shares to be voted. If your shares are not registered in your own name and you plan to attend the annual meeting and vote your shares in person, you should contact the institution that holds your shares to obtain a broker's proxy card, and bring it to the annual meeting in order to vote.

Voting By Mail and Revocation of Your Proxy. You may vote by mail by completing and returning the enclosed proxy card. Your proxy will be voted in accordance with your instructions. If you do not specify a choice on a proposal described in this proxy statement, your proxy will be voted in favor of that proposal.

You may revoke your proxy at any time before it is voted by delivering a subsequently dated written revocation or proxy to our corporate secretary or by voting in person at the annual meeting.

Voting In Person At The Annual Meeting. If you attend the annual meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot that will be available at the annual meeting.

What Constitutes a Quorum? In order for business to be conducted at the annual meeting, a quorum must be present. A quorum is present if the holders of a majority of the shares of common stock issued and outstanding as of the record date are present at the annual meeting in person or by proxy. Shares of common stock held by a person who is present at the annual meeting in person or by proxy but who abstains or does not vote with respect to one or more of the matters to be voted upon will nonetheless be counted for purposes of determining if a quorum exists. If a quorum is not present, it is expected that the annual meeting will be adjourned until a quorum is obtained.

What Vote Is Required to Approve Each Proposal and How are Votes Counted?

Proposal 1: Election of Directors	The nominees for director who receive the most votes, also known as a "plurality" of the votes, will be elected. Abstentions are not counted for purposes of electing directors. You may vote either FOR or WITHHOLD your vote from, any one or more of the nominees. Votes that are withheld will not be included in the vote tally for the election of directors. Brokerage firms and other nominees have authority to vote shares of their customers that are held by the broker or their nominee in "street name" for the election of directors. If a broker or other nominee does not exercise this authority, their failure to vote, or a "broker non-vote," will have no effect on the results of the election of directors.
Proposal 2: Amendment to our Articles of Organization	The affirmative vote of a majority of our outstanding shares of common stock is required to approve the amendment to our Articles of Organization increasing our number of authorized shares. Abstentions will have the same effect on the results of this vote as votes against the proposal. Brokerage firms do not have authority to vote, with respect to this proposal, shares of their customers that are held by the firms in "street name." Therefore, any shares not voted by a customer will be treated as a broker non-vote, and broker non-votes will have the same effect on the result of this vote as votes against the amendment to our Articles of Organization.
Proposals 3: Amendment to our 2006 Stock and Option Plan	The affirmative vote of a majority of the shares of common stock cast by the stockholders present in person or represented by proxy at the annual meeting is required to approve the amendments to our 2006 Stock and Option Plan and Employee Stock Purchase Plan. Abstentions will have no effect on the results of these votes. Brokerage firms do not have authority to vote with respect to these proposals shares of their customers that are held in "street name." Therefore, any shares not voted by a customer will be treated as a broker non-vote, and broker non-votes will have no effect on the results of the vote on these proposals.
Proposal 4: Amendment to our Employee Stock Purchase Plan	
Proposal 5: Ratification of Independent Registered Public Accounting Firm	The affirmative vote of a majority of the shares of common stock cast by the stockholders present in person or represented by proxy at the annual meeting is required to approve the ratification of our independent registered public accounting firm. Abstentions will have no effect on the results of these votes. Brokerage firms have authority to vote with respect to this proposal shares of their customers that are held in "street name." If a broker does not exercise this authority, such broker non-votes will have no effect on the results of the vote.

**PROPOSAL 1:
ELECTION OF DIRECTORS**

Our board of directors is divided into three classes, the Class I Directors, Class II Directors and Class III Directors, with one class elected each year. Members of each class hold office for a three-year term. Our board currently consists of nine members and there is one vacant board seat. Our by-laws provide that our board shall consist of at least three and not more than eleven members, as may be fixed from time to time by our board. The terms of the three Class I Directors will expire at the 2008 annual meeting. Stuart J. M. Collinson, Eugene H. Cordes and Matthew W. Emmens are the current Class I Directors and the nominees for re-election at the 2008 annual meeting for a three-year term that will expire at the 2011 annual meeting. The terms of the Class II Directors and Class III Directors will expire at the 2009 and 2010 annual meetings, respectively.

Our board's policy with respect to the election of directors by stockholders is that any nominee for director who receives a greater number of votes "withheld" from the nominee's election than votes "for" the nominee's election in an uncontested election at a stockholders' meeting should promptly tender his or her resignation to the chair of our board following certification of the stockholder vote. Our corporate governance and nominating committee will promptly consider the tendered resignation and recommend to our board either that it accept or reject any such resignation or take some other action. In considering whether to recommend to our board acceptance or rejection of the tendered resignation, our corporate governance and nominating committee shall consider all factors it deems in its discretion to be relevant to its determination. Our board will act on the corporate governance and nominating committee's recommendation, which action shall include either acceptance or rejection of the tendered resignation and may include adoption of measures designed to address perceived issues underlying the election results. Following our board's decision on the corporate governance and nominating committee's recommendation, we will promptly disclose our board's decision, including, if applicable, the reasons for rejecting the tendered resignation. Any director whose resignation is being considered under this policy will not participate in the corporate governance and nominating committee or board considerations, recommendations or actions with respect to the tendered resignation.

If any of the nominees for election to our board should, for any reason, be unavailable to serve as such, proxies will be voted for such other candidate as may be designated by our board, unless our board reduces the number of directors. Our board has no reason to believe that Dr. Collinson, Dr. Cordes and Mr. Emmens will be unable to serve if elected.

The table below sets forth certain information with respect to the nominees for election to our board and also for those directors whose terms of office are not expiring at the annual meeting.

Information Regarding Our Board of Directors and its Committees

Corporate Governance Principles and Our Board of Directors

Our governance practices are documented in our Statement of Corporate Governance Principles, which addresses the role and composition of our board, executive management functioning and succession planning, committees of our board, education and compensation of members of our board and the evaluation of our board. You can learn more about our current corporate governance principles and review our Statement of Corporate Governance Principles, committee charters, and Code of Conduct and Ethics at www.vrtx.com under "Finances/Investor Info—Governance Documents."

Our Board

Our board of directors met seven times during 2007. Each of our director nominees and continuing directors attended 75% or more of the board meetings during 2007. Each member of our board is encouraged to attend each annual meeting of our stockholders. All of our directors attended our annual meeting of stockholders held in 2007. Our board has determined that the following members of and nominees for the board qualify as "independent" under the definition adopted by The Nasdaq Stock Market, Inc.: Mr. Brandt, Dr. Brimblecombe, Dr. Collinson, Dr. Cordes, Mr. Emmens, Mr. Sachs, Dr. Sanders and Ms. Ullian.

Board Committees

Our board of directors currently has five standing committees: the corporate governance and nominating committee, the audit and finance committee, the commercial strategy committee, the management development and compensation committee, which we refer to as the MDCC, and the science and technology committee. Each of the committees, other than the commercial strategy committee, has the authority to engage legal counsel or other experts or consultants as its members deem appropriate to carry out the committee's responsibilities. Pursuant to our Statement of Corporate Governance Principles, our board has determined that each of the corporate governance and nominating committee, the audit and finance committee and the MDCC must consist solely of "independent directors," as that term is defined by the Securities and Exchange Commission and The Nasdaq Stock Market, Inc. We select "independent directors" as members of these committees with the expectation that they will be free of relationships that might interfere with their exercise of independent judgment. Participation in the commercial strategy committee or science and technology committee is not limited to independent directors.

Corporate Governance and Nominating Committee

The corporate governance and nominating committee is comprised of Dr. Sanders (Chair), Mr. Brandt, Dr. Cordes and Mr. Emmens. Pursuant to its committee charter, the corporate governance and nominating committee:

- assists our board of directors in developing and implementing our corporate governance principles;
- determines the size and composition of our board and its committees;
- monitors a process to assess the effectiveness of our board;
- identifies qualified individuals to become members of our board; and
- recommends nominations to the full board.

In addition, Dr. Sanders, in his role as chairman of our board and an independent director, serves as the presiding director of executive sessions of our outside directors, which generally are held following each of our board meetings.

In 2007, the corporate governance and nominating committee met three times, and all of its members attended at least 75% of its meetings.

When assessing potential nominees for election to our board, the corporate governance and nominating committee considers a variety of factors, such as the candidates' education, experience and knowledge of our industry and experience in other industries that are relevant to us, understanding of our technology and the science associated with drug discovery and development, prior service as a director of a public company and relevant commercial experience. The corporate governance and nominating committee may consider candidates recommended by stockholders, as well as recommendations from other sources, such as other directors or officers, third-party search firms or other appropriate sources. Generally, if a stockholder wishes to propose a candidate for consideration as a nominee by the corporate governance and nominating committee, the stockholder should submit any pertinent information regarding the candidate, including biographical information and a statement by the proposed candidate that he or she is willing to serve if nominated and elected, by mail to our corporate secretary at our offices at 130 Waverly Street, Cambridge, Massachusetts 02139. If a stockholder wishes to nominate a candidate to be considered for election as a director at the 2009 annual meeting of stockholders using the procedures

set forth in our by-laws, the stockholder must follow the procedures described in "Stockholder Proposals for the 2009 Annual Meeting and Nominations for Director" on page 71 of this proxy statement. In general, persons recommended to the corporate governance and nominating committee by stockholders will be considered on the same basis as candidates from other sources.

Audit and Finance Committee

Our audit and finance committee is comprised of Mr. Brandt (Chair), Mr. Sachs and Dr. Sanders. Our board has determined that Mr. Brandt, an independent director who serves as the chair of our audit and finance committee, is an "audit committee financial expert," as that term is defined in applicable regulations of the Securities and Exchange Commission. The primary purposes of the audit and finance committee are to:

- assist our board in fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing and reporting practices; and
- review and make recommendations to our board concerning our financial structure and financing strategy.

In addition, our audit and finance committee focuses on the qualitative aspects of our financial reporting to stockholders, on our processes to manage business and financial risk and on compliance with significant applicable legal, ethical and regulatory requirements relating to our financial operations. Our independent registered public accounting firm reports directly to and is held accountable to the audit and finance committee in connection with the audit of our annual financial statements and related services. Our audit and finance committee has sole authority over the appointment, compensation and oversight of the work of the independent registered public accounting firm, and where appropriate, the replacement of the independent registered public accounting firm.

In 2007, the audit and finance committee met eleven times, and each member of the audit and finance committee attended at least 75% of its meetings. The report of the audit and finance committee appears at page 23 of this proxy statement.

Commercial Strategy Committee

The commercial strategy committee is comprised of Mr. Emmens (Chair), Mr. Brandt, Dr. Collinson and Ms. Ullian. Our commercial strategy committee will:

- review our marketing strategy and our marketing plan for telaprevir and our commercial organization; and
- provide our board with periodic assessments of the status of our commercialization efforts and the coordination of commercial and research and development activities.

In 2007, the commercial strategy committee met one time, and each member of the commercial strategy committee attended the meeting.

MDCC

The MDCC is comprised of Dr. Brimblecombe (Chair), Mr. Sachs and Ms. Ullian. Pursuant to its charter, our MDCC:

- recommends to our full board the amount, character, and method of payment of compensation of all of our executive officers and certain other key employees;
- plans for the succession of our executives; and
- administers our stock and option plans and employee stock purchase plan.

In 2007, the MDCC met six times, and each member of the MDCC attended at least 75% of its meetings. The report of the MDCC appears at page 41 of this proxy statement.

Science and Technology Committee

The science and technology committee is comprised of Dr. Cordes (Chair), Dr. Brimblecombe, Dr. Collinson and Mr. Emmens. The science and technology committee discharges our board's responsibilities relating to the oversight of our investment in pharmaceutical research and development. In furtherance of that oversight function, the science and technology committee:

- reviews and assesses our current and planned research and development programs and technology initiatives from a scientific perspective;
- assesses the capabilities of our key scientific personnel and the depth and breadth of our scientific resources;
- provides strategic advice to our board regarding emerging science and technology issues and trends; and
- periodically reviews our patent portfolio and strategy.

In 2007, the science and technology committee met four times, and each member of the science and technology committee attended at least 75% of its meetings.

Board Recommendation

Our board of directors recommends that our stockholders vote FOR the election of each of the nominees to the board. A plurality of the votes cast in person or by proxy at the annual meeting is required to elect each nominee as director.

**PROPOSAL 2:
APPROVAL OF AN AMENDMENT TO OUR RESTATED ARTICLES OF ORGANIZATION
TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK**

On March 28, 2008 our board of directors adopted, subject to stockholder approval, an amendment to our Restated Articles of Organization to increase the authorized number of shares of common stock from 200,000,000 to 300,000,000.

The additional common stock to be authorized by adoption of the amendment will have rights identical to our currently authorized common stock. Adoption of the proposed amendment and issuance of the common stock will not affect the rights of the holders of currently outstanding common stock, except for effects incidental to increasing the number of shares of common stock outstanding if and when the additional shares are issued. If the amendment is adopted, it will become effective upon the filing of Articles of Amendment of our Restated Articles of Organization with the Secretary of State of The Commonwealth of Massachusetts.

At March 17, 2008, there were 140.4 million shares of our common stock outstanding. In addition, as of the same date, 17.5 million shares of common stock were reserved for issuance under our stock and option plans, Employee Stock Purchase Plan and 401(k) plan, and we are seeking stockholder approval pursuant to this proxy statement for an increase in the number of shares authorized under our 2006 Stock and Option Plan of 6.6 million shares and an increase in the number of shares authorized under our Employee Stock Purchase Plan of 2.0 million shares. In addition, we have reserved 12.4 million shares for issuance upon conversion of our outstanding convertible notes. Accordingly, if we obtain approval for the increases to our 2006 Stock and Option Plan and Employee Stock Purchase Plan, we will have approximately 21.1 million shares of common stock available for future issuance, prior to the addition of the shares for which we are seeking approval pursuant to this Proposal 2.

Although at present the board of directors has no specific plans to issue shares of common stock in excess of the number previously authorized, the board believes it is desirable to have a significant number of available and authorized shares, to provide the board with flexibility to use capital stock for business and financial purposes in the future. The additional shares may be issued without further stockholder approval, except as may be required by law, regulatory authorities, or the rules of the Nasdaq Stock Market, Inc. or any other stock exchange on which our shares may be listed at the time of any proposed issue. The additional shares may be used for various purposes including, without limitation, raising capital, providing equity incentives to employees and directors, establishing strategic relationships with other companies, expanding our business or research and development programs through the acquisition of other businesses and products, and stock splits and dividends.

Board Recommendation

Our board of directors recommends a vote for the approval of the amendment to our restated Articles of Organization. The affirmative vote of a majority of the shares of common stock outstanding is required for such approval.

**PROPOSAL 3:
AMENDMENT TO 2006 STOCK AND OPTION PLAN**

In 2006, our board of directors adopted and our stockholders approved our 2006 Stock and Option Plan, or 2006 Plan. The number of shares of our common stock originally available for awards under the 2006 Plan was 7,302,380 shares. Our board has approved amendments to the 2006 Plan increasing the number of shares authorized for issuance under the 2006 Plan by 6,600,000 shares, subject to stockholder approval. Of that total, the board issued non-qualified options to purchase 536,625 shares to our executive officers, which represented all of the options issued by our board to members of our executive team for 2007 performance in February 2008. These stock options were issued contingent upon obtaining stockholder approval of an amendment to our 2006 Plan approving them. They may not be exercised before the related amendment to the 2006 Plan has been approved by our stockholders, and they will terminate if approval of an amendment to our 2006 Plan is not obtained at or before our 2009 annual meeting of stockholders.

The purpose of the 2006 Plan is to encourage ownership of shares of our common stock by our employees, directors, consultants and advisors in order to attract such persons, to induce them to work for our benefit and to provide additional incentive for them to promote our success. Our board of directors believes that our equity compensation program is an essential tool to attract, retain and motivate individuals with the requisite experience and ability necessary to facilitate our advancement.

Approval of the amendment to the 2006 Plan is required by the rules of the Nasdaq Stock Market, Inc. In addition, the amendment to the 2006 Plan is being submitted to our stockholders to ensure (i) favorable federal income tax treatment for any grants of incentive stock options under Section 422 of the Internal Revenue Code of 1986, or the Code, and (ii) continued eligibility to receive a federal income tax deduction with respect to compensation earned upon exercise of options under our 2006 Plan by complying with Rule 162(m) of the Code.

If our stockholders approve the amendment to increase the number of shares authorized under the 2006 Plan, the Plan will also be amended to provide (i) that no options to purchase our common stock can be issued under our 2006 Plan with an exercise price less than the fair market value on the date of grant, with fair market value determined as provided in the 2006 Plan and (ii) that after May 15, 2008 only 20% of shares available—including shares that become available through the cancellation of outstanding options or through the repurchase of restricted stock at cost—may be granted as any type of award other than a stock option award.

Our stock and option plans consist of our 1991 Stock Option Plan, 1994 Stock and Option Plan, 1996 Stock and Option Plan, the 2006 Plan and the 2007 New Hire Stock and Option Plan. As of March 17, 2008, there were 246,512 shares remaining available for award under our 2006 Plan and 750,000 shares remaining available for award under our 2007 New Hire Stock and Option Plan. No additional awards may be granted under the 1991 Stock and Option Plan, the 1994 Stock and Option Plan or the 1996 Stock and Option Plan. Our 2007 New Hire Stock and Option Plan is scheduled to expire on June 1, 2008, but will be earlier terminated on May 15, 2008 if we receive stockholder approval of the amendment to our 2006 Plan. If we issue any awards under the 2007 New Hire Stock and Option Plan on or prior to May 15, 2008, the number of shares available for grant pursuant to the proposed amendment to our 2006 Plan will be decreased by the number of shares issued under the 2007 New Hire Stock and Option Plan, subject to adjustment in the case of a stock split, stock dividend, combination, recapitalization or similar transaction.

As of March 17, 2008, options to purchase an aggregate of 5,723,938 shares having a weighted-average exercise price of \$29.99 and a weighted-average term before expiration of 9.04 years were outstanding under our 2006 Plan and options to purchase an aggregate of 10,564,689 shares having a weighted-average exercise price of \$26.90 and a weighted-average term before expiration of 4.66 years were outstanding under our other stock and option plans. In addition, if the amendment is approved, the options to purchase 536,625 shares of common stock at an exercise price of \$18.93 per share that were issued to our executive officers as contingent stock options on February 7, 2008 will be ratified. Also on March 17, 2008, there were outstanding 1,206,693 unvested shares of restricted stock granted under our 2006 Stock Plan and an additional 723,755 unvested shares of restricted stock granted under our other stock and option plans.

On March 27, 2008, the last sales price for our common stock on the Nasdaq Global Select Market was \$19.23 per share.

The principal features of the 2006 Plan, which assume that stockholder approval of this proposal is obtained, are set forth below. A copy of the Amended and Restated 2006 Plan, which would become effective upon stockholder approval of this proposal, is attached to this proxy statement as Appendix A.

Summary Description of the 2006 Plan

Administration by the MDCC and Eligibility for Participation

The 2006 Plan is administered by our board of directors or any committee to which it delegates all or a part of its administrative responsibilities under the 2006 Plan. Our board of directors has delegated the administration of the 2006 Plan to the MDCC. Subject to the provisions of the 2006 Plan, the MDCC has the authority to determine the persons to whom awards under the 2006 Plan will be granted, the number of shares to be covered by each award, the exercise price per share and the manner of exercise, and the terms and conditions upon which awards are granted, to accelerate the vesting or extend the date of exercise of any installment of any award, and to interpret the provisions of the 2006 Plan. Awards may be granted under the 2006 Plan to our employees, including officers and directors who are employees, and to our consultants, advisors and non-employee directors. As of March 17, 2008, we and our subsidiaries had 1,182 employees eligible to participate in the 2006 Plan.

Description of Awards

The 2006 Plan provides for the award of stock options, stock grants, and other stock-based awards.

Stock Options

Stock options granted under the 2006 Plan may be awarded as either incentive stock options within the meaning of Section 422 of the Code, referred to as ISOs, or as non-qualified options. Stock options provide award recipients with the right, subject to the terms and conditions that are specified in connection with the option grant, to purchase a specified number of shares of our common stock at a specified option price. Only our employees are eligible to receive ISOs. The maximum value of shares of common stock—determined at the time of grant—that may be subject to ISOs that become exercisable by an employee in any one year is limited to \$100,000. Stock options granted under the 2006 Plan may not be granted with an exercise price that is less than the fair market value of our common stock on the date of grant. ISOs may not be granted with an exercise price that is less than 110% of fair market value in the case of employees or officers holding 10% or more of our voting stock. ISOs granted under the 2006 Plan must expire not more than ten years from the date of grant, and not more than five years from the date of grant in the case of

ISOs granted to an employee or officer holding 10% or more of our voting stock. No participant may be granted options and stock-based awards in any calendar year for more than 600,000 shares, subject to adjustment for stock splits and similar recapitalizations.

Options granted under the 2006 Plan are exercisable during the optionholder's lifetime only by the optionholder and are not transferable except by the laws of descent and distribution or pursuant to qualified domestic relations orders or Title I of the Employee Retirement Income Security Act.

The 2006 Plan provides specifically for option grants to non-employee directors under our director compensation program. On the date of initial election to our board of directors, each newly elected non-employee director will automatically be granted a non-qualified stock option to purchase a specified number of shares of common stock determined from time to time by our board of directors at a purchase price equal to 100% of the fair market value per share of our common stock on the date of grant, vesting in equal quarterly installments over a period of four years from the date of grant. Currently, a newly elected non-employee director receives an option to purchase 30,000 shares of our common stock. In addition, each non-employee director serving in office on June 1 of any year is granted a non-qualified stock option to purchase a specified number of shares determined from time to time by our board of directors and the chairman of our board receives an additional grant, at an exercise price equal to 100% of the fair market value per share of our common stock on the date of grant. Currently, each annual grant is for 20,000 shares of common stock and the additional grant to the chairman of our board is for 20,000 shares of common stock. These options are fully exercisable immediately and have a term of ten years.

The 2006 Plan permits the MDCC to determine the manner of payment of the exercise price of options. Such methods include payment by cash, by check, by means of a broker-assisted "cashless exercise," by surrender to us of shares of our common stock, by any combination of such methods, or by any other lawful means, excluding delivery of a promissory note, approved by the MDCC.

Stock Grants

A stock grant is an award of shares of common stock. Stock grants may be issued subject to restrictions on transfer and vesting requirements, as determined by the MDCC. Vesting requirements may take the form of our lapsing right to repurchase the stock from the award recipient, based on either continued employment for specified time periods or on the attainment of specified business performance goals set by our board of directors or the MDCC. Subject to the transfer restrictions and our repurchase rights, if any, the grantee will have all rights with respect to the shares of common stock issued under a stock grant as are possessed by our other stockholders, including all voting and dividend rights, during any such restriction period.

Stock-Based Awards

The 2006 Plan provides that MDCC may grant other stock-based awards, including share grants based upon specified conditions, the grant of securities convertible into shares, or the grant of stock appreciation rights, phantom stock awards or stock units, in each case upon terms and conditions established by the MDCC.

Adjustments Upon Stock Dividends, Stock Splits, Recapitalizations or Reorganizations

The number of shares subject to stock rights and other terms applicable to such rights shall be adjusted equitably in the case of the issuance by us of a stock dividend or a stock split, recapitalization, or

reorganization. In addition, in the event of certain consolidations or acquisitions or a sale of substantially all of our assets, either (i) the MDCC or the entity assuming our obligations under the 2006 Plan shall make appropriate provision for the continuation of all outstanding stock rights under the 2006 Plan or grant of replacement stock rights on an equitable basis as determined by the MDCC, or (ii) the vesting of all outstanding and unvested stock rights under the 2006 Plan will be accelerated and such stock rights will become fully exercisable immediately prior to such consolidation, acquisition or sale.

Effective Date, Amendment and Expiration

The 2006 Plan was originally adopted by our board of directors on March 29, 2006 and will terminate on March 28, 2016. Our board of directors may terminate or amend the 2006 Plan at any time, subject to stockholder approval under certain circumstances provided in the 2006 Plan. No amendment or termination of the 2006 Plan will adversely affect the rights provided in any award made under the 2006 Plan prior to the plan amendment or termination. No award may be made under the 2006 Plan after the plan expiration date. Awards made prior to the plan expiration may extend beyond such date.

Federal Income Tax Consequences

The discussion of federal income tax consequences that follows is based on an analysis of the Code as currently in effect, existing law, judicial decisions and administrative regulations and rulings, all of which are subject to change.

Non-Qualified Stock Options. Options that are designated as non-qualified options are not intended to qualify for treatment under Section 422 of the Code. Options otherwise qualifying as ISOs, to the extent the aggregate fair market value of shares with respect to which such options are first exercisable by an individual in any calendar year exceeds \$100,000 also will be treated as options that are not ISOs.

A non-qualified option ordinarily will not result in income to the optionee or a deduction for us at the time of grant. The optionee will recognize compensation income at the time of exercise of such non-qualified option in an amount equal to the excess of the fair market value at the time of exercise of the shares over the option exercise price. Such compensation income may be subject to withholding taxes, and a deduction may then be allowable to us in an amount equal to the optionee's compensation income.

An optionee's initial basis in shares so acquired will be the amount paid on exercise of the non-qualified option plus the amount of any corresponding compensation income. Any gain or loss as a result of a subsequent disposition of the shares so acquired will be capital gain or loss.

Incentive Stock Options. ISOs are intended to qualify for treatment under Section 422 of the Code. An ISO does not result in taxable income to the optionee or deduction for us at the time it is granted or exercised, provided that no disposition is made by the optionee of the shares acquired pursuant to the option within two years after the date of grant of the option nor within one year after the date of issuance of shares to the optionee, referred to as the ISO holding period. However, the difference between the fair market value of the shares on the date of exercise and the option price will be an item of tax preference includible in alternative minimum taxable income. Upon disposition of the shares after the expiration of the ISO holding period, the optionee will generally recognize long-term capital gain or loss based on the difference between the disposition proceeds and the option price paid for the shares. If the shares are disposed of prior to the expiration of the ISO holding period, the optionee generally will recognize taxable compensation, and we will have a corresponding deduction, in the year of the disposition, equal to the

excess of the fair market value of the shares on the date of exercise of the option over the option price. Any additional gain realized on the disposition normally will constitute capital gain. If the amount realized upon such a disqualifying disposition is less than fair market value of the shares on the date of exercise, the amount of compensation income will be limited to the excess of the amount realized over the optionee's adjusted basis in the shares.

Stock Grants. With respect to stock grants that result in the issuance of shares that are either not restricted as to transferability or not subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of shares received. Thus, deferral of the time of issuance generally will result in the deferral of the time the grantee will be liable for income taxes with respect to such issuance. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

With respect to stock grants involving the issuance of shares that are restricted as to transferability and subject to a substantial risk of forfeiture, the grantee generally must recognize ordinary income equal to the fair market value of the shares received at the first time the shares become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier. A grantee may elect to be taxed at the time of receipt of shares rather than upon lapse of restrictions on transferability or substantial risk of forfeiture, but if the grantee subsequently forfeits such shares, the grantee would not be entitled to any tax deduction, including as a capital loss, for the value of the shares on which the grantee previously paid tax. The grantee must file such election with the Internal Revenue Service within 30 days of the receipt of the shares. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

Board Recommendation

Our board of directors recommends a vote FOR the approval of the amendment to our 2006 Stock and Option Plan to increase the number of shares of common stock available for issuance by 6,600,000. The affirmative vote of a majority of the votes cast in person or by proxy on this matter is required for the approval of this proposal.

**PROPOSAL 4:
AMENDMENT TO OUR EMPLOYEE STOCK PURCHASE PLAN**

The Vertex Pharmaceuticals Incorporated Employee Stock Purchase Plan, or ESPP, was adopted by our board of directors in 1992, and has been approved by the stockholders. Under the ESPP, eligible employees have the right to purchase our common stock through payroll deductions. The ESPP provides an important employee benefit that we believe helps us attract and retain employees and encourage their participation in and commitment to our business and financial success. As of December 31, 2007, approximately 1,132 persons were eligible to participate in the ESPP. As of March 17, 2008, there were approximately 207,000 shares available for future issuances under the ESPP.

On March 28, 2008, our board of directors approved an amendment to the ESPP to increase the number of shares of our common stock available for issuance under the ESPP by 2,000,000.

Summary of ESPP

The ESPP is administered by the MDCC, which has the power to construe and interpret the ESPP and to determine all questions that arise under the ESPP. A copy of the ESPP, as proposed to be amended, is attached as Appendix B. Because participation in the ESPP is voluntary and employees may withdraw from the ESPP at any time during a purchase period without penalty, the benefits to be received by any particular person or group are not determinable by us at this time.

Individuals are eligible to participate in the ESPP if they are employed on an offering date, they are regularly employed by us for more than 20 hours a week and for more than five months in a calendar year and they do not own five percent or more of our outstanding common stock. If we receive requests from employees to purchase more than the number of shares available during any offering, the available shares will be allocated on a pro rata basis to subscribing employees.

We make two offerings to purchase common stock under the ESPP each year, one on May 15 and one on November 15. The ESPP provides that each offering period extends either for twelve months, or, if an employee so elects within the 30 day period prior to the six month anniversary of the offering date, for six months. Each twelve-month offering period consists of two six-month purchase periods.

The price at which an employee may purchase common stock under the ESPP is 85% of the lower of (i) the mean of the highest and lowest quoted selling prices of the common stock on the day an offering period commences, and (ii) the mean of the highest and lowest quoted selling prices on the day the purchase period ends.

Our board of directors may at any time terminate or amend the ESPP. However, our board may not amend the ESPP if any such amendment would increase the number of shares of common stock reserved under the ESPP without approval of our stockholders.

Summary of U.S. Federal Tax Consequences

The following is a summary of the United States federal income tax consequences that generally will arise with respect to purchases made under the ESPP and with respect to the sale of common stock acquired under the ESPP. A copy of the ESPP is attached to this proxy statement as Appendix B.

Tax Consequences to Participants

The ESPP is intended to qualify as an "employee stock purchase plan" under Section 423 of the Code. In general, an employee will not recognize U.S. taxable income upon enrolling in the ESPP or upon purchasing shares of common stock. Instead, if an employee sells common stock acquired under the ESPP for an amount that exceeds the purchase price, then the employee will recognize taxable income in an amount equal to the excess of the sale price of the common stock over the purchase price, partially as ordinary income and partially as capital gain, depending upon the date of the sale. If the employee sells the common stock more than one year after acquiring it and more than two years after the applicable offering date, and the sale price of the common stock is higher than the purchase price, then the employee will recognize ordinary income in an amount equal to the lesser of (i) 85% of the fair market value of the common stock on the offering date; and (ii) the excess of the sale price of the common stock over the purchase price. The balance of the income will be treated as long-term capital gain. If the sale price of the common stock is less than the price at which the employee purchased the common stock, then the employee will recognize long-term capital loss in an amount equal to the excess of the purchase price over the sale price of the common stock.

If the employee sells the common stock within one year after acquiring it or within two years after the offering date, which is referred to as a Disqualifying Disposition, then the employee will recognize as ordinary compensation income an amount equal to the excess of the fair market value of the common stock on the date that it was purchased over the purchase price plus either (i) capital gain in an amount equal to the excess of the sale price of the common stock over the fair market value of the common stock on the date that it was purchased, or (ii) capital loss in an amount equal to the excess of the fair market value of the common stock on the date that it was purchased over the sale price of the common stock. This capital gain or loss will be a long-term capital gain or loss if the employee held the common stock for more than one year prior to the date of the sale and will be a short-term capital gain or loss if the employee held the common stock for a shorter period.

Tax Consequences to Vertex

The offerings of common stock under the ESPP will have no tax consequences to us. Moreover, in general, neither the purchase nor the sale of common stock acquired under the ESPP will have any federal income tax consequences to us except that we will be entitled to a compensation deduction with respect to any ordinary compensation income recognized by an employee upon making a Disqualifying Disposition. Any such deduction will be subject to the limitations on deductions for certain employee remuneration contained in Section 162(m) of the Code.

Board Recommendation

Our board of directors recommends a vote for the approval of the amendment to our ESPP to increase the number of shares of our common stock available for issuance by 2,000,000 shares. The affirmative vote of a majority of the votes cast in person or by proxy on this matter is required for the approval of this proposal.

**PROPOSAL 5:
RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

Our audit and finance committee is responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm. Our audit and finance committee appointed Ernst & Young LLP to perform the independent audit, review and attestation services with respect to our financial statements for the fiscal year ended December 31, 2007 and has appointed Ernst & Young LLP to perform these services for the fiscal year ending December 31, 2008. Although stockholder approval of the appointment of Ernst & Young LLP is not required, we are providing stockholders an opportunity to ratify this appointment.

If this proposal is not approved at the annual meeting, our audit and finance committee will reconsider the selection of Ernst & Young LLP for the ensuing fiscal year, but may determine that continued retention of Ernst & Young LLP is in our company's and our stockholders' best interests. Even if the appointment is ratified, the audit and finance committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in our company's and our stockholders' best interests.

We expect representatives of Ernst & Young LLP to be present at the annual meeting. They will have the opportunity to make a statement if they desire to do so and will also be available to respond to appropriate questions from stockholders.

Board Recommendation

Our board of directors recommends a vote for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2008.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Policy on Audit Committee Pre-approval of Audit and Permissible Non-audit Services of Independent Registered Public Accounting Firm

Our audit and finance committee has established a policy to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm. Prior to the engagement of the independent registered public accounting firm for each year's audit, management submits to our audit and finance committee for approval a description of services expected to be rendered during that year for each of the following four categories of services and a budget for those services in the aggregate.

- **Audit** services include audit work performed in the preparation of financial statements, as well as work that generally only our independent registered public accounting firm can reasonably be expected to provide, including comfort letters, statutory audits, consents and attestation services.
- **Audit-related** services are for assurance and related services that traditionally are performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions, employee benefit plan audits, special procedures required to meet certain regulatory requirements and consultation regarding financial accounting and/or reporting standards.

- **Tax services** include all services performed by the independent registered public accounting firm's tax personnel except those services specifically related to the audit of the financial statements, and includes fees in the areas of tax compliance, tax planning and tax advice.
- **Other fees** are those associated with services not captured in the other categories.

Prior to engagement, our audit and finance committee pre-approves these services by category of service. The fees are budgeted and our audit and finance committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, our audit and finance committee requires specific pre-approval before engaging our independent registered public accounting firm.

The audit and finance committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to our audit and finance committee at its next scheduled meeting.

Independent Registered Public Accounting Firm Fees

Aggregate fees billed to us for the fiscal years ended December 31, 2007 and 2006 by our independent registered public accounting firm Ernst & Young LLP were as follows:

	2007	2006
Audit fees:	\$ 778,095	\$ 687,000
Audit-related fees:	98,500	91,400
Tax fees:	111,310	88,900
All other fees:	1,500	—
Total	\$ 989,405	\$ 867,300

"Audit fees" represented the aggregate fees billed to us for professional services rendered for the audit of our annual consolidated financial statements, and our internal controls over financial reporting, for the reviews of the consolidated financial statements included in our Form 10-Q filings for each fiscal quarter, for statutory audits of our international operations, consents, preparation of comfort letters and providing consents with respect to registration statements.

"Audit-related fees" consisted principally of fees for accounting consultations.

"Tax fees" consisted principally of fees related to tax compliance and reporting.

"All other fees" consisted of licensing fees paid to Ernst & Young LLP for access to its proprietary accounting research database.

The percentage of services set forth above in the categories "audit-related fees" and "tax fees" that were approved by our audit and finance committee pursuant to Rule 2-01(c)(7)(i)(C), which relates to the approval of a *de minimis* amount of non-audit services after the fact but before completion of the audit, was 0%.

AUDIT COMMITTEE REPORT

The Audit and Finance Committee of the Board of Directors (the "Audit Committee") of Vertex Pharmaceuticals Incorporated (the "Company"), which consists entirely of directors who meet the independence and experience requirements of the Securities and Exchange Commission and the Nasdaq Stock Market, has furnished the following report:

The Audit Committee assists the Company's Board of Directors in overseeing and monitoring the integrity of the Company's financial reporting process, compliance with legal and regulatory requirements and the quality of internal and external audit processes. The committee's roles and responsibilities are set forth in a written charter, which is available on the Company's website www.vrtx.com under "Finances/Investor Info—Corporate Governance—Governance Documents." Among its duties, the Audit Committee is responsible for recommending to the Company's Board of Directors that the Company's financial statements be included in the Company's Annual Report on Form 10-K. As a basis for that recommendation, the Audit Committee engaged in the following activities. First, the Audit Committee discussed with Ernst & Young LLP ("Ernst & Young"), the Company's independent registered public accounting firm for 2007, those matters that Ernst & Young is required to communicate to and discuss with the Audit Committee under Statement on Auditing Standards No. 61 (Communication with Audit Committees), which included information regarding the scope and results of the audit. These communications and discussions are intended to assist the Audit Committee in overseeing the financial reporting and disclosure process. Second, the Audit Committee discussed with Ernst & Young the firm's independence, and received from Ernst & Young the written disclosures and the letter concerning independence as required by Independent Standards Board No. 1 (Independence Discussions with Audit Committees). This discussion and disclosure informed the Audit Committee of Ernst & Young's relationships with the Company and was designed to assist the Audit Committee in considering Ernst & Young's independence. Finally, the Audit Committee reviewed and discussed, with the Company's management and with Ernst & Young, the Company's audited consolidated balance sheets at December 31, 2007, and the Company's consolidated statements of operations, comprehensive loss, stockholders' equity and cash flows for the year ended December 31, 2007, including the notes thereto.

Management of the Company is responsible for the consolidated financial statements and reporting process, including establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)); establishing and maintaining internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)); evaluating the effectiveness of disclosure controls and procedures; evaluating the effectiveness of internal control over financial reporting; and evaluating any change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Overview

We are in the business of discovering, developing and commercializing small molecule drugs for the treatment of serious diseases. Our core purpose is to innovate to transform lives with new medicines, which we believe will create long-term value for our stockholders. We are in a period of rapid expansion because we are preparing for the possible launch and commercialization of telaprevir, our lead drug candidate for the treatment of hepatitis C viral infection. In order to be prepared for the launch of telaprevir, if it is approved, we are building a commercial manufacturing and marketing and sales capability for the first time. Our strategy is to take the opportunity presented by telaprevir to build Vertex into a pharmaceutical company with capabilities in all areas necessary for drug discovery, development and commercialization.

We have built, and expect to continue to build, an executive leadership team with the expertise and experience that we need as we expand our capabilities in late-stage drug development, drug supply, registration and commercialization of pharmaceuticals. The market for these individuals is very competitive. In order to attract and retain talented executives, we aim to provide shorter-term compensation elements that rival our competitors', such as base salary, a performance-based annual cash bonus opportunity, and a generous benefits program. However, we also try to conserve our cash resources, because we require significant amounts of capital to fund our operations and are not yet profitable. We do not fund retirement programs, company cars, or other expensive perquisites for our executives. Our compensation program provides for a significant portion of each executive's annual compensation in the form of stock option grants and restricted stock grants that vest over time, or upon achievement of pre-determined goals. We expect the value of these grants to reflect our performance over the longer term. We believe that the inclusion of equity-based awards in our compensation program will attract and motivate executives to set and achieve goals that drive us to long-term success.

Executive Summary

Compensation Objectives and Philosophy: The objective of our executive compensation program is to attract, retain and motivate talented, experienced leaders responsible for executing our business plan. We regularly review our compensation philosophy, elements and amounts, and make adjustments as changing circumstances require. Our philosophy is that the compensation paid to executives should:

- reward desired performance and behaviors;
- be awarded in amounts that are competitive relative to compensation paid by the companies that compete with us for executive talent; and
- reflect a balance of elements so that a significant portion is bonus or equity-based and therefore "at-risk," to better align the executives' financial interests with the interests of our stockholders.

Compensation Elements: The elements of our annual executive compensation program are:

- base salary;
- annual cash bonus;
- stock option grants;

- restricted stock grants; and
- health and other benefits available to all our employees, including matching payments under our 401(k) plan and payment of life insurance premiums.

We set target levels for cash bonuses and equity awards at amounts designed to make us competitive for talent. Each executive's annual cash bonus and equity awards are adjusted from target levels on the basis of company and individual performance for the prior year. The application of these "performance-multipliers" can result in compensation that is significantly lower or higher than target levels, which we believe provides a significant performance incentive.

We also occasionally make supplemental grants of restricted stock or stock options to our current executive officers, as business needs dictate. When we hire new executives, we typically pay sign-on bonuses, award new hire grants of restricted stock and stock options and reimburse moving expenses. We also have entered into employment contracts with severance and change of control payments with each of the eight members of our executive team, including all of the named executive officers, because we believe that they are a fair and effective way to maintain focus on our business in the face of market and other volatility in our industry.

Compensation Decision Making Process: The MDCC oversees the design, development and implementation of the compensation program for all of our executive officers. Compensation decisions generally are made on an annual basis. The board of directors sets performance goals and salaries for each year at its first meeting in the year, and assigns performance ratings and awards bonuses and equity grants shortly after completion of the year, in each case at a regularly-scheduled meeting. The MDCC consults with members of our human resources department, particularly our director of compensation, and engages independent consultants to advise it on specific matters when it deems it appropriate. The MDCC reviews and may adjust compensation elements or amounts throughout the year. In 2007, the MDCC engaged Hewitt Associates to conduct a review of available compensation data from comparator group companies to consider whether or not adjustments to the salaries, target levels of cash and equity compensation, or performance-based adjustment factors of our compensation program was warranted. The materials that management provides to the MDCC often include recommendations with respect to compensation levels and performance ratings, which the MDCC considers but does not give undue weight. Final compensation decisions are approved by our full board of directors, after discussion of the MDCC's recommendations. Dr. Boger, our president and chief executive officer, discusses his compensation with the MDCC, but does not participate in board decisions regarding his own compensation.

2007 Compensation of Named Executive Officers Compared to 2006: We did not make any significant changes to the elements of our compensation program during 2007. Our company performance rating for 2007 was "Strong," and the executive bonus pool factor was 86% of target levels, compared to a company performance rating for 2006 of "Leading," with an executive bonus pool factor of 140%, resulting in significantly lower annual bonus awards to the named executive officers for 2007 performance as compared to 2006 performance. In general, 2007 individual ratings for our named executive officers were lower than for 2006, which resulted in lower average equity grant amounts for 2007 performance than 2006 performance. The salaries of our executive officers, which are adjusted only for market-based factors, were increased by 3% in both the first quarter of 2007 and the first quarter of 2008. Compensation paid to the named executive officers for 2006 and 2007 and information regarding cash bonuses and equity awards based on our performance in 2006 and 2007 are detailed below under the heading *Compensation and Equity Tables—Summary Compensation Table*.

Detailed Analysis and Discussion

Elements of Compensation

The elements of our annual executive compensation program are base salary, annual cash bonus, stock option grants, restricted stock grants, and health and other benefits available to all our employees, including matching payments under our 401(k) plan and payment of life insurance premiums. Each year we review the balance of the elements of our executive compensation program to ensure that we have appropriately designed each element in light of our goals of aligning the program with our stockholders' interests, the competitive environment and our business strategy. We expect that we may adjust our approach to some or all of these elements over time as our company and our business evolve.

Base Salary

The MDCC adjusts the executive officers' base salary levels at the beginning of each calendar year in conjunction with our annual performance review process, which is described more fully below under the heading *Performance-Based Elements of Compensation—Annual Cash Bonus and Equity Awards*.

The MDCC currently sets base salaries for each of our executive officers on the basis of a market analysis, on a position-by-position basis. At the beginning of the year we prepare tables for the MDCC's review, showing a comparison of each executive's prior year base salary and bonus opportunity, at the target level, to salaries and bonuses reported for executives with similar responsibilities at specified comparator companies. For a discussion of our practices in selecting comparator companies, the identity of our comparator companies, and our use of comparative compensation data, see the discussion below at *Compensation Decision Making Process—Analysis of Compensation Practices of Comparator Companies*. We do not benchmark to a particular level of compensation relative to compensation levels at the comparator companies, but rather, make a subjective judgment about where each executive should fall in comparison with executives with similar responsibilities at the comparator companies, taking into account the executive's general level of experience and mastery, significance of job responsibilities to achievement of our business strategy and company goals, and general performance over time, including demonstration of the values and desirable behaviors under our core values program. On the basis of that information, and taking into consideration the executive's base salary for the previous year, the MDCC independently determines an appropriate salary for each named executive officer.

In January 2007 and February 2008, the MDCC analyzed each named executive's base salary and concluded that there was no need to make adjustments other than an across-the-board 3% increase. In making these determinations, the MDCC was provided and considered comparator group proxy data, industry survey data, the levels of named executives' salaries relative to one another, and our recommendation, as prepared by our director of compensation. The 2006, 2007 and 2008 salary levels for the named executive officers are set forth in a table under the heading *Compensation and Equity Tables—Summary Compensation Table—Base Salary*.

Performance-Based Elements of Compensation—Annual Cash Bonus and Equity Awards

Two of the principal elements of our executive compensation program—annual cash bonus and annual equity awards—are awarded in amounts determined on the basis of performance, which is evaluated on an annual basis. The annual cash bonus is determined based on a formula that incorporates the executive's base salary, target bonus and both company-wide and individual performance ratings for the completed

year. Annual equity award amounts are adjusted to reflect the executive's individual performance rating for the preceding year.

At the beginning of each calendar year, our board of directors, in consultation with our chief executive officer, establishes company-wide goals for that year. Actual company performance against these goals is the most important factor considered by the board in accessing our performance, but our board also considers all other factors it deems relevant in its evaluation. The performance ratings are intended to reflect performance at one of the following levels:

Company Rating	Level of Company Performance
Leading	Exceptional performance across our business, including successful execution of our business plan, achievement of a very high proportion of our original goals, significant additional accomplishments exceeding our original goals, and the absence of significant business setbacks.
Strong	A high level of performance, in which a substantial majority of performance goals were met, and accomplishment of our business plan for the year.
Building	Failure to successfully implement the approved goals or to meet a substantial portion of the annual performance goals for any reason, including a failure of management to execute our business plan, or due to events outside our control that nonetheless had a meaningful negative impact on our performance.
Not Building	Unacceptable and disappointing performance. Significant improvement required and expected.

The MDCC evaluates executives' individual performances on a "results-based, values-tempered" basis, which takes into account not only "what" was accomplished, but "how" it was accomplished. The results-based component evaluates the executive officer's performance in his individual role and as a leader of our company in achieving our objectives. The possible individual results-based performance ratings are "leading," "strong," "building" or "not building," with standards comparable to the company ratings set forth in the above table. The values-tempered component of the individual evaluations builds upon our three company core values: "innovation is our lifeblood;" "fearless pursuit of excellence;" and "we wins." Under our Values into Practice program, we expect all employees to demonstrate our company core values in all aspects of job performance. We further expect that our executives will be stewards of our core values, and the performance ratings assigned to them incorporate our board's assessment of the strength of their leadership with respect to, and demonstration of, values-based behavior. This evaluation results in ratings of "not demonstrating," "living the values" or "exemplary demonstration." The "results" and "values" components of the individual rating combine for an overall individual rating of "leading-exemplary," "leading," "strong," "building" or "not building" as set forth in the following table.

Values Evaluation	Results Evaluation			
	Not Building	Building	Strong	Leading
Exemplary Demonstration	Not Possible	Strong	Leading	Leading/Exemplary
Living the Values	Not Building	Building	Strong	Leading
Not Demonstrating	Not Building	Not Building	Building	Not Possible

The company-wide and individual performance ratings, along with other factors as described below, are applied to determine the size of awards made to the executives under our annual cash bonus program and stock and option plans.

Annual Cash Bonus

Our annual cash bonus program is designed to reward our employees, including the named executive officers, in the near term, for accomplishment of the previous year's annual performance objectives. The amount to be paid to each of the named executive officers under the annual cash bonus program is determined on the basis of the following formula:

Target Bonus		Performance Factors						
Base Salary	×	Individual Incentive Target (expressed as a percentage of base salary)	×	Company Performance Factor (expressed as a percentage of the target bonus)	×	Individual Performance Factor (expressed as a percentage of the target bonus)	=	Annual Cash Bonus Award

Target Bonus: The amount calculated by multiplying an employee's base salary by his or her individual incentive target is referred to as the target bonus. Individual incentive targets are established solely on the basis of responsibility level, and are higher for positions of greater responsibility. Thus, a greater portion of annual cash compensation—salary plus bonus—is "at risk" for our executives than for our non-executive employees, which is consistent with our policy that a significant portion of executive compensation should be performance-based and "at-risk."

The individual incentive targets assigned to each level were determined in 2005 using available information about comparator group companies at that time. In 2007, the MDCC engaged Hewitt Associates to conduct a review of available data about comparator company compensation. As a result of its analysis of these data, the MDCC concluded that the aggregate cash compensation—base salary plus target bonus—using the current incentive targets was in the appropriate range. Accordingly, the MDCC made no change to the executive bonus targets for 2007 from those in effect for 2006. The 2007 target bonus percentages were:

Position	Individual Incentive Target (expressed as a percentage of base salary)
Chief Executive Officer	60%
Executive Vice President	40%
Senior Vice President and Member of Executive Team	35%

Performance Factors: The target bonus is subject to adjustment on the basis of performance factors for the applicable year, based on both the individual and company performance ratings. These adjustments allow for payouts significantly above the target bonus in a year where both the individual executive and Vertex significantly exceed performance expectations. It also provides for awards significantly below the target bonus in years in which Vertex and/or the executive falls short of performance expectations.

Company Performance Factors. When our board of directors assigns a performance rating for the completed year, it also assigns two company performance factors—one for our executives and one for all

other employees. The possible company ratings and corresponding company performance factor ranges for our executive officers are set forth in the table below.

Company Rating	Company Performance Factor
Not Building	0%-25%
Building	0%-80%
Strong	80%-120%
Leading	120%-150%

Individual Performance Factors. The possible individual ratings and corresponding individual performance factor ranges for our executive officers are set forth in the table below:

Individual Rating	Individual Performance Factor
Not Building	0%
Building	50%-80%
Strong	80%-120%
Leading	120%-150%

Annual Equity Awards

Stock awards made under our stock and option plans are granted to all eligible employees, including the named executive officers, for the purpose of creating a link between compensation and stockholder return, and to enable the named executive officers and employees to develop and maintain a significant stock ownership position in our company that will vest over time and act as an incentive for the employee to remain employed by us. The number of shares awarded increases with increased responsibility and with higher year-end individual performance ratings.

Under our current annual equity compensation program, each of the named executive officers is eligible for a combined grant of stock options and restricted stock, in amounts finally determined by the board of directors during the annual performance review process. Grants to employees typically are made under a stockholder-approved stock and option plan and are subject to vesting. All stock option awards are granted with an exercise price determined by averaging the high and low price of our common stock on the date of grant and vest quarterly over four years. Accordingly, the intrinsic value of any stock option grant is proportional to both the increase in fair market value of the stock between grant and exercise, and to the increasing number of vested shares over time. Accordingly, we grant stock options as a retention tool, progressively rewarding an executive for time-in-service. Stock options also serve to motivate executives to achieve company financial success, as stock options have realizable value only if the value of our common stock increases after the grant date.

All restricted stock awards made under our annual program to our named executive officers are issued at par value, or \$0.01, and vest on the fourth anniversary of the grant date, subject to accelerated vesting for certain performance-based factors. Shares that are vested may be sold by the holder without transfer restrictions. For all outstanding annual restricted stock grants made to executive officers, 50% of the shares vest if the market price of our stock achieves and maintains a pre-determined level, and 50% of the shares vest if our common stock price outperforms the Amex Biotechnology Index, or BTK Index, for two

consecutive years. We consider the price target to be confidential information, and choose it with the objective of triggering accelerated vesting only upon significant above-market performance of our stock. For all of these outstanding performance accelerating restricted stock awards, the pre-determined price was at least 50% greater than the fair market value of our common stock on the date of grant. For example, on March 17, 2004, when our stock price was \$9.69, the stock price target was set at \$20.00 per share and on February 3, 2005, when our stock price was \$10.41, the stock price target was set at \$20.00 per share. 50% of each of these grants vested on November 9, 2005, because the market price of our common stock achieved and maintained this stock price target. Restricted stock grants serve principally as a retention tool, because their value on the vesting date corresponds directly to the prevailing stock price at any point in time—rather than to any increase over the prevailing stock price on the date of grant. Accordingly, restricted shares have value to the named executive officer even if we have suffered a setback and the price of our common stock has declined, assuming that the shares vest. They also are linked to performance, however, in the sense that they are more valuable if the stock price increases, and because they vest sooner if the performance-based accelerators are achieved. Additional information regarding our equity grant practices is set forth under the heading *Compensation Decision Making Process—Equity Grant Practices*.

Beginning in 2005, including for 2007 performance, the named executive officers were eligible for equity grants in the amounts set forth in the following table:

	Rating							
	Building		Strong		Leading		Leading and Exemplary	
	Restricted Shares	Options	Restricted Shares	Options	Restricted Shares	Options	Restricted Shares	Options
Chief Executive Officer	22,027	165,200	31,467	236,000	39,334	295,000	47,201	354,000
Executive Vice President	6,767	50,750	9,667	72,500	12,084	90,625	14,501	108,750
Senior Vice President and Member of Executive Team	5,693	42,700	8,133	61,000	10,166	76,250	12,200	91,500

In each year beginning in 2003, our board of directors has, at its regularly scheduled summer meeting, awarded a mid-year stock option grant. Ordinarily, our board grants stock options to all eligible employees, including the named executive officers, in an amount that is 50% of the number of shares for a "strong" performance. This grant is considered part of the annual equity award related to performance in that year. Upon completion of the individual's annual performance evaluation early in the following year employees typically receive a second option award. At that time, we determine the aggregate number of shares to be awarded for the entire year on the basis of table above, and award the balance after subtracting the amount granted in the mid-summer award. The restricted stock award portion of annual equity compensation, as adjusted on the basis of the executive officer's individual performance rating, is made to each executive officer in a single grant in conjunction with the annual year-end review process.

In February 2008, the board of directors issued equity awards to all employees on account of 2007 performance. As a result of our rapid growth, there were insufficient shares available for issuance under our 2006 Stock and Option Plan for all grants to be made under our annual performance-based program. Accordingly, our board of directors amended the 2006 Stock and Option Plan to add 536,625 shares, which corresponds to the number of shares subject to awards to our executive officers. This amendment is subject to stockholder approval. As a result, all grants to our executive officers, including the named executive officers, awarded in February 2008 on account of 2007 performance, are contingent upon obtaining stockholder approval of the February 2008 amendment to the 2006 Stock and Option Plan. These grants will terminate if approval of the amendment to our 2006 Plan is not obtained at or before our 2009 annual meeting of stockholders. See Proposal 3 on page 13.

2007 Compensation Decisions for Performance-Based Elements.

Company Rating—For 2007, our board of directors evaluated overall 2007 performance against four high-level goals summarized below:

- meet or exceed timelines in clinical, regulatory, quality, manufacturing, and commercial toward a successful launch of telaprevir;
- continue to build portfolio in addition to telaprevir toward enablement of future new product launches;
- maintain financial strength by balancing our net investment (loss) with balance sheet strength, enabling future investment and outperforming a specified index of biotechnology companies; and
- enable long-term growth by prioritizing talent management, implementing mission-critical business processes, and maximizing external relationships.

Our board determined that our company performance rating was "Strong," and set the company performance factor for the executive bonus pool at 86%, which was at the low end of the possible range of performance factors (80% - 120%) based on a "Strong" rating. This rating was based on balancing positive accomplishments in advancing the telaprevir clinical development program and our portfolio of other drug candidates, and expanding our drug development, supply chain management and commercialization organizations, tempered by some delays in our telaprevir clinical development program and a decline in our stock price at the end of fiscal 2007 that could have affected our access to capital. In reaching this determination, the board considered the following:

- **Telaprevir**—We advanced the development of telaprevir by: analyzing and submitting to the United States Food and Drug Administration, or FDA, data from our PROVE 1 and PROVE 2 clinical trials to support the commencement of our Phase 3 clinical trials; completing enrollment of our PROVE 3 clinical trial; advancing our quality control capabilities; executing commercial supply agreements necessary to begin production of our commercial inventory; completing manufacture of registration batches and active pharmaceutical ingredient validation; obtaining formal scientific advice from regulatory authorities in Europe to support our global registration plan; and continuing to prepare our organization for eventual commercial operations. However, our agreement with the FDA on the design of a Phase 3 clinical trial was delayed until early 2008. As a result, we were not able to commence the ADVANCE Phase 3 clinical trial until the first quarter of 2008. Overall, our board wished to recognize our significant accomplishments with advancing telaprevir and

positioning us to capitalize on the development of telaprevir in 2008 and future years, but recognized that we had experienced delays during 2007.

- **Portfolio**—We met our goals with respect to advancement of the other drug candidates in our portfolio. We initiated Phase 2a and Phase 1 clinical trials of VX-770 and VX-809, our cystic fibrosis drug candidates, and a Phase 1 clinical trial of VX-500, a second generation HCV protease inhibitor. We also appropriately advanced VX-813, another second generation HCV drug candidate, and VX-509, our janus kinase 3 inhibitor, which were positioned to enter clinical trials in 2008.
- **Financial**—In 2007, we did not meet our financial objectives, which would have required us to achieve a net loss on the low end of the range for which we provided guidance, complete an equity or debt financing to maintain an appropriate balance between investment in our business and balance sheet strength and maintain or improve our stock price. Our 2007 actual net loss was on the high end of our guidance range and our stock price declined from the mid-\$30s in January 2007 to the mid-\$20s in December 2007. In addition, primarily as a result of the delays in reaching agreement with the FDA on the design of our ADVANCE clinical trial of telaprevir, we were not able to complete our equity and debt financing until February 2008.
- **Infrastructure**—In 2007, we met our infrastructure goals by expanding our capabilities in clinical development, regulatory affairs, quality control and commercial operations and by making significant progress in preparing for the commercial supply and marketing of telaprevir.

Although the directors discuss and analyze our performance as a group, each director makes his or her own judgment about which factors are important, and how to weight those factors in reaching a conclusion. We consider our annual corporate goals to be confidential information and closely guard this information, because we believe that our competitors could use it to modify their strategies to compete more effectively with us. As a result, the preceding discussion provides a more specific discussion of our goals relating to drug candidates in clinical trials, including telaprevir, and our financial goals, than our goals relating to pre-clinical drug candidates and business development activities.

Our corporate goals for every year are intended to be ambitious. Due to the high risks associated with developing and commercializing pharmaceutical products, we elect to diversify our research and development activities across a relatively broad array of disease indications and drug targets. While we expect that not all of our programs will be successful, we establish our annual goals as if they will be. Accordingly, our company performance ratings have varied widely in the last several years, reflecting successes and setbacks in our business. For example, during the period between 2003 and 2006, our company performance ratings were:

- A "Leading" company rating, with a 140% company performance factor for our executive officers, for 2006 because our board believed that we achieved a very high proportion of our annual goals for 2006 across all significant aspects of our business. In 2006, we advanced our telaprevir clinical development program and secured a key collaborative relationship with Janssen Pharmaceutica for development and potential commercialization of telaprevir. We also achieved key development milestones for earlier stage compounds, and accomplished certain financial objectives, including the completion of a \$330 million common stock offering and reduction of our outstanding convertible indebtedness to approximately \$100 million.

- A rating of "Distinguished" for 2005, which was the highest possible rating under a previous rating system that included seven possible company ratings. According to our board's assessment, we made progress in every significant aspect of our business in 2005. We advanced our development stage products, including telaprevir and VX-702 and supported our key collaborative relationships, including our relationships with GlaxoSmithKline, Merck, Mitsubishi Pharma, Kissei Pharmaceuticals and Novartis Pharma. We also entered into key new collaborative relationships including a worldwide collaboration with GlaxoSmithKline for development of VX-409 for the treatment of pain, and advanced a number of compounds, including a cystic fibrosis potentiator compound, from the discovery phase to pre-clinical development.
- A rating of "Superior" for 2004, which was the second highest possible rating under our previous rating system. In 2004, our board believed that we made notable progress in every significant aspect of our business. We advanced our development-stage products, supported our key collaborative relationships, improved our financial performance, and advanced a number of compounds from the discovery phase to pre-clinical development.
- A rating of "Needs Improvement" for 2003, which was the second lowest possible rating under the previous rating system. We suffered a number of setbacks in 2003, including the suspension of a clinical trial related to our leading drug candidate at that time and we did not substantially strengthen our financial position.

Individual Ratings for Named Executive Officers—The MDCC individual rating recommendations for all of the named executives except for Mr. Kenneth Boger were based principally upon factors known to MDCC members from their interactions with the named executive officers during the year, including each officer's role in accomplishment of corporate goals, and the recommendation of our chief executive officer, Dr. Joshua Boger, made on the basis of Dr. Boger's independent assessment of the named executive's performance in 2007.

Dr. Boger discussed his own performance in 2007 with the MDCC. Dr. Boger noted that the company's performance rating was on the low end of the "strong" range. Dr. Boger suggested that his own results-based rating for 2007 performance should be "building," because he bore ultimate responsibility for the company's 2007 performance. The MDCC and board of directors agreed. As for values-based behavior, the MDCC believes that Dr. Boger is an exceptional leader who exhibits exemplary values-based behavior, and accordingly, assigned Dr. Boger a values-based rating of "exemplary demonstration."

Dr. Boger advised the MDCC about both results-based and values-based ratings for each of Mr. Smith, Dr. Mueller and Dr. Alam. With respect to results, Dr. Boger related each executive's performance to overall company results. For example, Dr. Boger recommended that Dr. Mueller receive a rating of "leading," because in addition to consistent and excellent research productivity, Dr. Mueller oversaw a year of extraordinary success for the pharmaceutical operations and chemistry, manufacturing and controls programs, particularly for the telaprevir Phase 3 clinical trial and launch preparation. Dr. Alam's clinical development organization successfully advanced a number of our later stage compounds, including telaprevir and VX-770, and completed the groundwork for obtaining FDA agreement in January 2008 to go forward with Phase 3 clinical trials of telaprevir, earning Dr. Alam a results-based rating of "strong." Mr. Smith's organization, which includes finance and accounting, properties, operations, information systems and strategic communications, also performed at a high level in supporting achievement of the corporate objectives detailed above, earning Mr. Smith a results-based rating of "strong." With respect to values-based evaluation, Dr. Boger recommended that each of

Mr. Smith and Dr. Alam be rated "living the values" because they demonstrated strong values-based behavior. Dr. Boger's assessment was that Dr. Mueller is an exemplar for the organization in terms of his commitment to innovation, excellence and synergy, and he recommended an "exemplary demonstration" rating for Dr. Mueller. The MDCC's ultimate assignment of results-based ratings to Mr. Smith, Dr. Mueller and Dr. Alam relied in part on Dr. Boger's recommendations, but diverged in some instances from his conclusion. The MDCC did place a heavy weight on Dr. Boger's recommendations with respect to values-based ratings, which the committee members believe to be more subjective and intangible, and difficult for board members to assess on the basis of limited contact with the executives.

Dr. Boger plays no role in the performance evaluation of his brother Kenneth S. Boger, who is our senior vice president and general counsel, and who reports directly to the Corporate Governance and Nominating Committee. Mr. Boger's performance rating is established by the board of directors upon the recommendation of the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee assigned Mr. Boger a results-based rating of "strong" as a result of his demonstrated excellence in advising both our board and executive management about a wide variety of business and legal matters, as well as his stewardship of the legal department. Mr. Boger received a values-based rating of "living the values" because he demonstrated strong values-based behavior.

Based on the foregoing, the MDCC recommended and the board of directors assigned the following performance ratings on account of 2007 performance to the named executive officers.

	Results—Based Evaluation	Values—Based Evaluation	2007 Overall Performance Rating	Individual Performance Factor
Joshua S. Boger	Building	Exemplary Demonstration	Strong	100%
Ian F. Smith	Strong	Living the Values	Strong	100%
John J. Alam	Strong	Living the Values	Strong	100%
Peter Mueller	Leading	Exemplary Demonstration	Leading/Exemplary	150%
Kenneth S. Boger	Strong	Living the Values	Strong	100%

Annual Cash Bonus and Equity Awards—The annual cash bonuses and annual equity awards for 2006 and 2007 resulting from the company and individual performance ratings are set forth in the tables under the headings *Compensation and Equity Tables—Summary Compensation Table—Non-Equity Incentive Plan Compensation—Cash Bonus* and *Compensation and Equity Tables—Summary Compensation Table—Stock Awards and Options Awards*.

Benefits

Our executives are eligible to participate in all benefits programs on the terms made generally available to our employees, including medical insurance, dental insurance, payment of life insurance premiums, disability coverage, and participation in our Employee Stock Purchase Plan. Our retirement benefits are limited to a defined contribution (401(k)) plan, in which our named executive officers are eligible to participate, subject to all applicable limitations under the plan, including the federal maximum annual contribution amounts. We make matching contributions to the 401(k) plan, which are made in the form of fully vested unitized interests in a Vertex common stock fund, and are subject to certain limitations. The formula for determining the amount of our matching contributions is the same for our

named executive officers as for our other employees, but the actual contributions made to the accounts of our named executive officers are at the top end of the formula range, due generally to the executives' higher salaries and corresponding higher cash contribution levels. We do not provide any other retirement benefits to the named executive officers.

Other-Than-Annual Compensation Arrangements

New Hire Compensation Elements. The initial compensation terms for newly hired executives are the result of negotiations between us, in consultation with the MDCC and our board, and the executive being recruited. Accordingly, the initial employment terms for each of the named executive officers vary significantly, depending on the level of responsibility, market for the executive's services, value of other opportunities available to the executive and similar considerations. We seek to balance the need to be competitive in a competitive market against the need for the executive's compensation to be comparable with the executive's peers at the company. In general, each newly hired executive is awarded a stock option and restricted stock grant, and in some cases a sign-on bonus, reimbursement of moving expenses, and other benefits. Kurt Graves and Amit Sachdev, the two members of the executive team that we recruited during 2007, each received some or all of these benefits.

Supplemental Grants of Equity Compensation. On an occasional basis, the MDCC has recommended that our board of directors make an additional, off-cycle equity award to an executive officer or group of officers in order to achieve one or more of the objectives of our executive compensation program. Our board has made three such awards, beginning in 2004, to some or all of the named executive officers. In May 2004, our board made a retention grant of restricted stock to all of our executives, in order to retain our executive leadership at a time when we had suffered a number of setbacks, particularly with respect to late-stage drug candidates being developed by collaborators. The shares subject to these grants vest in two installments, with 50% vesting on the third anniversary of the grant, and 50% vesting on the fifth anniversary of the grant, or sooner, if we achieve profitability. In February 2006, our board awarded our chief executive officer, Dr. Joshua Boger, an additional option grant for 298,500 shares, to bring the total grant on that date, including grants on account of 2005 performance, to 600,000 shares, all of which vest quarterly over four years. The purpose of this grant was to provide an additional incentive for Dr. Boger, whose performance and leadership are valued very highly by our board of directors, to remain in service as our chief executive officer as we build the company around our later-stage drug candidates. Similarly, in January 2007, our board awarded 20,000 shares of restricted stock to each of our then executive vice presidents—Mr. Smith, Dr. Alam, Dr. Hartmann and Dr. Mueller—as an additional incentive to remain with us over the next several years. Supplemental grants generally are made on an *ad hoc* basis, when warranted in the judgment of the MDCC and our board. We cannot predict if the board of directors will make additional supplemental grants in the future, or characterize the likely size and/or terms of any such grants.

Post-Termination Compensation and Benefits

We have entered into agreements and maintain plans that will require us to provide to our named executive officers under specified circumstances cash compensation, benefits and/or acceleration of the vesting of equity awards in the event of termination of employment. The terms of these agreements vary from executive to executive with respect to the amount of severance payments, provisions for accelerated equity award vesting, continuation of benefits and other terms. Prior to 2008, we had entered into agreements with executives primarily at the time they are recruited. The employment contracts had general

topics in common, such as severance amounts for voluntary and involuntary terminations, under a variety of circumstances, including in connection with a change of control. However, each employment contract was separately negotiated, taking into account both our interests and the executive's interests under the circumstances at the time of negotiation. There are a number of factors that influenced the outcome of these negotiations with each potential executive. For example, the executives differ significantly from each other in terms of their seniority, experience, talents, motivations, areas of expertise and other individual circumstances. In addition, the executives we are recruiting typically have existing job interests, and we take those interests into account in the negotiations. For example, when we recruit individuals from lucrative private practices, we find that they are unlikely to join us without assurances of enough pay and severance benefits to compensate them for leaving their practices. Executives who join us from other companies may sacrifice potential bonuses and/or equity payouts, and may seek assurances of compensation elements of similar value. More experienced individuals may seek higher compensation than individuals who are still establishing their careers. We also are mindful that candidates compare their proposed compensation levels with those of their potential peers on the executive team. In October 2007, the MDCC considered new guidelines in order to provide a more consistent approach to our post-termination compensation and benefits to the executive team. This new policy was recommended to and adopted by our full board in February 2008.

In connection with establishing these guidelines, the MDCC also decided that each of the existing members of the current executive team, including our named executive officers, should receive post-termination compensation and benefits that are no less favorable than those set forth in the new policy. As a result of this determination, in February 2008 we amended and/or entered into new arrangements with three of our named executive officers: John J. Alam, Peter Mueller and Kenneth S. Boger. A further discussion of the terms and projected payments under each of these contracts is set forth below under the heading *Employment Contracts and Change of Control Arrangements*.

We use a "double trigger" with respect to benefits that are to be provided in connection with a change of control. In other words, the change of control does not itself trigger benefits; rather, benefits are paid only if the employment of the executive is terminated by us other than for cause, death or disability, or by the executive for good reason during a specified period before or after the change of control. We believe a "double trigger" benefit maximizes stockholder value because it prevents a windfall to executives in the event of change of control in which the executive retains significant responsibility as defined in his or her individual agreements, while still providing our executives appropriate incentives to cooperate in negotiating any change of control in which company executives ultimately believe they may lose their jobs.

In addition to the benefits that only accrue in connection with a change of control, our agreements with certain of our executive officers provide benefits if we terminate their employment with us without cause or they terminate their employment with us for good reason, as such terms are defined in the applicable agreement with the executive officer. A further discussion of the terms and projected payments under each of these contracts is set forth below under the heading *Employment Contracts and Change of Control Arrangements*.

Compensation Decision-Making Process

Role of MDCC and Chief Executive Officer in Setting Executive Compensation

The MDCC has primary responsibility for advising our board of directors with respect to developing and evaluating potential candidates for executive positions, including the chief executive officer, and for overseeing the development of executive succession plans. As part of this responsibility, the MDCC oversees the design, development and implementation of the compensation program for the chief executive officer and the other named executive officers.

The MDCC evaluates the performance of our chief executive officer and recommends to our board for its approval all compensation elements and amounts to be awarded to our chief executive officer. Our chief executive officer, who is a member of our board, does not participate in board decisions relating to his compensation or the compensation of his brother, Kenneth S. Boger.

The MDCC also assesses the performance of the other executive officers and recommends compensation elements and amounts for their compensation to our board. Our chief executive officer and our senior vice president, human resources, assist the MDCC in reaching compensation recommendations with respect to executive officers, including the named executive officers, other than the chief executive officer. The other named executive officers do not play a role in their own compensation determination. Our board makes all final compensation decisions with respect to our executives.

Role of Compensation Consultant.

Neither the company nor the MDCC has a contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of executive or director compensation. Occasionally, the MDCC has engaged Hewitt Associates to provide information about competitors' compensation practices. In 2007, the MDCC engaged Hewitt on two occasions. In advance of its July 2007 meeting, the MDCC instructed Hewitt to conduct an analysis of all elements of compensation paid to our five most highly compensated executives compared to similar elements paid to similarly-situated executives at companies in our comparator group and to provide a written report and presentation of findings at the July 2007 MDCC meeting. This information was used as described under the headings *Executive Summary—Compensation Decision Making-Process*, *Detailed Analysis and Discussion—Elements of Compensation—Performance-Based Elements of Compensation—Annual Cash Bonus and Equity Awards—Annual Cash Bonus* and *Compensation Decision Making-Process—Analysis of Compensation Practices of Comparator Companies*. The MDCC also invited a representative of Hewitt to attend its October 2007 meeting. At that meeting, the Hewitt representative provided information about our competitors' practices with respect to severance and change of control policies for senior executives, and advised the MDCC about a proposal from management to revise and standardize our policies in that regard. Hewitt does not provide any services directly to Vertex.

Analysis of Compensation Practices of Comparator Companies

In order to make judgments about elements of executive compensation on a competitive basis, we consider information about the compensation practices of a representative group of companies with whom we compete for executive talent. We select the companies for this comparator group on the basis of industry, annual operating expenses and market capitalization. We review and revise the list of companies on a regular basis. In 2006, we included approximately 20 companies in the comparator group. We chose this number of companies to ensure that we had enough comparative compensation information. In order

to include this number of companies in the group, we included companies with operating expenses and/or market capitalizations that were significantly higher or lower than ours. In general, however, due to concerns that data from the largest and smallest companies in the group might distort our analysis, for compensation decisions in 2006 and early 2007, we focused primarily on comparative information reported by a smaller subgroup of the 20 comparator companies, set forth below as the "primary comparator group."

During 2007, the MDCC reconsidered the composition of the comparator group, and decided that the benefits of having a larger number of companies in the group were outweighed by the disadvantages of including significantly larger and smaller companies. Accordingly, the MDCC decided that the comparator group companies for compensation analyses beginning in mid-2007 would consist of the companies set forth in the right column in the table below:

	Comparator Group 2006 - Mid-2007	Comparator Group Mid-2007 - 2008
2006 - Mid 2007 Primary Comparator Group	Biogen Idec Inc. Shire plc Genzyme Corporation Cephalon, Inc. MedImmune, Inc. Sepracor Inc. Millennium Pharmaceuticals, Inc. Elan Pharmaceuticals Vertex Pharmaceuticals Incorporated PDL BioPharma, Inc. Celgene Corporation Amylin Pharmaceuticals, Inc. Endo Pharmaceuticals Holdings Inc. MGI Pharma, Inc. OSI Pharmaceuticals, Inc. Imclone Systems Incorporated Human Genome Sciences, Inc. Theravance, Inc. Icos Corporation Alkermes, Inc.	Sepracor Inc. Elan Pharmaceuticals Amylin Pharmaceuticals, Inc. Millennium Pharmaceuticals, Inc. Endo Pharmaceuticals Holdings Inc. Vertex Pharmaceuticals Incorporated PDL BioPharma, Inc. OSI Pharmaceuticals, Inc. Imclone Systems Incorporated Medarex, Inc. Theravance, Inc.

The MDCC does not benchmark executive compensation awards against comparator company compensation. After choosing the new comparator group in the second quarter of 2007, the MDCC considered comparator group data on two occasions. In July 2007, the MDCC conducted a comprehensive review of our executive compensation program on an element-by-element basis. In connection with this review, the MDCC considered a report prepared by our compensation consultant, Hewitt Associates, which compared target and actual compensation for our executives against corresponding information disclosed by comparator group companies, on both an aggregate and company-by-company basis. The purpose of this evaluation was to confirm that our compensation practices and the result of applying our

policies and programs in general resulted in compensation levels that are competitive with those of the comparator companies. Similarly, for the February 2008 determination of equity grants and 2008 base salaries, the MDCC was provided with the comparator company data compiled by Hewitt Associates. In addition, we provide broader industry-specific executive compensation surveys published by Organization Resources Counselors, Inc. and by Towers Perrin to the MDCC for their review.

Interdependence of Elements and Tally Sheets

The elements of our compensation operate independently from one another, except that an adjustment to an executive's base salary level also will result in a corresponding change in the executive's bonus opportunity, and potentially, any severance or change of control payments.

Any time the MDCC evaluates an amount to award or pay for a specific compensation element, we provide a tally sheet that sets forth all elements of the executive's compensation, including salary, cash bonus, value of equity compensation, the dollar value to the executive and cost to us of all personal benefits, and the actual projected payout obligations under potential severance and change of control scenarios, and showing the impact of the proposed award or payment on each compensation element and on the executive's aggregate compensation. The purpose of the tally sheets is to provide information to the MDCC to assist in the establishment and administration of an overall executive compensation program that is fair and reasonable both to our executives and to our stockholders. The tally sheets contain categories of information similar to those provided under the caption *Compensation and Equity Tables*. However, because the tally sheets are used by the MDCC in connection with forward-looking compensation decisions, we often provide different values in the tally sheets than are reported in these tables. In particular, the tally sheets use more current market prices and use different assumptions regarding the timing and circumstances of any event that could result in a severance payment. For example, tally sheets prepared in 2007 incorporated assumptions that any employment termination in connection with a change of control of the company would take place at least three months in the future and that a buyer would pay a premium over the market price of the company's common stock. The purpose of this information is to permit the MDCC to anticipate the potential payouts under these contract provisions, should they be triggered during the year. Each committee member uses the tally sheets as he or she determines when making compensation decisions. The review of tally sheets does not result in specific awards. Rather, the tally sheets provide background information for the MDCC to use in considering one or more components of compensation. Also, the MDCC uses the tally sheets, together with other resources, to make a determination each year that the aggregate compensation for each named executive is reasonable and not excessive.

While the tally sheets include information about the current and projected value of each executive's inventory of outstanding vested and unvested equity awards, we believe it is inconsistent with our compensation philosophy to give this "accumulated wealth" weight in setting current executive compensation levels. The value of an executive's equity inventory is largely a function of prior performance, in terms of the size of the grants, the duration of the executive's tenure with us, and the performance of our common stock during that tenure. We do not believe that reducing the amount of an executive's current compensation on account of wealth accumulated for prior performance would be consistent with our compensation objectives of retaining, motivating and rewarding our executives.

Tax Considerations

We would like our compensation program to be reasonably cost and tax effective. To the extent consistent with our other goals, we try to preserve corporate tax deductions, while maintaining the flexibility to approve compensation arrangements that we believe to be in the best interests of the company and our stockholders, but that may not always qualify for full tax deductibility. The adverse tax impact to us of making awards that do not qualify as performance-based compensation, such as certain severance payments and restricted stock grants, currently is minimal, because at this time we do not have net income subject to federal income tax.

Equity Grant Practices

The exercise price for each stock option awarded to our current executive officers under our equity compensation program is the average of the high and low price for our common stock on the date of grant. As discussed above, our board generally grants employee options two times per year, on the date of its mid-summer meeting, usually in July, and on the date of its first meeting of each new year, usually in late January or early February. Board and committee meetings generally are scheduled at least a year in advance, and scheduling decisions are made without regard to anticipated earnings or other major announcements by the company.

In general, newly hired employees, including executive officers, are granted options and/or restricted stock effective on the first day of employment, with the options having an exercise price set at the average of the high and low price for our common stock on the employment start date. The employees' start dates are scheduled without regard to anticipated earnings or other major announcements by the company.

Report of Management Development and Compensation Committee on Executive Compensation

The Management Development and Compensation Committee has reviewed the Compensation Discussion and Analysis and discussed that analysis with management. Based on its review and discussions with management, the Management Development and Compensation Committee recommended to Vertex's Board of Directors that the Compensation Discussion and Analysis be included in Vertex's proxy statement for its 2008 annual meeting of stockholders and incorporated by reference into Vertex's Annual Report on Form 10-K for the year ended December 31, 2007. This report is provided by the following directors who comprise the Management Development and Compensation Committee:

The amounts in the "Estimated Possible Payouts Under Non-Equity Incentive Plan Awards" column represent the minimum, target and maximum amounts that our named executive officers were eligible for pursuant to our 2007 annual cash bonus program. Actual amounts paid to each of the named executive officers under this plan are set forth in the Summary Compensation Table above.

The amounts in the "Estimated Future Payouts Under Equity Incentive Plan Awards" column represent the number of shares subject to restricted stock grants to the named executive officer in early 2007, on account of 2006 performance. Each of these grants, excluding the grants of 20,000 shares to Mr. Smith, Dr. Alam, Dr. Mueller and Dr. Hartmann discussed below, is characterized as Performance-Accelerated Restricted Stock, which is subject to time-based vesting on the fourth anniversary of grant.

with 50% of the shares subject to acceleration of vesting if the market price of our common stock achieves and maintains a pre-determined value that is more than 150% of the fair market value of our common stock on the grant date and 50% of the shares subject to acceleration of vesting if our common stock outperforms the BTK Index for two consecutive years. In addition, each of our Executive Vice Presidents on January 24, 2007 received a restricted stock award for 20,000 shares of common stock. These awards vest as to 5,000 shares on May 6, 2008, and as to 15,000 shares on May 6, 2010. The purchase price for such shares of restricted stock was \$0.01 per share.

In accordance with our stock and option plans, the exercise prices for the stock options granted to our named executive officers during 2007 were equal to the average of the high and the low prices of our common stock on the grant date. As a result, in 2007 the exercise prices of options granted to our named executive officers were higher than the grant date closing price of our common stock for our January 24, 2007 grants and lower than the grant date closing price of our common stock for our July 12, 2007 grants. In the future, we expect that options will continue to be granted with exercise prices equal to the average of the high and low prices of our common stock on the grant date, and that as a result the exercise prices are likely be different from the closing price of our common stock on the grant date. Each stock option set forth in the table above is subject to vesting in 16 quarterly installments during the first four years of its ten-year term.

Options Exercised and Stock Vested

The following table provides information with respect to the value realized by our named executive officers related to options to purchase common stock exercised by the named executive officers during 2007 and shares of restricted stock that vested during 2007. The value realized per share for options is based on the difference between the exercise price and the fair market value of the shares of common stock at the time the options were exercised. The value realized on vesting of restricted stock awards is based on the fair market value of the shares on the vesting date.

Compensation of Directors

We have designed and implemented our compensation programs for our non-employee directors to attract, motivate and retain individuals who are committed to our values and goals and who have the expertise and experience that we need to achieve those goals. We periodically review and adjust our non-employee director compensation program. Joshua Boger, our president and chief executive officer, does not receive any additional compensation for his service on our board of directors.

The current annual cash compensation for non-employee directors serving on our board of directors includes an annual retainer of \$25,000, payable in quarterly installments, plus \$2,500 for each board meeting attended and \$500 for each committee meeting attended on a regular board meeting day. If a committee meeting is held on a day other than a regular board meeting day, the committee meeting fee is \$1,000. Board and committee meetings held by conference call are compensated at the rate of \$1,250 per meeting and \$375 per meeting, respectively. The chair of the corporate governance and nominating committee receives an additional annual retainer fee of \$20,000, the chair of the audit and finance committee receives an additional annual retainer fee of \$20,000, the chair of the commercial strategy committee receives an additional annual retainer fee of \$20,000, and the chair of the MDCC receives an additional annual retainer fee of \$14,000.

In addition, each non-employee director, upon initial election or appointment to the board, receives a non-qualified option to purchase 30,000 shares of our common stock at an exercise price equal to the fair market value per share of our common stock on the date of grant. Those options vest quarterly over a four-year period from the date of grant, based on continued service on the board. There were no directors elected to their initial term in 2007. Each non-employee director in office on June 1 of each fiscal year also receives a non-qualified option to purchase 20,000 shares of common stock, exercisable immediately, at a price equal to the fair market value per share of our common stock on the date of grant. The chairman of our board receives an additional non-qualified option to purchase 20,000 shares of common stock,

exercisable immediately, at a price equal to the fair market value per share of our common stock on the date of grant.

The following table provides certain summary information concerning compensation earned during 2007 by our non-employee directors.

(2) The amounts set forth under the caption "Option Awards" in the table above represent the stock-based compensation expense recognized in 2007 for financial statement reporting purposes in accordance with Statement of Financial Accounting Standard No. 123(R), "Share-Based Payment," relating to outstanding equity awards, disregarding the estimate of forfeitures for service-based vesting conditions. Our methodology, including underlying estimates and assumptions, for calculating these values is set forth in Note D to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission on February 11, 2008. Each of our non-employee directors serving as a director on June 1, 2007 received a non-qualified option to purchase 20,000 shares of our common stock, exercisable immediately, at an exercise price of \$29.84, which was the average of the high and low prices for the common stock on the date of grant. The grant date value of each grant was \$323,162. In addition, for service as the chairman of our board, we granted Dr. Sanders an additional non-qualified option to purchase 20,000 shares of our common stock, exercisable

immediately, at an exercise price of \$29.84, which was the average of the high and low prices for the common stock on May 31, 2007, the date of grant. The grant date value of this grant was \$323,162.

As of December 31, 2007, our non-employee directors had outstanding stock options to purchase our common stock as follows:

Charles A. Sanders	—	150,000	150,000

SUMMARY OF TERMINATION AND CHANGE OF CONTROL BENEFITS

The following table describes payments and benefits to which each of the named executive officers who were employed by us as of December 31, 2007 would be entitled under current agreements in connection with a termination of employment, including in connection with a change of control of Vertex. The amounts shown in the table below are calculated based on the amounts that would have been payable had the termination occurred on December 31, 2007, provided, that we have assumed for these purposes that each of the agreements or amendments to agreements with our named executive officers that were entered into in February 2008 were in effect as of December 31, 2007. These amounts do not include any life insurance payments or disability insurance payments that the executive or the executive's estate may receive under existing insurance policies. The assumptions underlying the calculations in the following tables include:

- the value of each share subject to an option to purchase common stock that would be accelerated in the circumstances described below equals \$23.23 per share (the closing price on the last trading day of 2007), minus the exercise price per share;
- the value of each share of restricted stock for which our repurchase right would lapse in the circumstances described below equals \$23.23 per share (the closing price on the last trading day of 2007);
- appropriate provision for the continuation of all then-outstanding options would be made in connection with a change of control; and

our board of directors would elect not to pay a pro rata portion of an executive's target bonus for the year of termination in cases where the executive's employment is terminated voluntarily by the executive (for any reason, including retirement) or for cause, consistent with our policy that cash bonuses are payable only to employees who are otherwise eligible and who remain employed by us on the date of bonus payment, typically in February of the next year.

The actual amounts that the named executive officers could receive in the future as a result of a termination of employment would likely differ materially from the amounts set forth below as a result of, among other things, changes in our stock price, changes in their base salary, target bonus amounts and actual bonus amounts, and the vesting and grants of additional equity awards.

EMPLOYMENT CONTRACTS AND CHANGE OF CONTROL ARRANGEMENTS

We have entered into agreements and maintain plans that will require us to provide to our named executive officers cash compensation, benefits and/or acceleration of the vesting of equity awards in the event of termination of employment under specified circumstances. The following summary descriptions of our employment contracts, change of control agreements and restricted stock agreements containing severance provisions with our named executive officers are qualified by the more complete terms and conditions set forth in each of the agreements. In addition to the agreements described below, outstanding options granted under our stock and option plans provide that, in the event of certain changes of control, either appropriate provision for the continuation of all then-outstanding options must be made, or the vesting of those options will be accelerated and they will become fully exercisable immediately prior to such change of control.

Joshua S. Boger

Dr. Boger has a written employment contract, which was entered into in 1994 and amended in 1995 and 2004. Dr. Boger's contract provides for an annual salary determined by our board of directors and also provides for him to receive the benefits generally made available to our other executives. Pursuant to his employment contract, Dr. Boger has agreed not to compete with us for the term of the agreement and for a period of one year thereafter.

Dr. Boger's contract provides that, if Dr. Boger's employment were terminated by us without cause prior to a change of control, he would receive:

Severance Payment:	150% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
Options:	Vesting of outstanding options that would have otherwise vested in the 18 months following termination
Restricted Stock:	Vesting of each outstanding restricted stock award that would have otherwise vested in the 18 months following termination, treating each award that does not vest ratably as if it vests ratably over the term of the grant

If Dr. Boger terminates his employment with us for good reason prior to a change of control, his employment contract provides that he would receive:

Severance Payment:	150% of his base salary at the time of termination
--------------------	--

If, after a change of control, Dr. Boger's employment is terminated without cause or he terminates his employment with us for good reason, he would receive:

Severance Payment:	300% of the sum of (i) his base salary at the time of termination and (ii) the average of the amount paid to him as a bonus in each of the two years prior to the year in which his employment is terminated
Options:	Full vesting of all outstanding options
Restricted Stock:	Full vesting of all outstanding restricted stock grants
Employee Benefits:	Continuation of certain employee benefits for up to three years
Tax Benefits:	Additional payments required to compensate Dr. Boger if payments made under the employment agreement result in certain adverse tax consequences, including excise taxes under Section 4999 of the Internal Revenue Code of 1986, as amended

Under the employment agreement, Dr. Boger would have the right to terminate his employment for good reason upon the occurrence of the following events without Dr. Boger's consent:

- a substantial adverse alteration in the nature or status of Dr. Boger's position or responsibilities or the conditions of his employment as chief executive officer;
- a reduction in his annual base salary;
- our failure to pay Dr. Boger's compensation to which he is entitled within seven days after the date such compensation is due;
- any termination of Dr. Boger that is not effected pursuant to a notice of termination satisfying the provisions of his employment agreement; or

- our failure to obtain a satisfactory agreement from any successor to assume the employment agreement.

In addition, during the nine month period following a change of control, Dr. Boger would have the right to terminate his employment for good reason upon the occurrence of any of the following events:

- the assignment to Dr. Boger of any duties inconsistent in any respect with Dr. Boger's position, authority, duties or responsibilities;
- any action by us that results in a diminishment in Dr. Boger's position, authority, duties or responsibilities; or
- the failure by us to continue in effect after such change of control any material compensation or benefit plan in which Dr. Boger participated immediately prior to the change of control, unless, subject to specified conditions, an equitable arrangement has been made with respect to any such plan, or our failure to allow Dr. Boger to continue his participation in any ongoing plan.

Under Dr. Boger's employment agreement cause means either the willful and continued failure by Dr. Boger to substantially perform his duties—subject to specified exceptions—after a written demand for substantial performance is delivered to him by our board specifically identifying the manner in which our board believes that he has not substantially performed his duties, or willfully engaging in conduct which is demonstrably and materially injurious to us, monetarily or otherwise.

Under Dr. Boger's employment agreement a change of control shall be deemed to have occurred if:

- the change of control is of a type that would be required to be reported in response to Item 6(e) of Schedule 14A of Regulation 14A of the Securities and Exchange Act of 1934, as amended;
- a person, together with its affiliates and associates, becomes the beneficial owner of 20% or more of our voting shares then outstanding (excluding specified securities), unless the acquisition of the shares was an approved transaction;
- during any period of 24 months, individuals who were on our board of directors at the beginning of that period plus individuals whose nomination for election to the board by our stockholders was approved by a vote of at least two-thirds of the directors (subject to certain limitations) cease for any reason to constitute a majority of our board; or
- our stockholders approve our merger or consolidation with any other corporation, other than (a) a merger or consolidation that would result in our voting shares outstanding immediately prior to that merger or consolidation continuing to represent at least 50% of the combined voting shares of the surviving entity immediately after that merger or consolidation or (b) a merger or consolidation effected to implement a recapitalization in which no person becomes an acquiring person.

In addition to his employment agreement, Dr. Boger is a party to a restricted stock agreement with us that is described below.

Ian F. Smith

The terms and conditions of Mr. Smith's employment are governed by a written employment contract, which was entered into in 2004 and replaced an employment agreement entered into in 2001. Mr. Smith's employment agreement provides that he is entitled to receive compensation as determined by our board of directors and is eligible to receive the benefits generally made available to our executives.

If Mr. Smith were terminated without cause, terminated his employment with us of his own initiative for good reason or we did not renew his agreement, other than in connection with a change of control as described below, he would be entitled to receive:

Severance Payment:	A) 100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
	B) A pro rata portion of his target bonus for the year in which the termination occurs
Options:	Vesting of outstanding options that would have otherwise vested in the 18 months following termination
Restricted Stock:	Vesting of each outstanding restricted stock award that would have otherwise vested in the 18 months following the termination, treating each award that vests other than ratably, as if it vests ratably over the term of the grant
Employee Benefits:	Continuation of certain employee benefits for up to 12 months

If we terminated Mr. Smith's employment without cause or he terminated his employment with us for good reason on a date within the 90 days prior to or the 12 months after a change of control he would be entitled to receive:

Severance Payment:	A) 100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
	B) A pro rata portion of his target bonus for the year in which the termination occurs
Options:	Full vesting of all outstanding options
Restricted Stock:	Full vesting of all outstanding restricted stock grants
Employee Benefits:	Continuation of certain employee benefits for up to 12 months
Tax Benefits:	Additional payments required to compensate Mr. Smith if payments made under the employment agreement result in certain adverse tax consequences including excise taxes under Section 4999 of the Internal Revenue Code of 1986, as amended

If Mr. Smith's employment with us were terminated as a result of his death or disability, he would receive six months of severance pay, a pro rata portion of his target bonus for the year in which the termination occurred and 12 months acceleration of outstanding stock options and restricted stock awards. Pursuant to his employment agreement, Mr. Smith has agreed not to engage in any competitive activity for a period of one year after the termination of his employment with us.

Under the employment agreement, Mr. Smith would have the right to terminate his employment for good reason upon the occurrence of the following events without Mr. Smith's consent:

- he is assigned to any duties or responsibilities that are inconsistent, in any significant respect, with the scope of duties and responsibilities associated with his positions and offices on the date of the agreement, provided that such reassignment of duties or responsibilities is not due to his disability or performance, or is at his request;
- he suffers a reduction in the authorities, duties and responsibilities associated with his positions and offices on the date of the agreement, on the basis of which he makes a determination in good faith that he can no longer carry out those positions or offices in the manner contemplated on the date the agreement was entered into, provided that any such reduction of duties or responsibilities is not due to his disability or performance, or is at his request;
- his base salary is decreased;
- his office location as assigned to him by us is relocated 35 or more miles from Cambridge, Massachusetts; or
- failure of any entity in the event of a change of control to assume the obligations and liabilities of the employment agreement.

Under Mr. Smith's employment agreement "cause" means:

- he is convicted of a crime involving moral turpitude;
- he commits a material breach of any provision of his employment agreement; or
- in carrying out his duties, he acts or fails to act in a manner which is determined, in the sole discretion of our board, to be (A) willful gross neglect, or (B) willful gross misconduct resulting, in either case, in material harm to us unless such act, or failure to act, was believed by him in good faith, to be in our best interests.

Under Mr. Smith's employment agreement a change of control shall be deemed to have occurred if:

- any person or group as such terms are used in Sections 13(d) and 14(d)(2) of the Exchange Act, becomes the beneficial owner, as such term is used in Rule 13d-3 promulgated under the Exchange Act, of securities representing 51% or more of the combined voting power of our outstanding securities, having the right to vote in the election of directors;
- a majority of our board during any 12-month period is replaced at a meeting of our board or at a meeting of our stockholders with individuals other than individuals nominated or approved by a majority of the disinterested directors (as such term is defined in the employment agreement);
- all or substantially all of our business is disposed of pursuant to a merger, consolidation or other transaction (subject to exceptions set forth in the agreement) in which the Company is not the surviving corporation or is materially or completely liquidated; or
- we combine with another company and are the surviving corporation but, immediately after the combination, our stockholders hold, directly or indirectly, less than 50% of the total outstanding securities of the combined company having the right to vote in the election of directors.

In addition to his employment agreement, Mr. Smith is a party to restricted stock agreements with severance provisions that are described below.

Each of Dr. Alam and Dr. Mueller is a party to an employment agreement, a change of control agreement and two restricted stock agreements with us.

Employment Agreements

The terms and conditions of Dr. Alam's and Dr. Mueller's employment are governed by a written employment contract, which was entered into in February 2008. Their employment agreements provide that each executive is entitled to receive compensation as determined by our board of directors and is eligible to receive the benefits generally made available to our executives.

Under their employment agreements, if the executive were terminated without cause or terminated his employment with us for good reason within 30 days of the event giving rise to his right to terminate for good reason, he would be entitled to receive:

Severance Payment:	100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
Employee Benefits:	Continuation of certain employee benefits for up to 12 months

Under the employment agreement, each of the executives would have the right to terminate their employment for good reason upon the occurrence of the following events without his consent:

- his base salary is decreased unless such reduction is part of an across-the-board proportionate reduction in the salaries of our senior management team; or
- the office to which he is assigned is relocated to a place 35 or more miles away and such relocation is not at his request or with his prior agreement (and other than, for an executive assigned to our principal executive offices, in connection with a change in location of our principal executive offices).

Under the employment agreements, cause means:

- he is convicted of a crime involving moral turpitude;
- he commits a material breach of any provision of the agreement not involving the performance or nonperformance of duties; or
- in carrying out his duties, he acts or fails to act in a manner that is determined, in the sole discretion of our board, after written notice of any such act or failure to act and a reasonable opportunity to cure the deficiency has been provided to the executive, to be (A) willful gross neglect or (B) willful gross misconduct resulting, in either case, in material harm to us unless such act, or failure to act, was believed by him, in good faith, to be in our best interests.

Change of Control Agreements

We have change of control agreements with Dr. Alam and Dr. Mueller, which were entered into in March 2003 and amended in February 2008. Under these agreements, if we terminate the executive's employment without cause on a date within the 90 days prior to or the 12 months after a change of control or he terminates his employment within 30 days of an event giving rise to a right to terminate for good

reason and the event occurs on a date within the 90 days prior to or the 12 months after a change of control, he would be entitled to receive:

Severance Payment:	A) 100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
	B) A pro rata portion of his target bonus for the year in which the termination occurs
Options:	Full vesting of all outstanding options
Restricted Stock:	Full vesting of all outstanding restricted stock grants
Employee Benefits:	Continuation of certain employee benefits for up to 18 months

Under the change of control agreements, the executive would have the right to terminate his employment for good reason upon the occurrence of the following events without the executive's consent:

- he is assigned to material duties or responsibilities that are inconsistent, in any significant respect, with the scope of duties and responsibilities associated with his position and office immediately prior to the change of control, provided, that such reassignment of duties or responsibilities is not for cause, due to his disability or at his request;
- he suffers a material reduction in the authorities, duties or job title and responsibilities associated with his position and office immediately prior to the change of control, on the basis of which he makes a good faith determination that he can no longer carry out his position or office in the manner contemplated before the change of control (provided that such reduction in authorities, duties, or job title and responsibilities is not for cause, due to his disability or at his request);
- his base salary is decreased to a level below his base salary in effect immediately prior to the change of control;
- our principal offices, or the location of the office to which he is assigned at the time the agreement was entered into, is relocated to a place 35 or more miles away; or
- following a change of control, our successor fails to assume our obligations under the change of control agreement.

Under the change of control agreements, "cause" means:

- he is convicted of a felony crime of moral turpitude;
- his willful refusal or failure to follow a lawful directive or instruction of our board or the individual to whom the executive reports provided that he received prior written notice of the directive or instruction(s) that he failed to follow and, provided further, that we, in good faith, give him 30 days to correct any problems, and further provided if he corrects the problem(s) he may not be terminated for cause in that instance;
- he commits willful gross negligence, or willful gross misconduct, resulting in either case in material harm to us, unless such act, or failure to act, was believed by him, in good faith, to be in our best interests; or

- the violation of our policies made known to him regarding confidentiality, securities trading or inside information.

Under the change of control agreements, change of control means:

- any person or group as such terms are used in Sections 13(d) and 14(d)(2) of the Exchange Act becomes the beneficial owner, as such term is used in Rule 13d-3 promulgated under the Exchange Act, of securities representing more than 50% of the combined voting power of our outstanding securities having the right to vote in the election of directors; or
- all or substantially all of our business or assets are sold or disposed of, or we or one of our subsidiaries combines with another company pursuant to a merger consolidation, or other similar transaction, other than (i) a transaction solely for the purpose of reincorporating us or one of our subsidiaries in a different jurisdiction or recapitalizing or reclassifying our stock; or (ii) a merger or consolidation in which our stockholders immediately prior to such merger or consolidation continue to own at least a majority of the outstanding securities of the surviving entity immediately after the merger or consolidation.

Kenneth S. Boger

The terms and conditions of Mr. Kenneth Boger's employment are governed by a written employment contract, which was originally entered into in 2001 and amended in 2004 and again in February 2008. Mr. Boger's employment agreement provides that he is entitled to receive compensation as determined by our board of directors and is eligible to receive the benefits generally made available to our executives.

If Mr. Boger were terminated without cause, terminated his employment with us for good reason or we do not renew his agreement other than in connection with a change of control as described below, he would be entitled to receive:

Severance Payment:	A) 100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
	B) A pro rata portion of his target bonus for the year in which the termination occurs
Options:	Vesting of outstanding options that would have otherwise vested in the 18 months following termination
Restricted Stock:	Vesting of each outstanding restricted stock award that would have otherwise vested in the 18 months following the termination, treating each award that vests other than ratably, as if it vests ratably over the term of the grant
Employee Benefits:	Continuation of certain employee benefits for up to 12 months

If we terminated Mr. Boger's employment without cause or he terminated his employment with us for good reason on a date within the 90 days prior to or the 12 months after a change of control he would be entitled to receive:

Severance Payment:	A) 100% of the sum of (i) his base salary at the time of termination and (ii) his target bonus for the year in which his employment is terminated
	B) A pro rata portion of his target bonus for the year in which the termination occurs
Options:	Full vesting of all outstanding options
Restricted Stock:	Full vesting of all outstanding restricted stock grants
Employee Benefits:	Continuation of certain employee benefits for up to 12 months
Tax Benefits:	Additional payments required to compensate Mr. Boger if payments made under the employment agreement result in certain adverse tax consequences including excise taxes under Section 4999 of the Internal Revenue Code of 1986, as amended

If Mr. Boger's employment with us were terminated as a result of his death or disability, he would receive six months of severance pay, a pro rata portion of his target bonus for the year in which the termination occurs and 12 months acceleration of outstanding stock options and restricted stock awards. Pursuant to his employment agreement, Mr. Boger has agreed not to engage in any competitive activity for a period of one year after the termination of his employment with us.

Under the employment agreement, Mr. Boger would have the right to terminate his employment for good reason upon the occurrence of the following events without Mr. Boger's consent:

- he is assigned to any material duties or responsibilities that are inconsistent, in any significant respect, with the scope of duties and responsibilities customarily associated with his positions and offices on the date of the agreement, provided, that such reassignment of duties or responsibilities is not due to his disability, nor is at his request;
- he suffers a reduction in the authorities, duties and responsibilities associated with his positions and offices on the date of the agreement on the basis of which he makes a determination in good faith that he can no longer carry out such positions or offices in the manner contemplated on the date the agreement was entered into, provided, that such reassignment of duties or responsibilities is not due to his disability, nor is it at his request;
- his base salary is decreased;
- his office location as assigned to him by us is relocated 35 or more miles from Cambridge, Massachusetts;
- failure of any entity in the event of a change of control to assume the obligations and liabilities of the employment agreement; or
- the material breach of the terms of the employment agreement by us.

Under Mr. Boger's employment agreement "cause" means:

- he is convicted of a crime involving moral turpitude;
- he commits a material breach of any provision of the employment agreement; or
- in carrying out his duties, he acts or fails to act in a manner which is determined, in the sole discretion of our board, to be (A) willful gross neglect, or (B) willful gross misconduct resulting, in either case, in material harm to us unless such act, or failure to act, was believed by Mr. Boger in good faith to be in our best interests.

Under Mr. Boger's employment agreement a change of control shall be deemed to have occurred if:

- any person or group as such terms are used in Sections 13(d) and 14(d)(2) of the Exchange Act, becomes the beneficial owner, as such term is used in Rule 13d-3 promulgated under the Exchange Act, of securities representing more than 50% of the combined voting power of our outstanding securities, having the right to vote in the election of directors;
- a majority of our board at any time during the term of the employment agreement consists of individuals other than individuals nominated or approved by a majority of the disinterested directors; or
- all or substantially all of our business or assets are sold or disposed of, or we combine with another company pursuant to a merger, consolidation, or other similar transaction, other than (i) a transaction solely for the purpose of reincorporating us in a different jurisdiction or recapitalizing or reclassifying our stock, or (ii) a merger or consolidation in which our shareholders immediately prior to such merger or consolidation continue to own at least a majority of the outstanding voting securities of the surviving entity immediately after the merger or consolidation.

In addition to his employment agreement, Mr. Boger is a party to a restricted stock agreement with severance provisions that is described below.

Restricted Stock Agreements

In addition to the agreements described above:

- Dr. Boger, Mr. Smith, Dr. Alam, Dr. Mueller and Mr. Boger are parties to restricted stock agreements that were entered into in May 2004, referred to as the 2004 Restricted Stock Agreements. Dr. Boger's 2004 Restricted Stock Agreement relates to 52,500 shares of our common stock that are scheduled to vest on May 6, 2009, subject to performance acceleration, and the 2004 Restricted Stock Agreements for the other executives each relate to 32,500 shares of our common stock that are scheduled to vest on May 6, 2009, subject to performance acceleration.
- Mr. Smith, Dr. Alam and Dr. Mueller are parties to restricted stock agreements, entered into effective as of January 2007, referred to as the 2007 Restricted Stock Agreements. Each 2007 Restricted Stock Agreement relates to 20,000 shares of our common stock, with 5,000 shares scheduled to vest on May 6, 2008 and 15,000 shares scheduled to vest on May 6, 2010.

2004 Restricted Stock Agreements

Under the 2004 Restricted Stock Agreements with Dr. Boger, Mr. Smith, Dr. Alam, Dr. Mueller and Mr. Boger, the vesting of these shares would be accelerated in full if the executive's employment is

terminated for any reason other than voluntarily by the executive without good reason, by us for cause or by death or disability.

Under the 2004 Restricted Stock Agreements, cause means:

- conviction of the executive of a felony crime of moral turpitude;
- the executive's willful refusal or failure to follow a lawful directive or instruction of our board or the individual(s) to whom the executive reports provided the executive received prior written notice of the directive(s) or instruction(s) that the executive failed to follow and provided further that the executive did not correct any such problems within 30 days after receiving notice in good faith from us;
- the executive commits (i) willful gross negligence, or (ii) willful gross misconduct in carrying out the executive's duties, resulting in either case in material harm to us, unless such act, or failure to act, was believed by the executive, in good faith, to be in our best interests; or
- the executive's violation of our policies made known to the executive regarding confidentiality, securities trading or inside information.

Under the 2004 Restricted Stock Agreement, good reason means:

- the executive is assigned to any duties or responsibilities that are inconsistent, in any significant respect, with the scope of duties and responsibilities performed by the executive's positions and offices on the date of the agreement, provided, that such reassignment of duties or responsibilities is not due to the executive's disability or the executive's performance, nor is at the executive's request;
- the executive suffers a reduction in the authorities, duties and responsibilities associated with the executive's positions and offices on the date of the agreement on the basis of which the executive makes a determination in good faith that the executive can no longer carry out such positions or offices in the manner contemplated on the date hereof, provided, that such reassignment of duties or responsibilities is not due to the executive's disability or the executive's performance, nor is it at the executive's request;
- the executive's base salary is decreased below the level on the date of the agreement;
- our principal office, or the location of the office to which the executive is assigned on the date of the agreement, is relocated to a place 35 or more miles away; or
- under specified circumstances, a successor entity fails to assume the obligations under the restricted stock agreement.

2007 Restricted Stock Agreements

Under the 2007 Restricted Stock Agreements with Mr. Smith, Dr. Alam and Dr. Mueller, the vesting of these shares would be accelerated in full if the executive's employment is terminated for any reason other than voluntarily by the executive without good reason, by us for cause or by death or disability.

Under the 2007 Restricted Stock Agreements, cause means:

- conviction of the executive of a crime of moral turpitude;
- the executive's willful refusal or failure to follow a lawful directive or instruction of our board or the individual(s) to whom the executive reports provided the executive received prior written notice of

the directive(s) or instruction(s) that the executive failed to follow and provided further that the executive did not correct any such problems within 30 days after receiving notice in good faith from us;

- the executive commits (i) willful gross negligence, or (ii) willful gross misconduct in carrying out the executive's duties, resulting in either case in material harm to us, unless such act, or failure to act, was believed by the executive, in good faith, to be in our best interests; or
- the executive's violation of our policies made known to the executive regarding confidentiality, securities trading or inside information.

Under the 2007 Restricted Stock Agreement, good reason means, that without the executive's consent, one or more of the following events occurs and the executive of the executive's own initiative terminates the executive's employment within 90 days of such event:

- the executive is assigned to any duties or responsibilities that are inconsistent, in any significant respect, with the scope of the executive's duties and responsibilities on the date of the agreement, provided that such reassignment of duties or responsibilities is not due to the executive's disability or the executive's performance, nor is at the executive's request;
- the executive suffers a reduction in the authorities, duties and responsibilities associated with the executive's positions and offices on the date of the agreement, provided, that such reassignment of duties or responsibilities is not due to the executive's disability or the executive's performance, nor is it at the executive's request;
- the executive's base salary is decreased below the level on the date of the agreement, other than a reduction that is part of an across-the-board proportionate reduction of the salaries of our senior management team;
- the executive is assigned to an office location 35 or more miles away from the executive's office location immediately prior to such reassignment, other than in connection with a relocation of our principal executive offices; or
- under specified circumstances, a successor entity fails to assume the obligations under the restricted stock agreement.

To our knowledge, based upon a review of copies of reports filed with the Securities and Exchange Commission with respect to the fiscal year ended December 31, 2007 and written representations by our directors and officers that no other reports were required with respect to their transactions, all reports required to be filed under Section 16(a) by our directors and officers and persons who were beneficial owners of more than 10% of our common stock were timely filed.

The Plan provides for the granting of Stock Rights to Employees, Non-Employee Directors, consultants and advisors of the Company.

3. SHARES SUBJECT TO THE PLAN

The number of Shares subject to this Plan as to which Stock Rights may be granted from time to time shall be 13,902,380 or the equivalent of such number of Shares after the Administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with Section 17 of this Plan. The number of Shares subject to this Plan shall be reduced, share for share, by the number of shares underlying Stock Rights, if any, that are granted under the Company's 2007 New Hire Stock and Option Plan after March 17, 2008.

If an Option granted hereunder ceases to be outstanding, in whole or in part (other than by exercise), or if the Company shall reacquire (at no more than its original issuance price) any Shares issued pursuant to a Stock Grant, or if any Stock Right expires or is forfeited, cancelled or otherwise terminated or results in any Shares not being issued, the unissued Shares that were subject to such Stock Right shall again be available for issuance from time to time pursuant to this Plan; provided that, the following Shares may not again be made available for issuance as Awards under the Plan: (i) Shares that are not issued or delivered as a result of the net settlement of an outstanding Stock-Based Award or Option and (ii) Shares that the Company acquires from a Participant for a price that is more than the original issuance price of the Share, including any Share acquired by the Company to fund employee payroll tax withholding obligations on a Stock Grant or Shares applied to payment of the exercise price for an Option.

After May 14, 2008, the number Shares that may be subject to or delivered pursuant to any form of Stock Right other than an Option shall not exceed 20% of the aggregate of (A) the number of Shares available as to which Stock Rights may be granted under this Plan on May 15, 2008 (taking in account the Shares added on such date, but which amount does not include those 536,625 Shares as to which the Company granted Options on February 7, 2008, subject to obtaining subsequent shareholder approval of such Options) and (B) any Shares that again become available for issuance on or after May 15, 2008 pursuant to the preceding paragraph.

4. ADMINISTRATION OF THE PLAN

The Administrator shall administer the Plan. Subject to the provisions of the Plan, the Administrator is authorized to:

- a. Interpret the provisions of the Plan and of any Stock Right or Stock Agreement and to make all rules and determinations that it deems necessary or advisable for the administration of the Plan;
- b. Determine which Employees, Non-Employee Directors, consultants and advisors of the Company and its Affiliates shall be granted Stock Rights;
- c. Determine the number of Shares and exercise price for which a Stock Right shall be granted;
- d. Specify the terms and conditions upon which a Stock Right or Stock Rights may be granted;
- e. In its discretion, accelerate:
 - (i) the date of exercise of any installment of any Option; provided that the Administrator shall not, without the consent of the Option holder accelerate the exercise date of any installment of any Option granted to any Employee as an ISO (and not previously converted into a Non-Qualified Option pursuant to Section 20) if such acceleration would violate the annual vesting limitation contained in Section 422(d) of the Code, as described in Section 6.2.3; or
 - (ii) the date or dates of vesting of Shares, or lapsing of Company repurchase rights with respect to any Shares, under any Stock Rights; and
- f. In its discretion, extend the exercise date for any Option;

provided, however, that all such interpretations, rules, determinations, terms and conditions shall be made and prescribed in the context of preserving the tax status under Code Section 422 of those Options which are designated as ISOs (unless the holder of any such Option otherwise agrees). Subject to the foregoing, the interpretation and construction by the Administrator of any provisions of the Plan or of any Stock Right granted under it shall be final, unless otherwise determined by the Board of Directors, if the Administrator is other than the Board of Directors.

The Administrator may employ attorneys, consultants, accountants or other persons, and the Administrator, the Company and its officers and directors shall be entitled to rely upon the advice, opinions or valuations of such persons. All actions taken and all interpretations and determinations made by the Administrator in good faith shall be final and binding upon the Company, all Participants, and all other interested persons. No member or agent of the Administrator shall be personally liable for any action, determination, or interpretation made in good faith with respect to this Plan or grants hereunder. Each member of the Administrator shall be indemnified and held harmless by the Company against any cost or expense (including counsel fees) reasonably incurred by him or her or any liability (including any

sum paid in settlement of a claim with the approval of the Company) arising out of any act or omission to act in connection with this Plan unless arising out of such member's own fraud or bad faith. Such indemnification shall be in addition to any rights of indemnification the members of the Administrator may have as directors or otherwise under the by-laws of the Company, or any agreement, vote of stockholders or disinterested directors, or otherwise.

5. ELIGIBILITY FOR PARTICIPATION

The Administrator shall, in its sole discretion, name the Participants in the Plan, provided, however, that each Participant must be a Employee, Non-Employee Director, consultant or advisor of the Company or of an Affiliate at the time a Stock Right is granted. Notwithstanding the foregoing, the Administrator may authorize the grant of a Stock Right to a person not then an Employee, Non-Employee Director, consultant or advisor of the Company or of an Affiliate; *provided, however*, that the actual grant of such Stock Right shall be conditioned upon such person becoming eligible to become a Participant at or prior to the time of execution of the Stock Agreement evidencing such Stock Right. ISOs may be granted only to Employees. The granting of any Stock Right to any individual shall neither entitle that individual to, nor disqualify him or her from, participation in other grants of Stock Rights.

6. TERMS AND CONDITIONS OF OPTIONS

6.1 *General.* Each Option shall be set forth in writing in a Stock Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Administrator may provide that Options be granted subject to such terms and conditions, consistent with the terms and conditions specifically required under this Plan, as the Administrator may deem appropriate including, without limitation, subsequent approval by the stockholders of the Company of this Plan or any amendments thereto. Each Stock Agreement shall state the option price (per share) of the Shares covered by each Option, the number of Shares to which it pertains, the date or dates on which it first is exercisable and the date after which it may no longer be exercised (subject to Sections 11, 12 and 13 of this Plan). Option rights may accrue or become exercisable in installments over a period of time, or upon the achievement of certain conditions or the attainment of stated goals or events. The Option Price per share of Shares covered by an Option (including both ISOs and Non-Qualified Options) shall not be less than one hundred percent (100%) of the Fair Market Value per share of the Common Stock on the date of grant.

6.2 *ISOs.* Each Option intended to be an ISO shall be issued only to Employees. In addition to the minimum standards set forth in Section 6.1, ISOs shall be subject to the following terms and conditions, with such additional restrictions or changes as the Administrator determines are appropriate but not in conflict with Code Section 422 and relevant regulations and rulings of the Internal Revenue Service:

6.2.1 *ISO Option Price.* In addition to the limitation set forth in Section 6.1, the Option price per share of the Shares covered by each ISO granted to a Participant who owns, directly or by reason of the applicable attribution rules in Code Section 424(d), more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or an Affiliate shall not be less than one hundred ten percent (110%) of the Fair Market Value on the date of grant.

6.2.2 *Term of ISO.* Each ISO shall expire not more than ten (10) years from the date of grant; provided, however, that an ISO granted to a Participant who owns, directly or by reason of the applicable attribution rules in Code Section 424(d), more than ten percent (10%) of the total

combined voting power of all classes of stock of the Company or an Affiliate shall expire not more than five (5) years from the date of grant.

6.2.3 *Annual Limit on Incentive Stock Options.* To the extent required for "incentive stock option" treatment under Section 422 of the Code, the aggregate Fair Market Value (determined as of the time of grant) of the Shares with respect to which ISOs granted under this Plan and any other plan of the Company or its Affiliate become exercisable for the first time by a Participant during any calendar year shall not exceed the aggregate threshold for ISOs established by the Code (\$100,000 as of March 22, 2006). To the extent that any Option exceeds this limit, it shall constitute a Non-Qualified Option.

6.3 *Non-Employee Directors' Options.* Each Non-Employee Director, upon first being elected or appointed to the Board of Directors, shall be granted a Non-Qualified Option to purchase that number of Shares as shall be established for such Option grants from time to time by the Board of Directors. Each such Option shall (i) have an exercise price equal to the Fair Market Value (per share) on the date of grant of the Option, (ii) have a term of ten (10) years, and (iii) shall become cumulatively exercisable in sixteen (16) equal quarterly installments, upon completion of each full quarter of service on the Board of Directors after the date of grant. In addition, on June 1 of each year, each Non-Employee Director shall be granted a Non-Qualified Option to purchase that number of Shares as shall be established for such Option grants from time to time by the Board of Directors. Each such Option shall (i) have an exercise price equal to the Fair Market Value (per share) on the date of grant of such Option, (ii) have a term of ten (10) years, and (iii) be exercisable in full immediately on the date of grant. Any director entitled to receive an Option grant under this Section may elect to decline the Option. If a Non-Employee Director ceases to be any of an Employee, Non-Employee Director, consultant or advisor of the Company, Options granted under this Section 6.3 shall remain exercisable to the extent such Options are exercisable on the date of such termination of service, for their full term, and the provisions of Sections 11 and 13 below shall not apply to any such Options.

6.4 *Limitation on Number of Options Granted.* Notwithstanding anything in this Plan to the contrary, no Participant shall be granted an aggregate of Options and/or Stock-Based Awards under this Plan in any calendar year for more than an aggregate of 600,000 Shares (subject to adjustment pursuant to Section 17 to the extent consistent with Section 162(m) of the Code).

7. TERMS AND CONDITIONS OF STOCK GRANTS

Each Stock Grant shall be set forth in a Stock Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Stock Agreement shall be in the form approved by the Administrator, with such changes and modifications to such form as the Administrator, in its discretion, shall approve with respect to any particular Participant or Participants. The Stock Agreement shall contain terms and conditions that the Administrator determines to be appropriate and in the best interest of the Company; provided, however, that the purchase price per share of the Shares covered by each Stock Grant shall not be less than the par value per Share. Each Stock Agreement shall state the number of Shares to which the Stock Grant pertains and the terms of any right of the Company to reacquire the Shares subject to the Stock Grant, including the time and events upon which such rights shall accrue and the purchase price therefor, and any restrictions on the transferability of such Shares.

8. TERMS AND CONDITIONS OF OTHER STOCK-BASED AWARDS

The Administrator shall have the right to grant other Stock-Based Awards having such terms and conditions as the Administrator may determine, including, without limitation, the grant of Shares based upon certain conditions, the grant of securities convertible into Shares and the grant of stock appreciation rights, phantom stock awards or stock units. The principal terms of each Stock-Based Award shall be set forth in a Stock Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Stock Agreement shall be in a form approved by the Administrator and shall contain terms and conditions that the Administrator determines to be appropriate.

9. EXERCISE OF OPTIONS AND ISSUANCE OF SHARES

An Option (or any part or installment thereof) shall be exercised by giving written notice to the Company or its designee, together with provision for payment of the full purchase price in accordance with this Section for the Shares as to which the Option is being exercised, and upon compliance with any other condition(s) set forth in the Stock Agreement. Such notice shall be signed by the person exercising the Option, shall state the number of Shares with respect to which the Option is being exercised and shall contain any representation required by the Plan or the Stock Agreement.

Payment of the purchase price for the Shares as to which such Option is being exercised shall be made (a) in United States dollars in cash or by check acceptable to the Administrator, or (b) at the discretion of the Administrator, (i) through delivery of shares of Common Stock not subject to any restriction under any plan and having a Fair Market Value equal as of the date of exercise to the cash exercise price of the Option, (ii) in accordance with a cashless exercise program established with a securities brokerage firm, and approved by the Company, (iii) by any other means (excluding, however, delivery of a promissory note of the Participant) that the Administrator determines to be consistent with the purpose of this Plan and applicable law, or (iv) by any combination of the foregoing. Notwithstanding the foregoing, the Administrator shall accept only such payment on exercise of an ISO as is permitted by Section 422 of the Code.

The Company shall then as soon as is reasonably practicable deliver the Shares as to which such Option was exercised to the Participant (or to the Participant's Survivors, as the case may be). It is expressly understood that the Company may delay the delivery of the Shares in order to comply with any law or regulation that requires the Company to take any action with respect to the Shares prior to their issuance. The Shares shall, upon delivery, be fully paid, non-assessable Shares.

10. ASSIGNABILITY AND TRANSFERABILITY OF STOCK RIGHTS

By its terms, a Stock Right granted to a Participant shall not be transferable by the Participant other than by will or by the laws of descent and distribution or pursuant to a qualified domestic relations order as defined by the Code or Title I of the Employee Retirement Income Security Act or the rules thereunder or as approved by the Administrator in its discretion and set forth in the applicable Stock Agreement, provided, however, that the Administrator shall not approve any transfer of a Stock Right for consideration. Except as provided in the preceding sentence or as otherwise permitted under a Stock Agreement, a Stock Right shall be exercisable, during the Participant's lifetime only by such Participant (or by his or her legal representative) and shall not be assigned, pledged or hypothecated in any way (whether by operation of law or otherwise) and shall not be subject to execution, attachment or similar process. Any attempted transfer, assignment, pledge, hypothecation or other disposition of any Stock Right or of any

rights granted thereunder contrary to the provisions of this Plan, or the levy of any attachment or similar process upon a Stock Right, shall be null and void.

11. EFFECT ON STOCK RIGHTS OF TERMINATION OF SERVICE

11.1 Except as otherwise provided in the applicable Stock Agreement or as otherwise provided in Sections 12 or 13, if a Participant ceases to be an Employee, Non-Employee Director, consultant or advisor with the Company and its Affiliates (for any reason other than termination for "cause," or death) (a "Termination of Service") before the Participant has exercised all Stock Rights, the Participant may exercise any Stock Right granted to him or her to the extent that the Stock Right is exercisable on the date of such Termination of Service. Any such Stock Right must be exercised within three months after the date of the Participant's Termination of Service, unless otherwise provided in the applicable Stock Agreement, but in no event after the expiration of the term of the Stock Right.

11.2 The provisions of this Section, and not the provisions of Section 14, shall apply to a Participant who subsequently dies after the Termination of Service; provided, however, that in the case of a Participant's death within three (3) months after the Termination of Service, the Participant's Survivors may exercise the Stock Right within one (1) year after the date of the Participant's death, but in no event after the date of expiration of the term of the Stock Right.

11.3 Notwithstanding anything herein to the contrary, if subsequent to a Participant's Termination of Service, but prior to the exercise of a Stock Right, the Administrator determines that, either prior or subsequent to the Participant's Termination of Service, the Participant engaged in conduct which would constitute "cause" (as defined in Section 12), then such Participant shall forthwith cease to have any right to exercise any Stock Right. Stock Rights that consist of Shares issued under Stock Grants for which any restrictions on transfer or Company repurchase right shall have lapsed, shall be deemed for all purposes to have been "exercised."

11.4 Absence from work with the Company or an Affiliate because of temporary disability or a leave of absence for any purpose, shall not, during the period of any such absence in accordance with Company policies, be deemed, by virtue of such absence alone, a Termination of Service, except as the Administrator may otherwise expressly provide.

11.5 Except as required by law or as set forth in a Participant's Stock Agreement, Stock Rights granted under the Plan shall not be affected by any change of a Participant's status within or among the Company and any Affiliates, so long as the Participant continues to be an employee, director, consultant or advisor of the Company or any Affiliate.

12. EFFECT ON STOCK RIGHTS OF TERMINATION OF SERVICE FOR "CAUSE"

Except as otherwise provided in a Participant's Stock Agreement or as otherwise agreed in writing by the Administrator, if a Participant's service with the Company or an Affiliate is terminated for "cause," all outstanding and unexercised (vested or unvested) Stock Rights will immediately be forfeited as of the time the Participant is notified that his or her service is terminated for "cause." Stock Rights that consist of Shares issued under Stock Grants for which any restrictions on transfer or Company repurchase right shall have lapsed, shall be deemed for all purposes to have been "exercised." For purposes of this Plan, "cause" shall include (and is not limited to) dishonesty with respect to the Company and its Affiliates, insubordination, substantial malfeasance or non-feasance of duty, unauthorized disclosure of confidential information, breach by the Participant of any provision of any employment, consulting, advisory,

nondisclosure, non-competition or similar agreement between the Participant and the Company, and conduct substantially prejudicial to the business of the Company or any Affiliate. The determination of the Administrator as to the existence of cause will be conclusive on the Participant and the Company. "Cause" is not limited to events that have occurred prior to a Participant's termination of service, nor is it necessary that the Administrator's finding of "cause" occur prior to termination of service. If the Administrator determines, subsequent to a Participant's termination of service but prior to the exercise of a Stock Right, that either prior or subsequent to the Participant's termination of service the Participant engaged in conduct which would constitute "cause," then the right to exercise any Stock Right shall be forfeited as set forth in this Section 12. Any definition in an agreement between a Participant and the Company or an Affiliate which contains a conflicting definition of "cause" for termination of service and which is in effect at the time of such termination of service shall supersede the definition in this Plan with respect to that Participant.

13. EFFECT ON STOCK RIGHTS OF DEATH WHILE AN EMPLOYEE, DIRECTOR, CONSULTANT OR ADVISOR

Except as otherwise provided in a Participant's Stock Agreement, in the event of death of a Participant while the Participant is an Employee, Non-Employee Director, consultant or advisor of the Company or of an Affiliate, any Stock Rights granted to such Participant may be exercised by the Participant's Survivors to the extent exercisable but not exercised on the date of death. Any such Stock Right must be exercised within one (1) year after the date of death of the Participant but in no event after the date of expiration of the term of the Stock Right, notwithstanding that the decedent might have been able to exercise the Stock Right as to some or all of the Shares on a later date if he or she had not died and had continued to be an Employee, Non-Employee Director, consultant or advisor.

14. RIGHTS AS A STOCKHOLDER

No Participant to whom a Stock Right (other than a Stock Grant) has been granted shall have rights as a stockholder with respect to any Shares covered by such Stock Right, except after due exercise thereof and/or tender of the full purchase price for the Shares being purchased pursuant to such exercise. The provisions of this Section 14 shall not be applicable to Shares issued pursuant to Stock Grants, provided that the Participant shall have tendered the purchase price therefore, notwithstanding the existence of stock transfer restrictions on or a Company repurchase right with respect to such Shares.

15. EMPLOYMENT OR OTHER RELATIONSHIP

Nothing in this Plan or any Stock Agreement shall be deemed to prevent the Company or an Affiliate from terminating the employment, consultancy or director status of a Participant, or to prevent a Participant from terminating his or her own employment, consultancy or director status or to give any Participant a right to be retained in employment or other service by the Company or any Affiliate for any period of time.

16. DISSOLUTION OR LIQUIDATION OF THE COMPANY

Upon the dissolution or liquidation of the Company (other than in connection with a transaction subject to the provisions of Section 17.2), all Stock Rights granted under this Plan which as of such date shall not have been exercised will terminate and become null and void; provided, however, that if the rights of a Participant or a Participant's Survivors have not otherwise terminated and expired, the Participant or

Participant's Survivors will have the right immediately prior to such dissolution or liquidation to exercise any Stock Right to the extent that such Stock Right is exercisable as of the date immediately prior to such dissolution or liquidation. Upon the dissolution or liquidation of the Company, any outstanding Stock-Based Awards shall immediately terminate unless otherwise determined by the Administrator or specifically provided in the applicable Stock Agreement.

17. ADJUSTMENTS

Upon the occurrence of any of the following events, a Participant's rights with respect to any Stock Right granted to him or her hereunder that have not previously been exercised in full shall be adjusted as hereinafter provided, unless otherwise specifically provided in the Stock Agreement or in any employment agreement between a Participant and the Company or an Affiliate:

17.1 *Stock Dividends and Stock Splits.* If the shares of Common Stock shall be subdivided or combined into a greater or smaller number of shares or if the Company shall issue any shares of Common Stock as a stock dividend on its outstanding Common Stock, the number of shares of Common Stock subject to or deliverable upon the exercise of a Stock Right shall be appropriately increased or decreased, and appropriate adjustments shall be made in the purchase price per Share to reflect such event. The number of Shares subject to Options to be granted to Non-Employee Directors pursuant to Section 6.3 and the number of Shares subject to the limitation in Section 6.4 shall also be proportionately adjusted upon the occurrence of such events.

17.2 *Consolidations or Mergers.* In the event of a consolidation or merger in which the Company is not the surviving corporation or which results in the acquisition of substantially all the Company's outstanding stock by a single person or entity or by a group of persons and/or entities acting in concert, or in the event of the sale or transfer of substantially all the Company's assets (any of the foregoing, an "Acquisition"), all then outstanding Stock Rights (excluding any Shares subject to Stock Grants as to which all Company repurchase rights shall have lapsed) shall terminate unless assumed pursuant to clause (i) below; provided that either (i) the Administrator shall provide for the surviving or acquiring entity or an affiliate thereof to assume the outstanding Stock Rights or grant replacement stock rights in lieu thereof, any such replacement to be upon an equitable basis as determined by the Administrator, or (ii) if there is no such assumption or substitution, all outstanding Stock Rights shall become immediately and fully exercisable and all Company repurchase rights with respect to Stock Rights shall lapse, in each case immediately prior to the Acquisition, notwithstanding any restrictions or vesting conditions set forth therein.

17.3 *Recapitalization or Reorganization.* In the event of a recapitalization or reorganization of the Company (other than a transaction described in Section 17.2 above) pursuant to which securities of the Company or of another corporation are issued with respect to the outstanding shares of Common Stock, a Participant upon exercising a Stock Right shall be entitled to receive for the purchase price paid upon such exercise the securities he or she would have received if he or she had exercised such Stock Right prior to such recapitalization or reorganization.

17.4 *Adjustments to Stock Grants and Stock-Based Awards.* Upon the happening of any of the events described in Sections 17.1, 17.2 or 17.3, any outstanding Stock-Based Award and the Shares subject to any Stock Grant, vested or unvested, shall be appropriately adjusted to reflect the events described in such Sections. The Administrator shall determine the specific adjustments to be made under this Section 17.4.

17.5 *Modification of ISOs.* Notwithstanding the foregoing, any adjustments made pursuant to Section 17.1, 17.2 or 17.3 with respect to ISOs shall be made only after the Administrator determines whether such adjustments would constitute a "modification" of such ISOs (as that term is defined in Section 424(h) of the Code) or would cause any adverse tax consequences for the holders of such ISOs. If the Administrator determines that such adjustments made with respect to ISOs would constitute a modification of such ISOs, it may refrain from making such adjustments, unless the holder of an ISO specifically requests in writing that such adjustment be made and such writing indicates that the holder has full knowledge of the consequences of such "modification" on his or her income tax treatment with respect to the ISO.

18. ISSUANCES OF SECURITIES

Except as expressly provided herein, no issuance (including for this purpose the delivery of shares held in treasury) by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of Shares subject to Stock Rights. Except as expressly provided herein, no adjustments shall be made for dividends paid in cash or in property (including without limitation, securities) of the Company.

19. FRACTIONAL SHARES

No fractional share shall be issued under the Plan and the person exercising any Stock Right shall receive from the Company cash in lieu of any such fractional share equal to the Fair Market Value thereof.

20. CONVERSION OF ISOs INTO NON-QUALIFIED OPTIONS: TERMINATION OF ISOs

Any Options granted under this Plan that do not meet the requirements of the Code for ISOs shall automatically be deemed to be Non-Qualified Options without further action on the part of the Administrator. The Administrator, at the written request of any Participant, may in its discretion take such actions as may be necessary to convert such Participant's ISOs (or any portion thereof) that have not been exercised on the date of conversion into Non-Qualified Options at any time prior to the expiration of such ISOs, regardless of whether the Participant is an employee of the Company or an Affiliate at the time of such conversion. At the time of such conversion, the Administrator (with the consent of the Participant) may impose such conditions on the exercise of the resulting Non-Qualified Options as the Administrator in its discretion may determine, provided that such conditions shall not be inconsistent with this Plan. Nothing in the Plan shall be deemed to give any Participant the right to have such Participant's ISOs converted into Non-Qualified Options, and no such conversion shall occur until and unless the Administrator takes appropriate action. The Administrator, with the consent of the Participant, may also terminate any portion of any ISO that has not been exercised at the time of such termination.

21. WITHHOLDING

If any federal, state, or local income taxes, employment taxes, Federal Insurance Contributions Act ("FICA") withholdings or other amounts are required by applicable law or governmental regulation to be withheld from the Participant's salary, wages or other remuneration in connection with the exercise of a Stock Right, the lapsing of a Company repurchase right or a Disqualifying Disposition (as defined in Section 22), the Company may withhold from the Participant' compensation, if any, or may require that the Participant advance in cash to the Company, or to any Affiliate of the Company which employs or employed the Participant, the amount of such withholdings unless a different withholding arrangement,

including the use of shares of the Company's Common Stock, is authorized by the Administrator (and permitted by law). For purposes hereof, the Fair Market Value of any shares withheld for purposes of payroll withholding shall be determined in the manner provided in Section 1 above, as of the most recent practicable date prior to the date of exercise. If the Fair Market Value of the shares withheld is less than the amount of payroll withholdings required, the Participant may be required to advance the difference in cash to the Company or the Affiliate employer. The Administrator in its discretion may condition the exercise of an Option for less than the then Fair Market Value on the Participant's payment of such additional withholding. In no event shall shares be withheld from any award in satisfaction of tax withholding requirements in an amount that exceeds the statutory minimum amount of tax withholding required.

22. NOTICE TO COMPANY OF DISQUALIFYING DISPOSITION

Each Employee who receives an ISO must agree to notify the Company in writing immediately after the Employee makes a "Disqualifying Disposition" of any Shares acquired pursuant to the exercise of an ISO. A Disqualifying Disposition is any disposition (as defined in Section 424(c) of the Code) of such Shares before the later of (a) two years from the date the Employee was granted the ISO, or (b) one year after the date the Employee acquired Shares by exercising the ISO. If the Employee has died before such Shares are sold, the notice provisions of this Section 22 shall not apply.

23. EFFECTIVE DATE; TERMINATION OF THE PLAN

This Plan shall be effective on March 29, 2006, the date of its adoption by the Board of Directors, subject to approval by the shareholders of the Company. The Plan will terminate on March 28, 2016. The Plan also may be terminated at an earlier date by vote of the Board of Directors. Termination of this Plan will not affect any Stock Rights granted or Stock Agreements executed prior to the effective date of such termination.

24. AMENDMENT OF THE PLAN; AMENDMENT OF STOCK RIGHTS

The Plan may be amended by the stockholders of the Company by affirmative vote of a majority of the votes cast at a meeting of the stockholders at which a quorum is present. The Plan also may be amended by the Board of Directors or the Administrator, including, without limitation, to the extent necessary to qualify any or all outstanding Stock Rights granted under the Plan or Stock Rights to be granted under the Plan for favorable federal income tax treatment (including deferral of taxation upon exercise) as may be afforded incentive stock options under Section 422 of the Code, and to the extent necessary to qualify the shares issuable upon exercise of any outstanding Stock Rights granted, or Stock Rights to be granted, under the Plan for listing on any national securities exchange or quotation in any national automated quotation system of securities dealers. Any amendment approved by the Administrator that the Administrator determines is of a scope that requires stockholder approval shall be subject to stockholder approval. No modification or amendment of the Plan shall adversely affect a Participant's rights under a Stock Right previously granted to the Participant, without such Participant's consent.

In its discretion, the Administrator may amend any term or condition of any outstanding Stock Right, provided: (i) such term or condition is not prohibited by the Plan; (ii) if the amendment is adverse to the Participant, such amendment shall be made only with the consent of the Participant or the Participant's Survivors, as the case may be; and (iii) any such amendment of any ISO shall be made only after the Administrator determines whether such amendment would constitute a "modification" of any Stock Right

which is an ISO (as that term is defined in Section 424(h) of the Code) or would cause any adverse tax consequences for the holder of such ISO (in which case, the Participant's or Participant's Survivors' consent to such amendment shall be required). Notwithstanding the foregoing, the Administrator shall not have the authority to reduce the exercise price of any Option after the date of grant, except for adjustments permitted under Section 17 of this Plan.

25. GOVERNING LAW

This Plan shall be construed and enforced in accordance with the law of The Commonwealth of Massachusetts.

ARTICLE II PARTICIPATION

SECTION 2.1. PARTICIPATION REQUIREMENTS.

- (a) **COMMENCEMENT OF PARTICIPATION.** Subject to Section 2.2 and Section 3.2(b), each person who becomes an Employee after the Effective Date may become a Participant in the Plan on any Offering Date following the date on which such person becomes an Employee.
- (b) **ELIGIBILITY OF FORMER PARTICIPANTS.** If a person terminates employment with the Company after becoming a Participant and subsequently resumes employment with the Company, such person will again become eligible to participate on the Offering Date next following such resumption of employment with the Company.

SECTION 2.2. *EXCLUSIONS*. Notwithstanding any provision of the Plan to the contrary, in no event shall the following persons be eligible to participate in the Plan:

- (a) Any Employee whose customary employment is twenty (20) hours or less per week;
- (b) Any Employee whose customary employment is for not more than five (5) months in any calendar year; or
- (c) Any Employee who, as of the beginning of an Offering Period, owns (or under Section 423(b)(3) of the Code would be deemed to own) stock possessing five percent (5%) or more of the total combined voting power or value of all classes of stock of the Company or a Subsidiary.

**ARTICLE III
OFFERING OF COMMON STOCK**

SECTION 3.1. *RESERVATION OF COMMON STOCK*. The Board of Directors shall reserve 1,748,660 shares of Common Stock for issuance under the Plan after March 17, 2004, subject to adjustment in accordance with Section 3.4, provided that no more than 248,660 of such shares shall be issued prior to May 15, 2004. On May 13, 2008, the Board of Directors shall reserve an additional 2,000,000 shares of Common Stock for issuance under the Plan.

SECTION 3.2. *OFFERING OF COMMON STOCK*.

- (a) *GENERAL*. Subject to Section 3.2(b), each Participant in the Plan on an Offering Date shall be entitled to purchase shares of Common Stock on each Purchase Date within the Offering Period that begins with such Offering Date with the amounts deducted from such Participant's Compensation during such Offering Period pursuant to Article IV, provided, however, that a Participant shall not participate in more than one Offering Period simultaneously. The purchase price for such shares of Common Stock shall be determined under Section 3.3.
- (b) *LIMITATIONS*. Notwithstanding Section 3.2(a), no employee may accrue rights to purchase shares of Common Stock attributable to an Offering Period in excess of \$25,000 of fair market value of such shares (measured as of the relevant Offering Date) for each calendar year during which such rights are outstanding. For any year, this limit shall be further reduced by the fair market value of stock (measured as of the relevant Offering Date for such stock) purchasable under any prior outstanding rights relating to such calendar year under this Plan and all other Code section 423 employee stock purchase plans of the Company or any Subsidiary. This paragraph is intended to be consistent with the limitation of Code section 423(b)(8) and shall be interpreted accordingly.

SECTION 3.3. *DETERMINATION OF PURCHASE PRICE FOR OFFERED COMMON STOCK*. The purchase price per share of the shares of Common Stock to be acquired by a Participant on a Purchase Date pursuant to an Offering shall be equal to eighty-five percent (85%) of the lesser of:

- (a) the Fair Market Value of a share of Common Stock on the Offering Date for such Offering Period; or
- (b) the Fair Market Value of a share of Common Stock on such Purchase Date;

provided, however, in no event shall the purchase price be less than the par value of a share of Common Stock.

SECTION 3.4. EFFECT OF CERTAIN TRANSACTIONS. The number of shares of Common Stock reserved for the Plan pursuant to Section 3.1, the maximum number of shares of Common Stock offered pursuant to Section 3.2(b), and the determination under Section 3.3 of the purchase price per share of the shares of Common Stock offered to Participants pursuant to an Offering shall be appropriately adjusted to reflect any increase or decrease in the number of issued shares of Common Stock resulting from a stock split, a consolidation of shares, the payment of a stock dividend, or any other capital adjustment affecting the number of issued shares of Common Stock. In the event that the outstanding shares of Common Stock shall be changed into or exchanged for a different number or kind of shares of stock or other securities of the Company or another corporation, whether through reorganization, recapitalization, merger, consolidation, or otherwise, then there shall be substituted for each share of Common Stock reserved for issuance under the Plan but not yet purchased by Participants, the number and kind of shares of stock or other securities into which each outstanding share of Common Stock shall be so changed or for which each such share shall be exchanged.

ARTICLE IV PAYROLL DEDUCTIONS

SECTION 4.1. PAYROLL DEDUCTION ELECTIONS. Any Employee eligible to participate in the Plan may elect to have the Company deduct from the Compensation payable to such Employee during each Offering Period any amount between one percent (1%) and fifteen percent (15%) of such Participant's Compensation, in whole multiples of one percent (1%). Such election shall be made during the thirty day period preceding the Offering Period to which it first relates. Such election shall become effective as of the first day of such Participant's first pay period that begins on or after the first day of such Offering Period and shall remain effective for each successive pay period and for each subsequent Offering until changed or terminated pursuant to this Article IV. The percentage deduction specified by the Participant will be deducted from each payment of Compensation made to the Participant.

SECTION 4.2. ELECTION TO INCREASE OR DECREASE PAYROLL DEDUCTIONS. Subject to Section 4.4, a Participant who has a payroll deduction election in effect under Section 4.1 may prospectively increase or decrease during an Offering Period the percentage amount of the deductions being made by the Company from such Participant's Compensation (including a decrease to zero) by delivering to the Company written direction to make such change. Such change shall become effective as soon as practicable after the Company's receipt of such written direction and shall remain in effect until changed or terminated pursuant to this Article IV. A Participant shall be permitted to increase or decrease the percentage amount of the deductions being made from such Participant's Compensation only once during each of the portions of an Offering Period that ends on a Purchase Date; provided, however, a Participant may terminate the deductions being made from such Participant's Compensation at any time during such Offering Period. If a Participant terminates deductions, such Participant cannot resume deductions during that Offering Period.

SECTION 4.3. TERMINATION OF ELECTION UPON TERMINATION OF EMPLOYMENT. The termination of employment of a Participant for any reason shall automatically terminate the election of such Participant to have amounts deducted from such Participant's Compensation pursuant to this Article IV that is then in effect. Such termination shall be effective immediately following the pay period during which such termination of employment occurs, but shall not affect the deduction from Compensation for that pay period.

SECTION 4.4. FORM OF ELECTIONS. Except as otherwise permitted by the Company, any election by a Participant regarding participation in or withdrawal from the Plan or deductions from Compensation pursuant to this Article IV shall be in writing on a form furnished by the Company for such purpose and shall be made by having such Participant file such form with the Company in the manner prescribed from time to time by the Company.

ARTICLE V
STOCK PURCHASE ACCOUNTS AND PURCHASE OF COMMON STOCK

SECTION 5.1. STOCK PURCHASE ACCOUNTS. A Stock Purchase Account shall be established and maintained on the books and records of the Company for each Participant. Amounts deducted from a Participant's Compensation pursuant to Article IV shall be credited to such Participant's Stock Purchase Account. No interest or other increment shall accrue or be payable to any Participant with respect to any amounts credited to such Stock Purchase Accounts. All amounts credited to such Stock Purchase Accounts shall be withdrawn, paid, or applied toward the purchase of Common Stock pursuant to the provisions of this Article V.

SECTION 5.2. PURCHASE OF COMMON STOCK.

- (a) GENERAL. As of each Purchase Date, the amount to the credit of a Participant in such Participant's Stock Purchase Account shall be used to purchase from the Company on such Participant's behalf the largest number of whole shares of Common Stock which can be purchased at the price determined under Section 3.3 with the amount then credited to such Participant's Stock Purchase Account, subject to the limitations set forth in Article III on the maximum number of shares of Common Stock such Participant may purchase. As of such date, such Participant's Stock Purchase Account shall be charged with the aggregate purchase price of the shares of Common Stock purchased on such Participant's behalf. No brokerage or other fees are to be charged upon a purchase. Stock transfer taxes, if any, shall be paid by the Company. The remaining balance, if any, credited to such Participant's Stock Purchase Account shall be carried forward and used to purchase shares of Common Stock on the next succeeding Purchase Date; provided that any excess balance remaining in a Participant's Stock Purchase Account after the application of the limitations in Section 3.2 shall be refunded to the Participant.
- (b) ISSUANCE OF COMMON STOCK. The shares of Common Stock purchased for a Participant as of a Purchase Date shall be deemed to have been issued by the Company for all purposes as of the close of business on such date. Prior to such date, none of the rights and privileges of a stockholder of the Company shall exist with respect to such shares of Common Stock. As soon as practicable after such a Purchase Date the Company shall issue and deliver, or shall cause its stock transfer agent to issue and deliver, a certificate for the number of shares of Common Stock purchased for a Participant, which certificate shall be issued in the Participant's name or, if so specified by the Participant, in the name of the Participant and such other person as the Participant shall designate as joint tenants with right of survivorship. In lieu of issuing a certificate, the Company may elect to deliver to the Participant a statement which shall indicate the number of shares of Common Stock purchased for such Participant and the aggregate number of shares of Common Stock held on behalf of such Participant under the Plan.
- (c) INSUFFICIENT COMMON STOCK AVAILABLE. If, as of any Purchase Date, the aggregate Stock Purchase Accounts available for the purchase of shares of Common Stock pursuant to

Section 5.2(a) would purchase a number of shares of Common Stock in excess of the number of shares of Common Stock then available for purchase under the Plan, (i) the number of shares of Common Stock which would otherwise be purchased for each Participant on such date shall be reduced proportionately to the extent necessary to eliminate such excess, (ii) the remaining balance to the credit of each Participant in each such Participant's Stock Purchase Accounts shall be distributed to each such Participant, and (iii) the Plan shall terminate automatically upon the distribution of the remaining balance in such Stock Purchase Accounts.

SECTION 5.3. WITHDRAWAL FROM PLAN PRIOR TO PURCHASE OF COMMON STOCK. In the event (i) a Participant elects in writing for any reason to withdraw from the Plan during an Offering Period or (ii) a Participant's employment with the Company terminates for any reason prior to the end of an Offering Period, then the entire amount remaining to the credit of such Participant in such Participant's Stock Purchase Account shall be distributed to such Participant (or, if such Participant is deceased, to such Participant's Beneficiary) as soon as administratively practicable after such withdrawal or termination of employment (as the case may be).

ARTICLE VI COMMITTEE

SECTION 6.1. POWERS OF THE COMMITTEE. The Committee shall administer the Plan. The Committee shall have all powers necessary to enable it to carry out its duties under the Plan properly. Not in limitation of the foregoing, the Committee shall have the power to construe and interpret the Plan and to determine all questions that shall arise thereunder. The decision of the Committee upon all matters within the scope of its authority shall be final and conclusive on all persons, except to the extent otherwise provided by law.

SECTION 6.2. INDEMNIFICATION OF THE COMMITTEE. The Company agrees to indemnify and hold harmless the members of the Committee against any liabilities, loss, costs, or damage that they may incur in acting as such members and to assume the defense of any and allocations, suits, or proceedings against the members of the Committee, to the extent permitted by applicable law.

ARTICLE VII AMENDMENT AND TERMINATION

SECTION 7.1. AMENDMENT OF THE PLAN. The Company expressly reserves the right, at any time and from time to time, to amend in whole or in part any of the terms and provisions of the Plan; provided, however, no amendment may without the approval of the shareholders of the Company increase the number of shares of Common Stock reserved under the Plan.

SECTION 7.2. TERMINATION OF PLAN. The Company expressly reserves the right, at any time and for whatever reason it may deem appropriate, to terminate the Plan. The Plan shall continue in effect until terminated pursuant to (i) the preceding sentence or (ii) Section 5.2(c). Upon any termination of the Plan, the entire amount credited to the Stock Purchase Account of each Participant shall be distributed to each such Participant.

SECTION 7.3. PROCEDURE FOR AMENDMENT OR TERMINATION. Any amendment to the Plan or termination of the Plan may be retroactive to the extent not prohibited by applicable law. Any amendment to the Plan or termination of the Plan shall be made by the Company by resolution of the

Board of Directors (subject to Section 7.1) and shall not require the approval or consent of any Participant or Beneficiary in order to be effective.

ARTICLE VIII MISCELLANEOUS

SECTION 8.1. ADOPTION BY A SUBSIDIARY. A Subsidiary may, with the approval of the Board of Directors and the board of directors of such Subsidiary, elect to adopt the Plan as of a date mutually agreeable to the Board of Directors and the board of directors of such Subsidiary. Any such adoption of the Plan by a Subsidiary shall be evidenced by an appropriate instrument of adoption executed by such Subsidiary.

SECTION 8.2. AUTHORIZATION AND DELEGATION TO THE BOARD OF DIRECTORS. Each Subsidiary that hereafter adopts the Plan authorizes the Board of Directors (i) to amend or terminate the Plan without further action by said Subsidiary as provided in Article VII and (ii) to perform such other acts and to do such other things as the Board of Directors is expressly directed, authorized, or permitted to perform or do as provided herein.

SECTION 8.3. TRANSFERABILITY OF RIGHTS. Rights under the Plan are not transferable by a Participant other than by will or the laws of descent and distribution and are exercisable during a Participant's lifetime only by the Participant.

SECTION 8.4. NO EMPLOYMENT RIGHTS. Participation in the Plan shall not give any employee of the Company or any Subsidiary any right to remain employed or, upon termination of employment, any right or interest in the Plan, except as expressly provided herein.

SECTION 8.5. COMPLIANCE WITH LAW. No shares of Common Stock shall be issued under the Plan prior to compliance by the Company to the satisfaction of its counsel with any applicable laws.

SECTION 8.6. CONSTRUCTION. Article, Section, and paragraph headings have been inserted in the Plan for convenience of reference only and are to be ignored in any construction of the provisions hereof. If any provision of the Plan shall be invalid or unenforceable, the remaining provisions shall nevertheless be valid, enforceable, and fully effective. It is the intent that the Plan shall at all times constitute an "employee stock purchase plan" within the meaning of Section 423(b) of the Code, and the Plan shall be construed, and interpreted to remain such. The Plan shall be construed, administered, regulated, and governed by the laws of the United States to the extent applicable, and to the extent such laws are not applicable, by the laws of The Commonwealth of Massachusetts. Without limiting the foregoing, all Participants for an Offering Period shall have the same rights and privileges with respect to their rights to acquire Common Stock under the Plan for such period, subject to the express terms hereof.
