QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2019

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _ TO _

Commission file number 000-19319

Vertex Pharmaceuticals Incorporated

(Exact name of registrant as specified in its charter)

Massachusetts

(State or other jurisdiction of
incorporation or organization)

50 Northern Avenue, Boston, Massachusetts

(Address of principal executive offices)

04-3039129

(I.R.S. Employer
Identification No.)

02210

(Zip Code)

Registrant's telephone number, including area code **(617) 341-6100**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

“We,” “us,” “Vertex” and the “Company” as used in this Quarterly Report on Form 10-Q refer to Vertex Pharmaceuticals Incorporated, a Massachusetts corporation, and its subsidiaries.

“Vertex,” “KALYDECO®,” “ORKAMBI®,” “SYMDEKO®” and “SYMKEVI®” are registered trademarks of Vertex. Other brands, names and trademarks contained in this Quarterly Report on Form 10-Q are the property of their respective owners.

We use the brand name for our products when we refer to the product that has been approved and with respect to the indications on the approved label. Otherwise, including in discussions of our cystic fibrosis development programs, we refer to our compounds by their scientific (or generic) name or VX developmental designation.

A. Basis of Presentation and Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited and have been prepared by Vertex Pharmaceuticals Incorporated (“Vertex” or the “Company”) in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

The condensed consolidated financial statements reflect the operations of the Company and its wholly-owned subsidiaries. The Company's condensed consolidated financial statements for the interim period ended March 31, 2018 also include the financial results of BioAxone Biosciences, Inc. (“BioAxone”), a variable interest entity (“VIE”) that the Company consolidated from 2014 through December 31, 2018. All material intercompany balances and transactions have been eliminated. The Company operates in one segment, pharmaceuticals. The Company has reclassified certain items from the prior year's condensed consolidated financial statements to conform to the current year's presentation.

Certain information and footnote disclosures normally included in the Company's 2018 Annual Report on Form 10-K have been condensed or omitted. These interim financial statements, in the opinion of management, reflect all normal recurring adjustments necessary for a fair presentation of the financial position and results of operations for the interim periods ended March 31, 2019 and 2018.

The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2018, which are contained in the 2018 Annual Report on Form 10-K.

Use of Estimates

The preparation of condensed consolidated financial statements in accordance with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements, and the amounts of revenues and expenses during the reported periods. Significant estimates in these condensed consolidated financial statements have been made in connection with the calculation of revenues, research and development expenses, goodwill, deferred tax asset valuation allowances and the provision for or benefit from income taxes. The Company bases its estimates on historical experience and various other assumptions, including in certain circumstances future projections that management believes to be reasonable under the circumstances. Actual results could differ from those estimates. Changes in estimates are reflected in reported results in the period in which they become known.

Recently Adopted Accounting Standards

Leases

In 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* (“ASC 842”), which amends a number of aspects of lease accounting and requires entities to recognize right-of-use assets and liabilities on the balance sheet. ASC 842 became effective on January 1, 2019. The Company has finalized its review of its portfolio of existing leases and current accounting policies and has concluded that the amended guidance results in the recognition of additional assets and corresponding liabilities on its balance sheets. The Company also has finalized changes to its controls to address the adoption and ongoing lease accounting and related disclosure requirements of the new standard.

Until December 31, 2018, the Company applied build-to-suit accounting and was the deemed owner of its leased corporate headquarters in Boston and research site in San Diego, for which it was recognizing depreciation expense over the buildings' useful lives and imputed interest on the corresponding construction financing lease obligations. Under the amended guidance that became effective January 1, 2019, the Company accounts for these buildings as finance leases, resulting in increased depreciation expense over the respective lease terms of 15-16 years, which are significantly shorter than the buildings' useful lives of 40 years. The Company also expects a reduction in its imputed interest expense in the initial years of each finance lease term. In 2019, the Company expects an increase in operating expenses of approximately \$26 million and a decrease in interest expense of approximately \$13 million due to this change.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

In July 2018, the FASB issued ASU No. 2018-11, *Leases (Topic 842): Targeted Improvements* (“ASU 2018-11”), which offered a transition option to entities adopting ASC 842. Under ASU 2018-11, entities could elect to apply ASC 842 using a modified-retrospective adoption approach resulting in a cumulative effect adjustment to accumulated deficit at the beginning of the year in which the new lease standard is adopted, rather than adjustments to the earliest comparative period presented in their financial statements. The Company adopted ASC 842 using the modified-retrospective method. As of January 1, 2019, the Company recorded a cumulative effect adjustment to increase its “Accumulated deficit” by \$40.3 million related to the adjustments to its build-to-suit leases described in the previous paragraph.

The Company elected the package of transition practical expedients for leases that commenced prior to January 1, 2019, allowing it not to reassess (i) whether any expired or existing contracts contain leases, (ii) the lease classification for any expired or existing leases and (iii) the initial indirect costs for any existing leases.

Additionally, the Company recorded, upon adoption of ASC 842 on January 1, 2019, operating lease assets of \$61.7 million and corresponding liabilities of \$71.9 million related to its real estate leases that are not treated as finance leases under ASC 842. The difference between these assets and liabilities is primarily attributable to prepaid or accrued lease payments. The Company also reclassified amounts that were recorded as “Capital lease obligations, current portion” and “Capital lease obligations, excluding current portion” as of December 31, 2018 to “Other current liabilities” and “Long-term finance lease liabilities,” respectively, on January 1, 2019. These adjustments had no impact on the Company’s condensed consolidated statement of operations and had no impact on the Company’s accumulated deficit.

The cumulative effect of applying ASC 842 on the Company’s condensed consolidated balance sheet as of January 1, 2019 was as follows:

Assets	Balance as of December 31, 2018 [^]	Adjustments (in thousands)	Balance as of January 1, 2019
Prepaid expenses and other current assets	\$ 140,819	\$ (2,930)	\$ 137,889
Property and equipment, net	812,005	(53,920)	758,085

Long-term finance lease liabilities	—	569,487	569,487
Long-term operating lease liabilities	—	64,849	64,849
Other long-term liabilities	26,280	(20,903)	5,377
Accumulated deficit	(2,989,478)	(40,310)	(3,029,788)
Total liabilities and shareholders’ equity	\$ 6,245,898	\$ 16,060	\$ 6,261,958

[^] As reported in the Company’s 2018 Annual Report on Form 10-K.

Please refer to Note K, “Leases,” for further information regarding the Company’s leases as well as certain disclosures required by ASC 842.

Derivatives and Hedging

In 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging (Topic 815)* (“ASU 2017-12”), which helps simplify certain aspects of hedge accounting and enables entities to more accurately present their risk management activities in their financial statements. ASU 2017-12 became effective January 1, 2019. The adoption of ASU 2017-12 did not have a significant effect on the Company’s condensed consolidated financial statements.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Recently Issued Accounting Standards

Internal-Use Software

In 2018, the FASB issued ASU 2018-15, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract* (“ASU 2018-15”), which clarifies the accounting for implementation costs in cloud computing arrangements. ASU 2018-15 is effective on January 1, 2020. Early adoption is permitted. The Company currently is evaluating the impact the adoption of ASU 2018-15 may have on its condensed consolidated financial statements.

Fair Value Measurement

In 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”), which modifies the disclosure requirements for fair value measurements. ASU 2018-13 is effective on January 1, 2020. Early adoption is permitted. The Company currently is evaluating the impact the adoption of ASU 2018-13 may have on its disclosures.

For a discussion of other recent accounting pronouncements please refer to Note A, “Nature of Business and Accounting Policies—Recent Accounting Pronouncements,” in the 2018 Annual Report on Form 10-K.

Summary of Significant Accounting Policies

The Company’s significant accounting policies are described in Note A, “Nature of Business and Accounting Policies,” in its 2018 Annual Report on Form 10-K. The Company is disclosing changes in its accounting policies related to guidance that became effective January 1, 2019 in this Quarterly Report on Form 10-Q. Specifically, the Company has included its policy pursuant to its adoption of ASC 842 below.

Leases

At the inception of an arrangement, the Company determines whether the arrangement contains a lease. If a lease is identified in an arrangement, the Company recognizes a right-of-use asset and liability on its balance sheet and determines whether the lease should be classified as a finance or operating lease. The Company does not recognize assets or liabilities for leases with lease terms of less than 12 months.

A lease qualifies as a finance lease if any of the following criteria are met at the inception of the lease: (i) there is a transfer of ownership of the leased asset to the Company by the end of the lease term, (ii) the Company holds an option to purchase the leased asset that it is reasonably certain to exercise, (iii) the lease term is for a major part of the remaining economic life of the leased asset, (iv) the present value of the sum of lease payments equals or exceeds substantially all of the fair value of the leased asset, or (v) the nature of the leased asset is specialized to the point that it is expected to provide the lessor no alternative use at the end of the lease term. All other leases are recorded as operating leases.

Finance and operating lease assets and liabilities are recognized at the lease commencement date based on the present value of the lease payments over the lease term using the discount rate implicit in the lease. If the rate implicit is not readily determinable, the Company utilizes its incremental borrowing rate at the lease commencement date. Operating lease assets are further adjusted for prepaid or accrued lease payments. Operating lease payments are expensed using the straight-line method as an operating expense over the lease term. Finance lease assets are amortized to depreciation expense using the straight-line method over the shorter of the useful life of the related asset or the lease term. Finance lease payments are bifurcated into (i) a portion that is recorded as imputed interest expense and (ii) a portion that reduces the finance liability associated with the lease.

The Company does not separate lease and non-lease components when determining which lease payments to include in the calculation of its lease assets and liabilities. Variable lease payments are expensed as incurred. If a lease includes an option to extend or terminate the lease, the Company reflects the option in the lease term if it is reasonably certain it will exercise the option.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Finance leases are recorded in “Property and equipment, net,” “Other current liabilities” and “Long-term finance lease liabilities” on the Company’s condensed consolidated balance sheet. Operating leases are recorded in “Operating lease assets,” “Other current liabilities” and “Long-term operating lease liabilities” on the Company’s condensed consolidated balance sheet.

Revenues by Product

Product revenues, net consisted of the following:

	Three Months Ended March 31,	
	2019	2018
	(in thousands)	
SYMDEKO/SYMKEVI	\$ 320,275	\$ 34,124
ORKAMBI	293,007	354,066
KALYDECO	243,971	249,539
Total product revenues, net	<u>\$ 857,253</u>	<u>\$ 637,729</u>

Revenues by Geographic Location

Net product revenues are attributed to countries based on the location of the customer. Collaborative and royalty revenues are attributed to countries based on the location of the Company’s subsidiary associated with the collaborative arrangement related to such revenues. Total revenues from external customers and collaborators by geographic region consisted of the following:

	Three Months Ended March 31,	
	2019	2018
	(in thousands)	
United States	\$ 641,104	\$ 482,667
Outside of the United States		
Europe	167,751	131,895
Other	49,580	26,237
Total revenues outside of the United States	<u>217,331</u>	<u>158,132</u>
Total revenues	<u>\$ 858,435</u>	<u>\$ 640,799</u>

In the three months ended March 31, 2019 and 2018, revenues attributable to Germany contributed the largest amount to the Company’s European revenues.

French Early Access Programs

In 2015, the Company began distributing ORKAMBI through early access programs in France and continues to be engaged in ongoing pricing discussions regarding the final price for ORKAMBI in France. The Company expects that the difference between the amounts it has collected to date based on the invoiced price and the final negotiated price for ORKAMBI in France will be returned to the French government.

Pursuant to the revenue recognition accounting guidance that was applicable until December 31, 2017, the Company’s ORKAMBI net product revenues for 2015, 2016 and 2017 did not include any net product revenues from sales of ORKAMBI in France because the price was not fixed and determinable at the time of delivery. Upon adopting ASU 2014-09, *Revenues from Contracts with Customers (Topic 606)*, in the first quarter of 2018, the Company began recognizing net product revenues on a portion of its current period sales based on its estimate of consideration it expects to retain that will not be subject to a significant reversal in amounts recognized. If the Company’s estimate regarding the amounts it will receive for

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

ORKAMBI supplied pursuant to these early access programs changes, the Company will reflect the effect of the change in estimate in “Product revenues, net” in the period in which the change in estimate occurs.

As of March 31, 2019 and December 31, 2018, the Company’s condensed consolidated balance sheets included an “Early access sales accrual” of \$382.7 million and \$354.4 million, respectively, which was primarily related to the amount it may be required to return to the French government related to ORKAMBI early access programs, which is considered to be a refund liability.

Contract Liabilities

The Company recorded contract liabilities of \$51.4 million and \$24.9 million as of March 31, 2019 and December 31, 2018, respectively, related to annual contracts with government-owned and supported customers in international markets that limit the amount of annual reimbursement the Company can receive. Upon exceeding the annual reimbursement amount, products are provided free of charge, which is a material right. These contracts, which are classified as “Other current liabilities,” include upfront payments and fees. The Company defers a portion of the consideration received for shipments made up to the annual reimbursement limit, and the deferred amount is recognized as revenue when the free products are shipped. The Company’s product revenue contracts include performance obligations that are one year or less.

Several of the Company’s contract liabilities relate to contracts with annual reimbursement limits in international markets in which the annual period associated with the contract is not the same as the Company’s fiscal year. In the majority of international markets in which the Company has a contract with an annual reimbursement limit, the annual period associated with the contract is the same as the Company’s fiscal year, resulting in no contract liability balance at the end of the year and no revenues recognized in the current year related to performance obligations satisfied in previous years. For the international markets in which the periods associated with these annual contracts are not the same as the Company’s fiscal year, the Company recognizes revenues related to performance obligations satisfied in previous years; however, these amounts are not material to the Company’s financial statements and do not relate to any performance obligations that were satisfied more than 12 months prior to the beginning of the current year.

C. Collaborative Arrangements and Acquisitions

The Company has entered into numerous agreements pursuant to which it collaborates with third parties on research, development and commercialization programs, including in-license and out-license agreements and asset acquisitions.

In-license Agreements

The Company has entered into a number of license agreements in order to advance and obtain access to technologies and services related to its research and early-development activities. The Company is generally required to make an upfront payment upon execution of the license agreement; development, regulatory and commercialization milestones payments upon the achievement of certain product research, development and commercialization objectives; and royalty payments on future sales, if any, of commercial products resulting from the collaboration.

Pursuant to the terms of its in-license agreements, the Company’s collaborators lead the discovery efforts and the Company leads all preclinical, development and commercialization activities associated with the advancement of any drug candidates and funds all expenses unless otherwise described below.

The Company typically can terminate its in-license agreements by providing advance notice to its collaborators; the required length of notice is dependent on whether any product developed under the license agreement has received marketing approval. The Company’s license agreements may be terminated by either party for a material breach by the other, subject to notice and cure provisions. Unless earlier terminated, these license agreements generally remain in effect until the date on which the royalty term and all payment obligations with respect to all products in all countries have expired.

CRISPR Therapeutics AG

In 2015, the Company entered into a strategic collaboration, option and license agreement (the “CRISPR Agreement”) with CRISPR Therapeutics AG and its affiliates (“CRISPR”) to collaborate on the discovery and development of potential new treatments aimed at the underlying genetic causes of human diseases using CRISPR-Cas9 gene-editing technology. The

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Company has the exclusive right to license up to six CRISPR-Cas9-based targets, including targets for the potential treatment of sickle cell disease. In connection with the CRISPR Agreement, the Company made an upfront payment to CRISPR of \$75.0 million and an investment in CRISPR's stock. The Company has also made several subsequent investments in CRISPR's common stock, which has resulted in CRISPR becoming a related party of the Company. Please refer to Note F, "Marketable Securities and Equity Investments," for further information regarding the Company's investment in CRISPR's common stock.

The Company funds all the discovery activities conducted pursuant to the CRISPR Agreement. For targets that the Company elects to license, other than hemoglobinopathy treatments, the Company would lead all development and global commercialization activities. For each target that the Company elects to license, other than hemoglobinopathy targets, CRISPR has the potential to receive up to \$420.0 million in development, regulatory and commercial milestones as well as royalties on net product sales. As part of the collaboration, the Company and CRISPR share equally all development costs and potential worldwide revenues related to potential hemoglobinopathy treatments, including treatments for beta thalassemia and sickle cell disease.

In 2017, the Company entered into a co-development and co-commercialization agreement with CRISPR pursuant to the terms of the CRISPR Agreement, under which the Company and CRISPR are co-developing and will co-commercialize CTX001 (the "CTX001 Co-Co Agreement") for the treatment of hemoglobinopathy, including treatments for sickle cell disease and beta thalassemia. The Company concluded that the CTX001 Co-Co Agreement is a cost-sharing arrangement, which results in the net impact of the arrangement being recorded in "Research and development expenses" in its condensed consolidated statements of operations. During the three months ended March 31, 2019 and 2018, the net expense related to the CTX001 Co-Co Agreement was \$7.0 million and \$3.6 million, respectively.

Other In-license Agreements

In 2016, the Company entered into a strategic collaboration and licensing agreement with Moderna Therapeutics, Inc. ("Moderna"), pursuant to which the parties are seeking to identify and develop messenger ribonucleic acid, or mRNA, therapeutics for the treatment of CF. The Company made an upfront payment to Moderna of \$20.0 million and an investment in Moderna's preferred stock, which converted to common stock when Moderna became a publicly traded company in December 2018. Moderna has the potential to receive future development and regulatory milestones of up to \$275.0 million, as well as royalties on net product sales. Please refer to Note F, "Marketable Securities and Equity Investments," for further information regarding the Company's investment in Moderna's common stock.

In December 2018, the Company entered into a strategic collaboration and licensing agreement (the "Arbor Agreement") with Arbor Biotechnologies, Inc. ("Arbor") focused on the discovery of novel proteins, including DNA endonucleases, to advance the development of new gene-editing therapies. Pursuant to the Arbor Agreement, Arbor's platform technology is being applied in the collaboration activities for up to five Vertex disease areas in exchange for an upfront payment of \$30.0 million. In addition, the Company received a convertible promissory note that matures in 2023 for an additional \$15.0 million payment. For each product identified by the collaboration, Arbor has the potential to receive up to \$337.5 million in development, regulatory and commercial milestones as well as royalties on net product sales.

The Company determined that the fair value of the convertible promissory note approximated its contractual value upon agreement execution and classifies the convertible note in "Other assets" at amortized cost. The Company determined that substantially all of the fair value of the Arbor Agreement was attributable to an in-process research and development asset and no substantive processes were acquired that would constitute a business. The Company concluded that it did not have any alternative future use for the acquired in-process research and development asset and recorded the \$30.0 million upfront payment to "Research and development expenses."

In 2015, the Company entered into a strategic collaboration and license agreement with Parion Sciences, Inc. ("Parion") focused on the development of investigational epithelial sodium channel ("ENaC") inhibitors for the potential treatment of CF and all other pulmonary diseases. Parion received a \$5.0 million milestone that was recorded as "Research and development expenses" in the three months ended March 31, 2019 and has the potential to receive additional development and regulatory milestones related to the ENaC inhibitors.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Variable Interest Entities (VIEs)

The Company has licensed rights to certain drug candidates from these third-party collaborators, which has resulted in the consolidation of certain third-parties' financial statements into the Company's condensed consolidated financial statements as VIEs for certain periods of time. As of December 31, 2018, and continuing through the first quarter of 2019, the Company had no consolidated VIEs reflected in its financial statements.

BioAxone Biosciences, Inc.

In 2014, the Company entered into a license and collaboration agreement (the "BioAxone Agreement") with BioAxone, which resulted in the consolidation of BioAxone as a VIE beginning in October 2014. The Company made an initial payment to BioAxone of \$10.0 million in 2014.

In the three months ended March 31, 2018, the Company recorded net income attributable to noncontrolling interest of \$17.0 million, which was primarily related to a \$24.0 million increase in the fair value of the contingent payments payable by Vertex to BioAxone due to (i) the expiration of an option held by the Company to purchase BioAxone in the first quarter of 2018 that increased the probability of a \$10.0 million license continuation fee for VX-210 (which was ultimately paid in the first quarter of 2018) and (ii) the probability that additional milestone and royalty payments related to the BioAxone Agreement would be paid. Net income attributable to noncontrolling interest also included a \$6.4 million benefit from income taxes during the three months ended March 31, 2018 that was primarily related to the increase in the fair value of the contingent payments.

In October 2018, the Company announced it would stop clinical development of VX-210 and terminate the Phase 2b clinical trial of VX-210 based on the recommendation of the clinical trial's Data Safety Monitoring Board and the Company's review of interim data from the clinical trial. In December 2018, the Company notified BioAxone of its intent to terminate the BioAxone Agreement and executed a release that immediately allowed BioAxone to control development of its neurological programs other than VX-210 without the Company's consent. As a result, the Company deconsolidated BioAxone as of December 31, 2018 because it determined that it no longer was the primary beneficiary of BioAxone as it no longer had the power to direct the significant activities of BioAxone. The net impact of the deconsolidation was not material to the Company's condensed consolidated statement of operations.

Asset Acquisition

Concert Pharmaceuticals

In 2017, the Company acquired certain CF assets including VX-561 (the "Concert Assets") from Concert Pharmaceuticals Inc. ("Concert") pursuant to an asset purchase agreement (the "Concert Agreement"). VX-561 is an investigational CFTR potentiator that has the potential to be used as part of combination regimens of CFTR modulators to treat CF. Pursuant to the Concert Agreement, Vertex paid Concert \$160.0 million in cash for the Concert Assets, which was recorded to "Research and development expenses" in 2017. If VX-561 is approved as part of a combination regimen to treat CF, Concert could receive up to an additional \$90.0 million in milestones based on regulatory approval in the United States and reimbursement in the United Kingdom, Germany or France.

Out-license agreements

The Company has entered into licensing agreements pursuant to which it has out-licensed rights to certain drug candidates to third-party collaborators. Pursuant to these out-license agreements, the Company's collaborators become responsible for all costs related to the continued development of such drug candidates and obtain development and commercialization rights to these drug candidates. Depending on the terms of the agreements, the Company's collaborators may be required to make upfront payments, milestone payments upon the achievement of certain product research and development objectives and may also be required to pay royalties on future sales, if any, of commercial products resulting from the collaboration. The termination provisions associated with these collaborations are generally the same as those described above related to the Company's in-license agreements.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Merck KGaA, Darmstadt, Germany

In January 2017, the Company entered into a strategic collaboration and license agreement (the “Oncology Agreement”) with Merck KGaA, Darmstadt, Germany (the “Licensee”). Pursuant to the Oncology Agreement, the Company granted the Licensee an exclusive worldwide license to research, develop and commercialize four oncology research and development programs including two clinical-stage programs targeting DNA damage repair: its ataxia telangiectasia and Rad3-related protein kinase inhibitor program, or ATR program, including VX-970 and VX-803, and its DNA-dependent protein kinase inhibitor program, or DNA-PK program, including VX-984. In addition, the Company granted the Licensee exclusive, worldwide rights to two pre-clinical programs. The Company recorded the \$230.0 million upfront payment related to the Oncology Agreement as “Collaborative and royalty revenues” upon delivery of the license in 2017. The Company’s activities related to the Oncology Agreement were substantially complete in 2017.

In December 2018, the Company entered into an agreement with Merck KGaA, Darmstadt, Germany (the “DNA-PK Agreement”) whereby the Company licensed the two lead Vertex DNA-PK compounds from its DNA-PK program for use in the field of gene integration for six specific indications. In exchange for this exclusive worldwide license to research, develop and commercialize the DNA-PK program for the specified indications within the field of gene integration, the Company made an upfront payment of \$65.0 million. Merck KGaA, Darmstadt, Germany has the potential to receive additional milestones, primarily related to approval and reimbursement in various markets, as well as royalties on net product sales.

The Company evaluated the DNA-PK Agreement and concluded it represents a modification of the Oncology Agreement pursuant to ASC 606. As of December 2018, when the Company entered into the DNA-PK Agreement, the Company had completed its obligations under the Oncology Agreement, but the Oncology Agreement was an open contract pursuant to ASC 606 since the Company could receive future royalty payments from the commercialization of the licensed programs under the Oncology Agreement.

In applying ASC 606, the Company determined that the license granted under the DNA-PK Agreement is distinct from the license granted by the Company under the Oncology Agreement since the license to the two lead Vertex DNA-PK compounds is capable of being distinct as the Company is able to benefit from the license via its ability to internally develop and commercialize the two lead Vertex DNA-PK compounds in the six named indications in the field of gene-editing, and the license is not dependent on Merck KGaA, Darmstadt, Germany providing any specialized services to the Company. In addition, the license to the two lead Vertex DNA-PK compounds granted to the Company under the DNA-PK Agreement is distinct from the license granted by the Company under the Oncology Agreement as the rights conveyed in the licenses differ and both parties have the ability to commercially benefit from the licenses on their own. Furthermore, the consideration attributable to the license of the two lead Vertex DNA-PK compounds represents fair value. Therefore, the Company determined it should account for the DNA-PK Agreement as a separate agreement.

The Company determined that substantially all of the fair value of the DNA-PK Agreement was attributable to a single in-process research and development asset that did not constitute a business. The Company concluded that it did not have any alternative future use for the acquired in-process research and development asset and recorded the \$65.0 million payment to “Research and development expenses” accordingly.

Janssen Pharmaceuticals, Inc.

In 2014, the Company entered into an agreement with Janssen Pharmaceuticals, Inc. (“Janssen”). Pursuant to the agreement, Janssen has an exclusive worldwide license to develop and commercialize certain drug candidates for the treatment of influenza, including pimodivir. The Company has received upfront and milestone payments of \$60.0 million from Janssen to date. The most recent milestone was earned based on Janssen’s initiation of a Phase 3 clinical trial in 2017.

Cystic Fibrosis Foundation

The Company has a research, development and commercialization agreement that was originally entered into in 2004 with Cystic Fibrosis Foundation (“CFF”), as successor in interest to the Cystic Fibrosis Foundation Therapeutics, Inc. This agreement was most recently amended in 2016 (the “2016 Amendment”). Pursuant to the agreement, as amended, the Company agreed to pay royalties ranging from low-single digits to mid-single digits on potential sales of certain compounds

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

first synthesized and/or tested between March 1, 2014 and August 31, 2016, including VX-659 and VX-445, and tiered royalties ranging from single digits to sub-teens on any approved drugs first synthesized and/or tested during a research term on or before February 28, 2014, including KALYDECO (ivacaftor), ORKAMBI (lumacaftor in combination with ivacaftor) and SYMDEKO/SYMKEVI (tezacaftor in combination with ivacaftor). For combination products, such as ORKAMBI and SYMDEKO, sales are allocated equally to each of the active pharmaceutical ingredients in the combination product. There are no remaining commercial milestone payments payable by the Company to CFF pursuant to the agreement.

Pursuant to the 2016 Amendment, the Company received an upfront payment of \$75.0 million and is receiving development funding from CFF of up to \$6.0 million annually. The Company concluded that the upfront payment plus any future development funding represent a form of financing pursuant to ASC 730 and thus records the amounts as a liability on the condensed consolidated balance sheet, primarily reflected in “Long-term advance from collaborator.” The Company reduces this liability over the estimated royalty term of the agreement and reflects the reductions as an offset to “Cost of sales” and as “Interest expense.”

The Company has royalty obligations to CFF for ivacaftor, lumacaftor and tezacaftor until the expiration of patents covering those compounds. The Company has patents in the United States and European Union covering the composition-of-matter of ivacaftor that expire in 2027 and 2025, respectively, subject to potential patent extension. The Company has patents in the United States and European Union covering the composition-of-matter of lumacaftor that expire in 2030 and 2026, respectively, subject to potential extension. The Company has patents in the United States and European Union covering the composition-of-matter of tezacaftor that expire in 2027 and 2028, respectively, subject to potential extension.

D. Earnings Per Share

Basic net income per share attributable to Vertex common shareholders is based upon the weighted-average number of common shares outstanding during the period, excluding restricted stock, restricted stock units and performance-based restricted stock units, or “PSUs,” that have been issued but are not yet vested. Diluted net income per share attributable to Vertex common shareholders is based upon the weighted-average number of common shares outstanding during the period plus additional weighted-average common equivalent shares outstanding during the period when the effect is dilutive.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

The following table sets forth the computation of basic and diluted net income per share for the periods ended:

	Three Months Ended March 31,	
	2019	2018
(in thousands, except per share amounts)		
<i>Basic net income attributable to Vertex per common share calculation:</i>		
Net income attributable to Vertex common shareholders	\$ 268,631	\$ 210,263
Less: Undistributed earnings allocated to participating securities	—	(99)
Net income attributable to Vertex common shareholders—basic	\$ 268,631	\$ 210,164
Basic weighted-average common shares outstanding	255,695	253,231
Basic net income attributable to Vertex per common share	\$ 1.05	\$ 0.83
<i>Diluted net income attributable to Vertex per common share calculation:</i>		
Net income attributable to Vertex common shareholders	\$ 268,631	\$ 210,263
Less: Undistributed earnings allocated to participating securities	—	(97)
Net income attributable to Vertex common shareholders—diluted	\$ 268,631	\$ 210,166
Weighted-average shares used to compute basic net income per common share	255,695	253,231
Effect of potentially dilutive securities:		
Stock options	2,585	3,248
Restricted stock and restricted stock units (including PSUs)	1,870	2,013
Employee stock purchase program	25	34
Weighted-average shares used to compute diluted net income per common share	260,175	258,526
Diluted net income attributable to Vertex per common share	\$ 1.03	\$ 0.81

The Company did not include the securities in the following table in the computation of the net income per share attributable to Vertex common shareholders calculations because the effect would have been anti-dilutive during each period:

	Three Months Ended March 31,	
	2019	2018
(in thousands)		
Stock options	2,837	1,633
Unvested restricted stock and restricted stock units (including PSUs)	6	4

E. Fair Value Measurements

The fair value of the Company's financial assets and liabilities reflects the Company's estimate of amounts that it would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from sources independent from the Company) and to minimize the use of unobservable inputs (the Company's assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on the Company's assessment of the assumptions that market participants would use in pricing the asset or liability.

The Company's investment strategy is focused on capital preservation. The Company invests in instruments that meet the credit quality standards outlined in the Company's investment policy. This policy also limits the amount of credit exposure to any one issue or type of instrument. The Company maintains strategic investments separately from the investment policy that governs its other cash, cash equivalents and marketable securities as described in "Note F, "Marketable Securities and Equity Investments." As of March 31, 2019, the Company's investments were in money market funds, U.S. Treasury securities, government-sponsored enterprise securities, corporate debt securities, commercial paper and corporate equity securities. Additionally, the Company utilizes foreign currency forward contracts intended to mitigate the effect of changes in foreign exchange rates on its condensed consolidated statement of operations.

As of March 31, 2019, all of the Company's financial assets and liabilities that were subject to fair value measurements were valued using observable inputs. The Company's financial assets valued based on Level 1 inputs consisted of money market funds, U.S. Treasury securities, government-sponsored enterprise securities and corporate equity securities. The Company's financial assets and liabilities valued based on Level 2 inputs consisted of certain corporate equity securities as described below, corporate debt securities, commercial paper, which consisted of investments in highly-rated investment-grade corporations, and foreign currency forward contracts with reputable and creditworthy counterparties. In 2018, Moderna became a publicly traded company. The Company has valued its investment in Moderna based on Level 2 inputs due to transfer restrictions subsequent to Moderna's initial public offering lasting until December 2019. The reduction in fair value recorded on the Company's condensed consolidated balance sheet related to this transfer restriction is not material to its financial statements. During the three months ended March 31, 2019 and 2018, the Company did not record any other-than-temporary impairment charges related to its financial assets.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

The following table sets forth the Company's financial assets and liabilities subject to fair value measurements (and does not include \$1.5 billion and \$1.4 billion of cash as of March 31, 2019 and December 31, 2018, respectively):

Available-for-sale debt securities were recorded in the Company's condensed consolidated balance sheets at fair value as follows:

	As of March 31, 2019		As of December 31, 2018	
	(in thousands)			
Cash and cash equivalents	\$	1,412,912	\$	1,297,960
Marketable securities		373,276		350,785
Total	\$	1,786,188	\$	1,648,745

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

Available-for-sale debt securities by contractual maturity were as follows:

	As of March 31, 2019		As of December 31, 2018	
	(in thousands)			
Matures within one year	\$	1,775,571	\$	1,647,500
Matures after one year through five years		10,617		1,245
Total	\$	1,786,188	\$	1,648,745

The Company has a limited number of available-for-sale debt securities in insignificant loss positions as of March 31, 2019, which it does not intend to sell and has concluded it will not be required to sell before recovery of the amortized costs for the investments at maturity. The Company did not record any charges for other-than-temporary declines in the fair value of available-for-sale debt securities or gross realized gains or losses in the three months ended March 31, 2019 and 2018.

The Company maintains strategic investments separately from the investment policy that governs its other cash, cash equivalents and marketable securities. The Company's investments in the common stock of publicly traded companies, CRISPR and Moderna as of March 31, 2019 and December 31, 2018, respectively, have readily determinable fair values and are recorded in "Marketable securities" on its condensed consolidated balance sheets. As of March 31, 2019 and December 31, 2018, the total fair value of the Company's strategic investments in the common stock of publicly traded companies, was \$210.9 million and \$167.3 million, respectively. During the three months ended March 31, 2019 and 2018, the Company recorded unrealized gains of \$43.6 million and \$95.5 million, respectively, primarily related to increases in the fair value of its investment in CRISPR.

As of March 31, 2019, the carrying value of the Company's equity investments without readily determinable fair values, which are recorded in "Other assets" on its condensed consolidated balance sheets, was \$13.6 million.

G. Accumulated Other Comprehensive Income (Loss)

The following table summarizes the changes in accumulated other comprehensive (loss) income by component:

	Foreign Currency Translation Adjustment	Unrealized Holding Gains (Losses), Net of Tax			Total

H. Hedging

Foreign currency forward contracts - Designated as hedging instruments

The Company maintains a hedging program intended to mitigate the effect of changes in foreign exchange rates for a portion of the Company's forecasted product revenues denominated in certain foreign currencies. The program includes foreign currency forward contracts that are designated as cash flow hedges under GAAP having contractual durations from one to eighteen months. The Company recognizes realized gains and losses for the effective portion of such contracts in "Product revenues, net" in its condensed consolidated statements of operations in the same period that it recognizes the product revenues that were impacted by the hedged foreign exchange rate changes.

The Company formally documents the relationship between foreign currency forward contracts (hedging instruments) and forecasted product revenues (hedged items), as well as the Company's risk management objective and strategy for undertaking various hedging activities, which includes matching all foreign currency forward contracts that are designated as cash flow hedges to forecasted transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the foreign currency forward contracts are highly effective in offsetting changes in cash flows of hedged items. If the Company were to determine that a (i) foreign currency forward contract is not highly effective as a cash flow hedge, (ii) foreign currency forward contract has ceased to be a highly effective hedge or (iii) forecasted transaction is no longer probable of occurring, the Company would discontinue hedge accounting treatment prospectively. The Company measures effectiveness based on the change in fair value of the forward contracts and the fair value of the hypothetical foreign currency forward contracts with terms that match the critical terms of the risk being hedged. As of March 31, 2019, all hedges were determined to be highly effective.

The Company considers the impact of its counterparties' credit risk on the fair value of the foreign currency forward contracts. As of March 31, 2019 and December 31, 2018, credit risk did not change the fair value of the Company's foreign currency forward contracts.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

The following table summarizes the notional amount of the Company's outstanding foreign currency forward contracts designated as cash flow hedges under GAAP:

Foreign Currency	As of March 31, 2019		As of December 31, 2018	
	(in thousands)			
Euro	\$	373,264	\$	335,179
British pound sterling		76,685		73,460
Australian dollar		70,889		52,820
Canadian dollar		40,089		43,759
Total foreign currency forward contracts	\$	560,927	\$	505,218

Foreign currency forward contracts - Not designated as hedging instruments

The Company also enters into foreign currency forward contracts with contractual maturities of less than one month, which are designed to mitigate the effect of changes in foreign exchange rates on monetary assets and liabilities, including intercompany balances. These contracts are not designated as hedging instruments under GAAP. The Company recognizes realized gains and losses for such contracts in "Other income, net" in its condensed consolidated statements of operations each period. As of March 31, 2019, the notional amount of the Company's outstanding foreign currency forward contracts where hedge accounting under GAAP is not applied was \$220.9 million.

During the three months ended March 31, 2019 and 2018, the Company recognized the following related to foreign currency forward contracts in its condensed consolidated statements of operations:

	Three Months Ended March 31,	
	2019	2018
(in thousands)		
<i>Designated as hedging instruments - Reclassified from AOCI</i>		
Product revenues, net	\$ 6,839	\$ (6,485)
<i>Not designated as hedging instruments</i>		
Other income, net	\$ 3,151	\$ 1,539

The following table summarizes the fair value of the Company's outstanding foreign currency forward contracts designated as cash flow hedges under GAAP included on its condensed consolidated balance sheets:

As of March 31, 2019

Finished goods		44,520		26,739
Total	\$	136,698	\$	124,360

J. Revolving Credit Facility

In October 2016, the Company entered into a Credit Agreement (the “Credit Agreement”) with Bank of America, N.A., as administrative agent and the lenders referred to therein. The Credit Agreement provides for a \$500.0 million revolving facility, \$300.0 million of which was drawn at closing (the “Loans”) and was repaid in February 2017. The Credit Agreement also provides that, subject to satisfaction of certain conditions, the Company may request that the borrowing capacity under the Credit Agreement be increased by an additional \$300.0 million. The Credit Agreement matures on October 13, 2021.

The Loans will bear interest, at the Company’s option, at either a base rate or a Eurodollar rate, in each case plus an applicable margin. Under the Credit Agreement, the applicable margins on base rate loans range from 0.75% to 1.50% and the applicable margins on Eurodollar loans range from 1.75% to 2.50%, in each case based on the Company’s consolidated leverage ratio (the ratio of the Company’s total consolidated debt to the Company’s trailing twelve-month EBITDA).

The Loans are guaranteed by certain of the Company’s domestic subsidiaries and secured by substantially all of the Company’s assets and the assets of the Company’s domestic subsidiaries (excluding intellectual property, owned and leased real property and certain other excluded property) and by the equity interests of the Company’s subsidiaries, subject to certain exceptions. Under the terms of the Credit Agreement, the Company must maintain, subject to certain limited exceptions, a consolidated leverage ratio of 3.00 to 1.00 and consolidated EBITDA of at least \$200.0 million, in each case measured on a quarterly basis.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

The Credit Agreement contains customary representations and warranties and usual and customary affirmative and negative covenants. The Credit Agreement also contains customary events of default. In the case of a continuing event of default, the administrative agent would be entitled to exercise various remedies, including the acceleration of amounts due under outstanding loans.

K. Leases

Finance Leases

The Company's finance lease assets and liabilities primarily relate to its corporate headquarters in Boston and research site in San Diego (the "Buildings"). These Buildings are classified as finance leases because the present value of the sum of the lease payments associated with the Buildings exceeds substantially all of the fair value of the Buildings. The Company also has outstanding finance leases for equipment.

Prior to the adoption of ASC 842 on January 1, 2019, the Company was deemed for accounting purposes to be the owner of the Buildings during their construction periods and recorded project construction costs incurred by its landlords. Upon completion of the Buildings, the Company determined that the underlying leases did not meet the criteria for "sale-leaseback" treatment. Accordingly, the Company depreciated the Buildings over 40 years and recorded interest expense associated with the financing obligations for the Buildings. The Company bifurcated the lease payments pursuant to the Buildings into (i) a portion that was allocated to the buildings and (ii) a portion that is allocated to the land on which the buildings were constructed. The portion of the lease obligations allocated to the land was treated as an operating lease.

Pursuant to ASC 842, the Company adjusted the amounts recorded on its condensed consolidated balance sheet as of January 1, 2019 for the Buildings to reflect the present value of the lease payments over the remaining lease term related to the Buildings. The finance lease assets associated with the Buildings are amortized to depreciation expense using the straight-line method over the remaining lease term, which is significantly shorter than the Buildings' useful lives. The Company continues to record interest expense associated with the finance lease liabilities for the Buildings.

Corporate Headquarters

In 2011, the Company entered into two lease agreements, pursuant to which the Company leases approximately 1.1 million square feet of office and laboratory space in two buildings in Boston, Massachusetts for a term of 15 years. Base rent payments commenced in December 2013, and will continue through December 2028. The Company utilizes this initial period as its lease term. The Company has an option to extend the lease terms for an additional ten years.

San Diego Lease

In 2015, the Company entered into a lease agreement pursuant to which the Company leases approximately 170,000 square feet of office and laboratory space in San Diego, California for a term of 16 years. Base rent payments will commence in the second quarter of 2019, and will continue through May 2034. The Company utilizes this initial period as its lease term. The Company has an option to extend the lease term for up to two additional five-year terms. The Company placed this building in service in the second quarter of 2018.

Operating Leases

The Company's operating leases relate to its real estate leases that are not classified as finance leases.

Aggregate Lease Information Related to the Application of ASC 842

The following information is disclosed in accordance with ASC 842, which became effective January 1, 2019. The components of lease cost recorded in the Company's condensed consolidated statement of operations were as follows:

	Three Months Ended March 31, 2019	
	(in thousands)	
Operating lease cost	\$	2,639
Finance lease cost		
Amortization of leased assets		12,365
Interest on lease liabilities		13,449
Variable lease cost		6,762
Sublease income		(1,484)
Net lease cost	\$	33,731

The Company's variable lease cost during the three months ended March 31, 2019 primarily related to operating expenses, taxes and insurance associated with its finance leases. The Company's sublease income during the three months ended March 31, 2019 primarily related to subleases for an insignificant portion of the Company's corporate headquarters.

The Company's leases are included on its condensed consolidated balance sheets as follows:

	As of March 31, 2019		As of December 31, 2018 [^]	
	(in thousands)			
Finance leases				
Property and equipment, net	\$	473,129	\$	640,952

2023	72,589	9,530	11,952	94,071
Thereafter	389,855	119,864	65,472	575,191
Total minimum lease payments	\$ 746,751	\$ 162,099	\$ 129,475	\$ 1,038,325

As of December 31, 2018, the Company's total sublease income to be received related to its facility leases was \$6.2 million. During the three months ended March 31, 2018, rental expense was \$4.6 million.

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

As of December 31, 2018, the Company had outstanding capital leases totaling gross property and equipment of \$94.8 million and accumulated depreciation of \$34.0 million. The capital leases, which were related to equipment and leasehold improvements, bore interest at rates ranging from less than 1% to 6% per year. The Company's capital lease amortization was included in depreciation expense during the three months ended March 31, 2018. The following table set forth the Company's future minimum payments due under capital leases as of December 31, 2018:

Year	(in thousands)
2019	\$ 10,770
2020	7,282
2021	5,649
2022	3,300
2023	1,974
Thereafter	3,085
Total payments	32,060
Less: amount representing interest	(2,585)
Present value of payments	\$ 29,475

L. Stock-based Compensation Expense and Share Repurchase

Stock-based compensation expense

During the three months ended March 31, 2019 and 2018, the Company recognized the following stock-based compensation expense:

	Three Months Ended March 31,	
	2019	2018
	(in thousands)

Share repurchase program

The Company's Board of Directors approved a share repurchase program, pursuant to which the Company is authorized to repurchase up to \$500.0 million of its common stock between February 1, 2018 and December 31, 2019. Under the share repurchase program, the Company is authorized to purchase shares from time to time through open market or privately negotiated transactions. Such purchases may be made pursuant to Rule 10b5-1 plans or other means as determined by the Company's management and in accordance with the requirements of the SEC.

During the three months ended March 31, 2019 and 2018, the Company repurchased 537,018 and 67,084 shares, respectively, of its common stock under the share repurchase program for an aggregate of \$98.0 million (of which \$4.0 million was accrued as of March 31, 2019) and \$11.3 million, respectively, including commissions and fees. As of March 31, 2019, there is a total of \$52.0 million remaining for repurchases under the share repurchase program. The Company expects to fund further repurchases of its common stock through a combination of cash on hand and cash generated by operations.

M. Income Taxes

The Company is subject to U.S. federal, state, and foreign income taxes. For the three months ended March 31, 2019, the Company recorded a provision for income taxes of \$51.5 million. The Company's effective tax rate for the three months ended March 31, 2019 is lower than the U.S. statutory rate primarily due to excess tax benefits related to stock-based compensation and utilization of net operating losses to offset pre-tax operating income. The Company's provision for income taxes for the three months ended March 31, 2019 increased compared to historical amounts due to the release of the Company's valuation allowance on the majority of its net operating losses and other deferred tax assets as of December 31, 2018. Starting in the three months ended March 31, 2019, the Company began recording a provision for income taxes on its pre-tax income using an estimated effective tax rate that approximates statutory rates. Due to the Company's ability to offset

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

its pre-tax income against previously benefited net operating losses, it expects the majority of its tax provision to represent a non-cash expense until its net operating losses have been fully utilized.

During the three months ended March 31, 2018, the Company's benefit from income taxes of \$12.7 million included a benefit from income taxes of \$21.9 million from excess tax benefits related to stock-based compensation partially offset by provisions for income taxes of \$6.4 million related to BioAxone's income taxes (as a result of an increase in the fair value of the contingent payments payable by the Company to BioAxone) and the Company's U.S. state and foreign taxes.

As noted above, the Company released the valuation allowance on the majority of net operating losses and other deferred tax assets and maintained a valuation allowance of \$168.5 million related primarily to U.S. state and foreign tax attributes as of December 31, 2018. On a periodic basis, the Company reassesses any valuation allowances that it maintains on its deferred tax assets, weighing positive and negative evidence to assess the recoverability of the deferred tax assets.

The Company has reviewed the tax positions taken, or to be taken, in its tax returns for all tax years currently open to examination by a taxing authority. Unrecognized tax benefits represent the aggregate tax effect of differences between tax return positions and the benefits recognized in the financial statements. As of March 31, 2019 and December 31, 2018, the Company had \$25.2 million and \$19.5 million, respectively, of gross unrecognized tax benefits, which would affect the Company's tax rate if recognized. The Company does not expect that its unrecognized tax benefits will materially increase within the next twelve months. The Company accrues interest and penalties related to unrecognized tax benefits as a component of its provision for income taxes. As of March 31, 2019, no significant interest or penalties were accrued. The Company did not recognize any material interest or penalties related to uncertain tax positions during the three months ended March 31, 2019 and 2018.

As of March 31, 2019, foreign earnings, which were not significant, have been retained indefinitely by foreign subsidiaries for indefinite reinvestment. Upon repatriation of those earnings, in the form of dividends or otherwise, the Company could be subject to withholding taxes payable to the various foreign countries.

The Company files U.S. federal income tax returns and income tax returns in various state, local and foreign jurisdictions. The Company is no longer subject to any tax assessment from an income tax examination in the United States or any other major taxing jurisdiction for years before 2011, except where the Company has net operating losses or tax credit carryforwards that originate before 2011. The Company has various income tax audits ongoing at any time throughout the world. No adjustments have been reported for any jurisdiction under audit.

N. Commitments and Contingencies

Guaranties and Indemnifications

As permitted under Massachusetts law, the Company's Articles of Organization and By-laws provide that the Company will indemnify certain of its officers and directors for certain claims asserted against them in connection with their service as an officer or director. The maximum potential amount of future payments that the Company could be required to make under these indemnification provisions is unlimited. However, the Company has purchased directors' and officers' liability insurance policies that could reduce its monetary exposure and enable it to recover a portion of any future amounts paid. No indemnification claims currently are outstanding, and the Company believes the estimated fair value of these indemnification arrangements is minimal.

The Company customarily agrees in the ordinary course of its business to indemnification provisions in agreements with clinical trial investigators and sites in its drug development programs, sponsored research agreements with academic and not-for-profit institutions, various comparable agreements involving parties performing services for the Company and its real estate leases. The Company also customarily agrees to certain indemnification provisions in its drug discovery, development and commercialization collaboration agreements. With respect to the Company's clinical trials and sponsored research agreements, these indemnification provisions typically apply to any claim asserted against the investigator or the investigator's institution relating to personal injury or property damage, violations of law or certain breaches of the Company's contractual obligations arising out of the research or clinical testing of the Company's compounds or drug

VERTEX PHARMACEUTICALS INCORPORATED
Notes to Condensed Consolidated Financial Statements
(unaudited)

candidates. With respect to lease agreements, the indemnification provisions typically apply to claims asserted against the landlord relating to personal injury or property damage caused by the Company, to violations of law by the Company or to certain breaches of the Company's contractual obligations. The indemnification provisions appearing in the Company's collaboration agreements are similar to those for the other agreements discussed above, but in addition provide some limited indemnification for its collaborator in the event of third-party claims alleging infringement of intellectual property rights. In each of the cases above, the indemnification obligation generally survives the termination of the agreement for some extended period, although the Company believes the obligation typically has the most relevance during the contract term and for a short period of time thereafter. The maximum potential amount of future payments that the Company could be required to make under these provisions is generally unlimited. The Company has purchased insurance policies covering personal injury, property damage and general liability that reduce its exposure for indemnification and would enable it in many cases to recover all or a portion of any future amounts paid. The Company has never paid any material amounts to defend lawsuits or settle claims related to these indemnification provisions. Accordingly, the Company believes the estimated fair value of these indemnification arrangements is minimal.

Other Contingencies

The Company has certain contingent liabilities that arise in the ordinary course of its business activities. The Company accrues a reserve for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated. There were no material contingent liabilities accrued as of March 31, 2019 or December 31, 2018.

O. Additional Cash Flow Information

The cash, cash equivalents and restricted cash at the beginning and ending of each period presented in the Company's condensed consolidated statements of cash flows for the three months ended March 31, 2019 and 2018 consisted of the following:

	Three Months Ended March 31,			
	2019		2018	
	Beginning of period	End of period	Beginning of period	End of period
	(in thousands)			
Cash and cash equivalents	\$ 2,650,134	\$ 2,893,885	\$ 1,665,412	\$ 1,995,893
Prepaid expenses and other current assets	4,910	6,250	2,114	9,835
Other assets	3,209	1,397	—	—
Cash, cash equivalents and restricted cash per statement of cash flows	<u>\$ 2,658,253</u>	<u>\$ 2,901,532</u>	<u>\$ 1,667,526</u>	<u>\$ 2,005,728</u>

Supplemental cash flow information related to the Company's leases was as follows:

	Three Months Ended March 31,	
	2019	
	(in thousands)	
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$	2,531
Operating cash flows from finance leases	\$	11,910
Financing cash flows from finance leases	\$	9,385
Right-of-use assets obtained in exchange for lease obligations		
Operating leases	\$	—
Finance leases	\$	—

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

We invest in scientific innovation to create transformative medicines for people with serious diseases. Our business is focused on developing and commercializing therapies for the treatment of cystic fibrosis, or CF, and advancing our research and development programs in other serious diseases. Our marketed products are SYMDEKO/SYMKEVI (tezacaftor in combination with ivacaftor), ORKAMBI (lumacaftor in combination with ivacaftor) and KALYDECO (ivacaftor), which are collectively approved to treat approximately half of the 75,000 CF patients in North America, Europe and Australia. Our triple combination regimens, if approved, would significantly increase the number of CF patients eligible for our products and could provide an improved treatment option for a majority of the patients currently eligible for our products. In fourth quarter of 2018 and first quarter of 2019, we reported positive data, including interim data, from the Phase 3 clinical trials evaluating the triple combinations of VX-659, tezacaftor and ivacaftor and VX-445, tezacaftor and ivacaftor in patients (i) who have a copy of the *F508del* mutation in their *CFTR* gene and a second mutation that results in minimal *CFTR* function, whom we refer to as F508del/Min patients; and (ii) who have two copies of the *F508del* mutation, whom we refer to as F508del homozygous patients. We expect to have final 24-week data from both Phase 3 triple combination programs in the second quarter of 2019. We expect to submit a New Drug Application, or NDA, to the United States Food and Drug Administration, or FDA, in the third quarter of 2019 and a Marketing Authorization Application, or MAA, in Europe in the fourth quarter of 2019 for a triple combination regimen. We also have earlier-stage programs in pain, beta thalassemia, sickle cell disease, alpha-1 antitrypsin deficiency and focal segmental glomerulosclerosis.

First quarter of 2019 Financial Highlights

Revenues

In the first quarter of 2019, our net product revenues continued to increase due to the approval of our third CF medicine, SYMDEKO/SYMKEVI, in 2018. During the remainder of 2019, we expect our net product revenues to increase due to increased revenues from SYMDEKO/SYMKEVI.

Expenses

In the first quarter of 2019, combined R&D and SG&A expenses increased by 10% from \$440.4 million in the first quarter of 2018 to \$486.5 million. In the first quarter of 2019, cost of sales was 11% of our net product revenues.

Balance Sheet

Increased balance sheet strength driven by earnings.

Business Highlights

Cystic Fibrosis

- Announced positive data from two Phase 3 clinical trials evaluating the triple combination of VX-445, tezacaftor and ivacaftor in F508del/Min patients and F508del homozygous patients 12 years of age or older.
- Obtained approval for SYMDEKO in Australia for certain patients 12 years of age or older.
- Obtained approval for ORKAMBI in the European Union for children 2 to 5 years of age.

[Table of Contents](#)

- Initiated Phase 2 dose-ranging clinical trial to evaluate the potentiator VX-561 as a potential once-daily monotherapy.
- Obtained approval for KALYDECO in the United States for infants 6 to <12 months of age.
- Initiated Phase 2 clinical trial evaluating the potential once-daily triple combination of VX-121 (an additional next-generation corrector) with VX-561 and tezacaftor.

Expanding Pipeline

- Obtained Fast Track Designation for VX-814, our first small molecule alpha-1 antitrypsin deficiency corrector.
- Announced with CRISPR Therapeutics that the first patient has been treated with CTX001 in a Phase 1/2 clinical trial of patients with transfusion-dependent beta thalassemia.
- Announced with CRISPR Therapeutics that first patient has been enrolled in a Phase 1/2 clinical trial of patients with sickle cell disease.
- Obtained Fast Track designation for CTX001 for both transfusion-dependent beta thalassemia and sickle cell disease.

Research

We plan to continue investing in our research programs and fostering scientific innovation in order to identify and develop transformative medicines. Our current internal research programs include programs targeting cystic fibrosis, pain, beta thalassemia, sickle cell disease, alpha-1 antitrypsin and focal segmental glomerulosclerosis. We believe that pursuing research in diverse areas allows us to balance the risks inherent in drug development and may provide drug candidates that will form our pipeline in future years. To supplement our internal research programs, we collaborate with biopharmaceutical and technology companies, leading academic research institutions, government laboratories, foundations and other organizations as needed to advance research in our areas of therapeutic interest and to access technologies needed to execute on our strategy.

Drug Discovery and Development

Discovery and development of a new pharmaceutical product is a difficult and lengthy process that requires significant financial resources along with extensive technical and regulatory expertise. Potential drug candidates are subjected to rigorous evaluations, driven in part by stringent regulatory considerations, designed to generate information concerning efficacy, side effects, proper dosage levels and a variety of other physical and chemical characteristics that are important in determining whether a drug candidate should be approved for marketing as a pharmaceutical product. Most chemical compounds that are investigated as potential drug candidates never progress into development, and most drug candidates that do advance into development never receive marketing approval. Because our investments in drug candidates are subject to considerable risks, we closely monitor the results of our discovery, research, clinical trials and nonclinical studies and frequently evaluate our drug development programs in light of new data and scientific, business and commercial insights, with the objective of balancing risk and potential. This process can result in abrupt changes in focus and priorities as new information becomes available and as we gain additional understanding of our ongoing programs and potential new programs, as well as those of our competitors.

If we believe that data from a completed registration program support approval of a drug candidate, we submit an NDA to the FDA requesting approval to market the drug candidate in the United States and seek analogous approvals from comparable regulatory authorities in jurisdictions outside the United States. To obtain approval, we must, among other things, demonstrate with evidence gathered in nonclinical studies and well-controlled clinical trials that the drug candidate is safe and effective for the disease it is intended to treat and that the manufacturing facilities, processes and controls for the manufacture of the drug candidate are adequate. The FDA and ex-U.S. regulatory authorities have substantial discretion in deciding whether or not a drug candidate should be granted approval based on the benefits and risks of the drug candidate in the treatment of a particular disease, and could delay, limit or deny regulatory approval. If regulatory delays are significant or regulatory approval is limited or denied altogether, our financial results and the commercial prospects for the drug candidate involved will be harmed.

Regulatory Compliance

Our marketing of pharmaceutical products is subject to extensive and complex laws and regulations. We have a corporate compliance program designed to actively identify, prevent and mitigate risk through the implementation of compliance policies and systems and through the promotion of a culture of compliance. Among other laws, regulations and standards, we are subject to various U.S. federal and state laws, and comparable laws in other jurisdictions, pertaining to health care fraud and abuse, including anti-kickback and false claims laws, and laws prohibiting the promotion of drugs for unapproved or off-

label uses. Anti-kickback laws make it illegal for a prescription drug manufacturer to solicit, offer, receive or pay any remuneration to induce the referral of business, including the purchase or prescription of a particular drug that is reimbursed by a state or federal program. False claims laws prohibit anyone from knowingly or willfully presenting for payment to third-party payors, including Medicare and Medicaid, claims for reimbursed drugs or services that are false or fraudulent, claims for items or services not provided as claimed, or claims for medically unnecessary items or services. We are subject to laws and regulations that regulate the sales and marketing practices of pharmaceutical manufacturers, as well as laws such as the U.S. Foreign Corrupt Practices Act, which govern our international business practices with respect to payments to government officials. We expect to continue to devote substantial resources to maintain, administer and expand these compliance programs globally.

Reimbursement

Sales of our products depend, to a large degree, on the extent to which our products are reimbursed by third-party payors, such as government health programs, commercial insurance and managed health care organizations. We dedicate substantial management and other resources in order to obtain and maintain appropriate levels of reimbursement for our products from third-party payors, including governmental organizations in the United States and ex-U.S. markets.

In the United States, we have worked successfully with third party payors in order to promptly obtain appropriate levels of reimbursement for our CF medicines and as such, more than 95% of patients across the U.S. have access to our medicines. We continue to engage in discussions with numerous commercial insurers and managed health care organizations, along with government health programs that are typically managed by authorities in the individual states, to ensure that payors recognize the significant benefits that our medicines provide by treating the underlying cause of cystic fibrosis and continue to provide access to our current medicines.

In Europe and other ex-U.S. markets, we seek government reimbursement for our medicines on a country-by-country basis. This is necessary for each new medicine, as well as label expansions for our current medicines in most countries. We successfully obtained reimbursement for KALYDECO in each significant ex-U.S. market within two years of approval. We are experiencing significant challenges in obtaining reimbursement for ORKAMBI in certain ex-U.S. markets. Specifically, we have been discussing potential reimbursement for ORKAMBI in England and France, which represent significant potential markets for our CF medicines, since its approval in 2015. In other ex-U.S. markets, including Australia, Denmark, Germany, Ireland, Sweden and Italy, we have reached pricing and reimbursement agreements for ORKAMBI. In some of these countries we have innovative reimbursement arrangements that provide a pathway to access and rapid reimbursement for certain future CF medicines, including arrangements in Ireland, Denmark and Australia. SYMKEVI, which was approved in the European Union in the fourth quarter of 2018, is available in certain European countries, including Germany, Denmark and Ireland.

Collaboration Arrangements and Strategic Investments

In-License Agreements

We have entered into collaborations with biotechnology and pharmaceutical companies in order to acquire rights to or license drug candidates or technologies that enhance our pipeline and/or our research capabilities. Over the last several years, we entered into collaboration agreements with:

- CRISPR Therapeutics AG and its affiliates, or CRISPR, pursuant to which we are collaborating on the discovery and development of potential new treatments aimed at the underlying genetic causes of human diseases using CRISPR-Cas9 gene-editing technology;
- Arbor Biotechnologies, Inc., or Arbor, pursuant to which we are collaborating on the discovery of novel proteins, including DNA endonucleases, to advance the development of new gene-editing therapies; and
- Moderna Therapeutics, Inc., or Moderna, pursuant to which we are seeking to identify and develop messenger ribonucleic acid, or mRNA therapeutics for the treatment of CF.

Generally, when we in-license a technology or drug candidate, we make upfront payments to the collaborator, assume the costs of the program and agree to make contingent payments, which could consist of milestone, royalty and option payments. Depending on many factors, including the structure of the collaboration, the significance of the drug candidate that we license to the collaborator's operations and the other activities in which our collaborators are engaged, the accounting for these transactions can vary significantly.

For example, the upfront payments and expenses incurred in connection with our CRISPR and Moderna collaborations are being expensed as research expenses because the collaboration represents a small portion of each of these collaborator's overall business. CRISPR and Moderna's activities unrelated to our collaborations have no effect on our consolidated

financial statements. In contrast certain of our collaborators, including BioAxone Biosciences, Inc., or BioAxone, have historically been accounted for as variable interest entities, or VIEs, and historically have been included in our consolidated financial statements due to: (i) the significance of the respective licensed programs to our collaborator as a whole, (ii) our power to control the significant activities of the entities under each collaboration, and (iii) our obligation to absorb losses and right to receive benefits that potentially could have been significant. In 2018, we determined that the above conditions were no longer satisfied with respect to BioAxone. As a result, we deconsolidated BioAxone from our consolidated financial statements.

A collaborator that we account for as a VIE may engage in activities unrelated to our collaboration. The revenues and expenses unrelated to the programs we in-license from our VIEs have historically been immaterial to our consolidated financial statements. The activities unrelated to our collaboration were not material to our financial statements during the periods that we consolidated BioAxone. As a result of the deconsolidation, we do not expect to have similar items for 2019 based on our current collaborations. In periods in which we have consolidated VIEs, we have evaluated the fair value of the contingent payments payable by us on a quarterly basis. Changes in the fair value of these contingent future payments affected net income attributable to Vertex on a dollar-for-dollar basis, with increases in the fair value of contingent payments payable by us to a VIE resulting in a decrease in net income attributable to Vertex (or an increase in net loss attributable to Vertex) and decreases in the fair value of contingent payments payable by us to a VIE resulting in an increase in net income attributable to Vertex (or decrease in net loss attributable to Vertex). For additional information regarding our VIEs see Note C, "Collaborative Arrangements and Acquisitions," and our critical accounting policies in our 2018 Annual Report on Form 10-K.

Out-License Agreements

We also have out-licensed internally developed programs to collaborators who are leading the development of these programs. These out-license arrangements include our collaboration agreements with:

- Janssen Pharmaceuticals, Inc., or Janssen which is evaluating pimodivir in Phase 3 clinical trials for the treatment of influenza; and
- Merck KGaA, Darmstadt, Germany, which licensed oncology research and development programs from us in early 2017.

Pursuant to these out-licensing arrangements, our collaborators are responsible for the research, development and commercialization costs associated with these programs, and we are entitled to receive contingent milestone and/or royalty payments. As a result, we do not expect to incur significant expenses in connection with these programs and have the potential for future collaborative and royalty revenues resulting from these programs.

Strategic Investments

In connection with our business development activities, we have periodically made equity investments in our collaborators. As of March 31, 2019 and December 31, 2018, we held strategic equity investments in CRISPR and Moderna, both public companies, and certain private companies, and we may make additional strategic equity investments in the future. While we invest the majority of our cash, cash equivalents and marketable securities in instruments that meet specific credit quality standards and limit our exposure to any one issue or type of instrument, our strategic investments are maintained and managed separately from our other cash, cash equivalents and marketable securities. Any changes in the fair value of equity investments with readily determinable fair values (including publicly traded securities such as CRISPR and Moderna) are recorded to other income (expense), net in our condensed consolidated statement of operations. For equity investments without readily determinable fair values (including private equity investments), each reporting period we are required to re-evaluate the carrying value of the investment, which may result in other income (expense).

In the first quarter of 2019 and 2018 we recorded within other income (expense), unrealized gains of \$43.6 million and \$95.5 million, respectively, related to increases in the fair value of our strategic investments, which were included in our net income attributable to Vertex. To the extent that we continue to hold strategic investments, particularly strategic investments in publicly traded companies, we will record other income (expense) related to these strategic investments on a quarterly basis. Due to the high volatility of stocks in the biotechnology industry, we expect the value of these strategic investments to fluctuate and that the increases or decreases in the fair value of these strategic investments will continue to have material impacts on our net income (expense) and our profitability on a quarterly and/or annual basis.

RESULTS OF OPERATIONS

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Revenues	\$ 858,435	\$ 640,799	\$ 217,636	34%
Operating costs and expenses	581,627	511,898	69,729	14%
Other non-operating income, net	43,357	68,703	(25,346)	**
Provision for (benefit from) income taxes	51,534	(12,659)	**	**
Net income attributable to Vertex	\$ 268,631	\$ 210,263	\$ 58,368	28%
Net income per diluted share attributable to Vertex common shareholders	\$ 1.03	\$ 0.81		
Diluted shares used in per share calculations	260,175	258,526		

** Not meaningful

Net Income Attributable to Vertex

Net income attributable to Vertex was \$268.6 million in the first quarter of 2019 as compared to net income attributable to Vertex of \$210.3 million in the first quarter of 2018. Our total revenues increased in the first quarter of 2019 as compared to the first quarter of 2018 due to a \$219.5 million increase in net product revenues. The increase in operating costs and expenses in the first quarter of 2019 as compared to the first quarter of 2018 was primarily due to increased cost of sales, research and development expenses and sales, general and administrative expenses.

Other non-operating income, net, in the first quarter of 2019 and 2018 primarily related to total unrealized gains associated with increases in the fair value of our strategic investments.

In the first quarter of 2019, we began recording a provision for income taxes based primarily on our pre-tax income using an estimated effective tax rate that approximates statutory rates resulting in a provision for income taxes of \$51.5 million. Due to our ability to offset our pre-tax income against previously benefited net operating losses the majority of our tax provision in the first quarter of 2019 is a non-cash expense. In the first quarter of 2018, we did not record a similar provision for income taxes based on our pre-tax income because we did not release our tax valuation allowance until the fourth quarter of 2018.

Earnings Per Share

Diluted net income per share attributable to Vertex common shareholders was \$1.03 in the first quarter of 2019 as compared to diluted net income per share attributable to Vertex common shareholders of \$0.81 in the first quarter of 2018.

Revenues

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Product revenues, net	\$ 857,253	\$ 637,729	\$ 219,524	34 %
Collaborative and royalty revenues	1,182	3,070	(1,888)	(61)%
Total revenues	\$ 858,435	\$ 640,799	\$ 217,636	34 %

Product Revenues, Net

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
SYMDEKO/SYMKEVI	\$ 320,275	\$ 34,124	\$ 286,151	839 %
ORKAMBI	293,007	354,066	(61,059)	(17)%
KALYDECO	243,971	249,539	(5,568)	(2)%
Total product revenues, net	\$ 857,253	\$ 637,729	\$ 219,524	34 %

In the first quarter of 2019, our net product revenues increased by \$219.5 million as compared to the first quarter of 2018. The increase in net product revenues was due to the increasing number of patients being treated with SYMDEKO/SYMKEVI, partially offset by decreased ORKAMBI and KALYDECO net product revenues due primarily to the launch of SYMDEKO in

the United States. We believe that our net product revenues will increase for the remainder of 2019 due primarily to increases in SYMDEKO/SYMKEVI net product revenues. Our net product revenues also are dependent on, if, and when, we obtain additional reimbursement agreements for our medicines in ex-U.S. markets, particularly in the United Kingdom and France.

SYMDEKO/SYMKEVI

SYMDEKO/SYMKEVI net product revenues were \$320.3 million in the first quarter of 2019 compared to \$34.1 million in the first quarter of 2018. SYMDEKO was approved by the FDA in February 2018 and SYMKEVI was approved in the European Union in November 2018. In the first quarter of 2019, SYMKEVI net product revenues were \$31.6 million in ex-U.S. markets. We expect SYMDEKO/SYMKEVI net product revenues to continue to increase for the remainder of 2019.

ORKAMBI

The approval of SYMDEKO/SYMKEVI has had a negative effect on the net product revenues from ORKAMBI, as a portion of the patients who were being treated with ORKAMBI have switched to SYMDEKO/SYMKEVI. Due primarily to patients switching from ORKAMBI to SYMDEKO in the United States, ORKAMBI net product revenues decreased by 17% in the first quarter of 2019 as compared to the first quarter of 2018. In the first quarter of 2019, ORKAMBI net product revenues were \$293.0 million, including \$91.2 million of net product revenues from ex-U.S. markets, compared to ORKAMBI net product revenues of \$354.1 million in the first quarter of 2018, including \$71.8 million of net product revenues from ex-U.S. markets. Our condensed consolidated balance sheet includes \$382.7 million collected as of March 31, 2019 in France related to ORKAMBI supplied under early access programs at the invoiced price. We have recognized limited net product revenues to date on sales of ORKAMBI in France due to ongoing pricing discussions regarding the reimbursement rate for ORKAMBI. Please refer to Note B, "Revenue Recognition," for a discussion of our accounting treatment for our early access program for ORKAMBI in France.

KALYDECO

In the first quarter of 2019, KALYDECO net product revenues were \$244.0 million, including \$94.6 million of net product revenues from ex-U.S. markets, compared to KALYDECO net product revenues of \$249.5 million in the first quarter of 2018, including \$86.2 million of net product revenues from ex-U.S. markets. The decrease in the first quarter of 2019 as compared to the first quarter of 2018 was primarily due to a portion of the patients who were being treated with KALYDECO switching to SYMDEKO in the United States partially offset by additional patients being treated with KALYDECO as we completed reimbursement discussions in various ex-U.S. jurisdictions and increased the number of patients eligible to receive KALYDECO through label expansions.

Collaborative and Royalty Revenues

Our collaborative and royalty revenues were \$1.2 million in the first quarter of 2019 as compared to \$3.1 million in the first quarter of 2018. Our collaborative revenues have historically fluctuated significantly from one period to another and may continue to fluctuate in the future. Our future royalty revenues will be dependent on if, and when, our collaborators, including Janssen, Inc. and Merck KGaA, Darmstadt, Germany are able to successfully develop drug candidates that we have out-licensed to them.

Operating Costs and Expenses

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Cost of sales	\$ 95,092	\$ 71,613	\$ 23,479	33%
Research and development expenses	339,490	310,553	28,937	9%
Sales, general and administrative expenses	147,045	129,808	17,237	13%
Restructuring income	—	(76)	76	**
Total costs and expenses	\$ 581,627	\$ 511,898	\$ 69,729	14%

** Not Meaningful

Cost of Sales

Our cost of sales primarily consists of the cost of producing inventories that corresponded to product revenues for the reporting period, plus the third-party royalties payable on our net sales of our products. Pursuant to our agreement with the CFF, our tiered third-party royalties on sales of SYMDEKO/SYMKEVI, ORKAMBI and KALYDECO, calculated as a

percentage of net sales, range from the single digits to the sub-teens. As a result of the tiered royalty rate, which resets annually, our cost of sales as a percentage of net product revenues are lower at the beginning of each calendar year.

Over the last several years, our cost of sales has been increasing primarily due to increased net product revenues. Our cost of sales as a percentage of our net product revenues was approximately 11% in each of the first quarter of 2018 and 2019. For the remainder of 2019, we expect our total cost of sales will increase due to our tiered third-party royalties and that our costs of sales as a percentage of total net product revenues will be similar to our cost of sales as a percentage of total net product revenues in 2018.

Research and Development Expenses

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Research expenses	\$ 90,463	\$ 77,942	\$ 12,521	16%
Development expenses	249,027	232,611	16,416	7%
Total research and development expenses	\$ 339,490	\$ 310,553	\$ 28,937	9%

Our research and development expenses include internal and external costs incurred for research and development of our drugs and drug candidates and expenses related to certain technology that we acquire or license through business development transactions. We do not assign our internal costs, such as salary and benefits, stock-based compensation expense, laboratory supplies and other direct expenses and infrastructure costs, to individual drugs or drug candidates, because the employees within our research and development groups typically are deployed across multiple research and development programs. These internal costs are significantly greater than our external costs, such as the costs of services provided to us by clinical research organizations and other outsourced research, which we allocate by individual program. All research and development costs for our drugs and drug candidates are expensed as incurred.

Since January 2017, we have incurred approximately \$3.1 billion in research and development expenses associated with drug discovery and development. The successful development of our drug candidates is highly uncertain and subject to a number of risks. In addition, the duration of clinical trials may vary substantially according to the type, complexity and novelty of the drug candidate and the disease indication being targeted. The FDA and comparable agencies in foreign countries impose substantial requirements on the introduction of therapeutic pharmaceutical products, typically requiring lengthy and detailed laboratory and clinical testing procedures, sampling activities and other costly and time-consuming procedures. Data obtained from nonclinical and clinical activities at any step in the testing process may be adverse and lead to discontinuation or redirection of development activities. Data obtained from these activities also are susceptible to varying interpretations, which could delay, limit or prevent regulatory approval. The duration and cost of discovery, nonclinical studies and clinical trials may vary significantly over the life of a project and are difficult to predict. Therefore, accurate and meaningful estimates of the ultimate costs to bring our drug candidates to market are not available.

In 2018 and the first quarter of 2019, costs related to our CF programs represented the largest portion of our development costs. Any estimates regarding development and regulatory timelines for our drug candidates are highly subjective and subject to change. Until we have data from Phase 3 clinical trials, we cannot make a meaningful estimate regarding when, or if, a clinical development program will generate revenues and cash flows. In the fourth quarter of 2018 and first quarter of 2019, we obtained positive results from Phase 3 clinical trials evaluating triple combinations of VX-659, tezacaftor and ivacaftor and VX-445, tezacaftor and ivacaftor. We plan to submit an NDA to the U.S. FDA in the third quarter of 2019 and a MAA in Europe in the fourth quarter of 2019 for either a VX-659 triple combination regimen or a VX-445 triple combination regimen.

Research Expenses

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Research Expenses:				
Salary and benefits	\$ 24,379	\$ 24,088	\$ 291	1%
Stock-based compensation expense	17,535	14,760	2,775	19%
Outsourced services and other direct expenses	23,364	18,813	4,551	24%
Collaboration and asset acquisition payments	—	308	(308)	**
Infrastructure costs	25,185	19,973	5,212	26%
Total research expenses	\$ 90,463	\$ 77,942	\$ 12,521	16%

** Not meaningful

We maintain a substantial investment in research activities. Our research expenses increased by 16% in the first quarter of 2019 as compared to the first quarter of 2018 as a result of expenses related to additional headcount in our research organization and increased infrastructure costs. In the first quarter of 2019 and 2018, “Collaboration and asset acquisition payments” were not significant; however, our research expenses have been affected, and are expected to continue to be affected, by research expenses associated with our business development activities. We expect to continue to invest in our research programs with a focus on identifying drug candidates with the goal of creating transformative medicines for serious diseases.

Development Expenses

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Development Expenses:				
Salary and benefits	\$ 60,507	\$ 57,002	\$ 3,505	6%
Stock-based compensation expense	42,180	33,728	8,452	25%
Outsourced services and other direct expenses	89,874	99,192	(9,318)	(9)%
Collaboration and asset acquisition payments	5,250	250	5,000	**
Drug supply costs	7,894	8,421	(527)	(6)%
Infrastructure costs	43,322	34,018	9,304	27%
Total development expenses	\$ 249,027	\$ 232,611	\$ 16,416	7%

** Not meaningful

Our development expenses increased by 7% in the first quarter of 2019 as compared to the first quarter of 2018, primarily due to increased headcount to support our advancing pipeline and increased infrastructure costs partially offset by decreases in expenses related to our CF programs.

Sales, General and Administrative Expenses

	Three Months Ended March 31,		Increase/(Decrease)	
	2019	2018	\$	%
	(in thousands)			
Sales, general and administrative expenses	\$ 147,045	\$ 129,808	\$ 17,237	13%

Sales, general and administrative expenses increased by 13% in the first quarter of 2019 as compared to the first quarter of 2018, primarily due to increased global support for our medicines and incremental investment to support the potential launch of our triple combination regimen.

Other Non-Operating Income, Net

Interest Income

Interest income was \$15.6 million in the first quarter of 2019 compared to \$5.8 million in the first quarter of 2018. The increase in interest income in the first quarter of 2019 as compared to the first quarter of 2018 was primarily due to an increase in our cash equivalents and marketable securities and prevailing market interest rates. Our future interest income will be

dependent on the amount of, and prevailing market interest rates on, our outstanding cash equivalents and marketable securities.

Interest Expense

Interest expense was \$14.9 million in the first quarter of 2019 compared to \$16.9 million in the first quarter of 2018. The majority of our interest expense in these periods was related to imputed interest expense associated with our leased corporate headquarters in Boston and our research site in San Diego. On January 1, 2019, we adopted ASC 842, *Leases*, which resulted in a reduction in our imputed interest expense associated with these leases in the first quarter of 2019 as compared to the first quarter of 2018. We expect similar reductions in our imputed interest expense associated with these leases in the initial years subsequent to the adoption of this accounting guidance as compared to the amounts that were recorded in accordance with the previously applicable guidance. In addition to the updated accounting guidance, our future interest expense will also be dependent on whether, and to what extent, we reborrow amounts under our credit facility.

Other Income, Net

Other income, net was income of \$42.6 million in the first quarter of 2019 compared to income of \$96.8 million in the first quarter of 2018. Our other income in these periods is primarily related to increases in fair value of our strategic investments. The value of these strategic investments has fluctuated significantly in the past, including decreasing significantly in the second half of 2018. In future periods, we expect our other income (expense), net to fluctuate based on increases or decreases in the fair value of our strategic investments.

Noncontrolling Interest

The net income attributable to noncontrolling interest recorded on our condensed consolidated statements of operations reflects our VIE's net (income) loss for the reporting period adjusted for any changes in the noncontrolling interest holders' claim to net assets, including contingent milestone, royalty and option payments.

As of December 31, 2018, we deconsolidated BioAxone and had no noncontrolling interest in the first quarter of 2019 as a result. In the first quarter of 2018, we recorded net income attributable to noncontrolling interest of \$17.0 million, which was primarily related to a \$24.0 million increase in the fair value of the contingent payments payable by us to BioAxone partially offset by an associated benefit from income taxes. The increase in the fair value of contingent payments was primarily due to the expiration of an option held by us to purchase BioAxone that resulted in our election to continue our license for VX-210, which increased the probability that additional milestone and royalty payments related to the license for VX-210 would be paid.

Income Taxes

In the first quarter of 2019, we recorded a provision for income taxes of \$51.5 million as compared to a benefit from income taxes of \$12.7 million in the first quarter of 2018. Our effective tax rate for the first quarter of 2019 is lower than the U.S. statutory rate primarily due to excess tax benefits related to stock-based compensation and utilization of net operating losses to offset pre-tax operating income. The change in our provision for income taxes in the first quarter of 2019 compared to the first quarter of 2018 was primarily due to the release of our valuation allowance on the majority of our net operating losses and other deferred tax assets in the fourth quarter of 2018. Starting in first quarter of 2019, we began recording a provision for income taxes on our pre-tax income using an estimated effective tax rate that approximates statutory rates. Due to our ability to offset our pre-tax income against previously benefited net operating losses we expect the majority of our tax provision to represent a non-cash expense until our net operating losses have been fully utilized.

The benefit from income taxes in the first quarter of 2018 primarily related to a benefit from income taxes of \$21.9 million for excess tax benefits associated with stock-based compensation offset by provisions for income taxes of \$6.4 million attributable to noncontrolling interest and our U.S. state and foreign taxes.

LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes the components of our financial condition as of March 31, 2019 and December 31, 2018:

	March 31,	December 31,	Increase/(Decrease)	
	2019	2018	\$	%
(in thousands)				
Cash, cash equivalents and marketable securities	\$ 3,478,035	\$ 3,168,242	\$ 309,793	10 %
Working Capital				
Total current assets	4,183,039	3,843,109	339,930	9 %
Total current liabilities	(1,106,468)	(1,120,292)	(13,824)	(1)%
Total working capital	\$ 3,076,571	\$ 2,722,817	\$ 353,754	13 %

As of March 31, 2019, total working capital was \$3.1 billion, which represented an increase of \$354 million from \$2.7 billion as of December 31, 2018. The most significant items that increased total working capital in the first quarter of 2019 were \$324.8 million of cash provided by operations, a \$43.6 million increase in the fair value of our strategic investments and \$63.6 million of cash received from issuances of common stock under our employee benefit plans partially offset by \$99.8 million of cash used to repurchase shares of our common stock and expenditures for property and equipment of \$18.0 million as well as other expenditures.

Sources of Liquidity

As of March 31, 2019, we had cash, cash equivalents and marketable securities of \$3.5 billion, which represented an increase of \$310 million from \$3.2 billion as of December 31, 2018. We intend to rely on our existing cash, cash equivalents and marketable securities together with cash flows from product sales as our primary source of liquidity. We are receiving cash flows from sales of SYMDEKO/SYMKEVI, ORKAMBI and KALYDECO. Future cash flows will be dependent on, among other things, the timing of and our ability to complete reimbursement discussions in European countries and, if and when, we obtain approval for a triple combination regimen.

We may borrow up to \$500.0 million pursuant to a revolving credit facility that we entered into in 2016. We may repay and reborrow amounts under the revolving credit agreement without penalty. Subject to certain conditions, we may request that the borrowing capacity under this credit agreement be increased by an additional \$300.0 million.

In the first quarter of 2019, we received significant proceeds from the issuance of common stock under our employee benefit plans, but the amount and timing of future proceeds from employee benefits plans is uncertain. Since the beginning of 2018, the value of our strategic investment in CRISPR has fluctuated significantly on a quarterly basis. The future value of our strategic investments, including our investments in CRISPR and Moderna, is uncertain. Other possible sources of future liquidity include strategic collaborative agreements that include research and/or development funding, commercial debt, public and private offerings of our equity and debt securities, development milestones and royalties on sales of products, software and equipment leases, strategic sales of assets or businesses and financial transactions. Negative covenants in our credit agreement may prohibit or limit our ability to access these sources of liquidity.

Future Capital Requirements

We have significant future capital requirements, including:

- significant expected operating expenses to conduct research and development activities and to operate our organization; and
- substantial facility and capital lease obligations, including leases for two buildings in Boston, Massachusetts that continue through 2028 and a lease in San Diego, California that continues through 2034.

In addition,

- As of March 31, 2019, we have accrued approximately \$382.7 million from ORKAMBI early access programs in France. We expect we will be required to repay a portion of the collected amounts to the French government based

on the difference between the invoiced price of ORKAMBI and the final price for ORKAMBI in France once we conclude our ongoing pricing discussions with the French government.

- We have entered into certain collaboration agreements with third parties that include the funding of certain research, development and commercialization efforts with the potential for future milestone and royalty payments by us upon the achievement of pre-established developmental and regulatory targets and/or commercial targets, and we may enter into additional business development transactions, including acquisitions, collaborations and equity investments, that require additional capital. For example, in 2018, we made \$100.4 million of upfront and milestone payments related to collaborations and asset acquisitions.
- To the extent we borrow amounts under the credit agreement we entered into in October 2016, we would be required to repay any outstanding principal amounts in 2021.

In January 2018, we announced a share repurchase program to repurchase up to \$500.0 million of shares of our common stock through December 31, 2019. As of March 31, 2019, \$52.0 million remained available to fund repurchases under the share repurchase program.

We expect that cash flows from our products together with our current cash, cash equivalents and marketable securities will be sufficient to fund our operations for at least the next twelve months. The adequacy of our available funds to meet our future operating and capital requirements will depend on many factors, including the amounts of future revenues generated by products, and the potential introduction of one or more of our other drug candidates to the market, including a triple combination regimen for patients with CF, the level of our business development activities and the number, breadth, cost and prospects of our research and development programs.

Financing Strategy

We may raise additional capital by borrowing under credit agreements, through public offerings or private placements of our securities or securing new collaborative agreements or other methods of financing. We will continue to manage our capital structure and will consider all financing opportunities, whenever they may occur, that could strengthen our long-term liquidity profile. There can be no assurance that any such financing opportunities will be available on acceptable terms, if at all.

CONTRACTUAL COMMITMENTS AND OBLIGATIONS

Our commitments and obligations were reported in our Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the Securities and Exchange Commission, or SEC, on February 13, 2019. There have been no material changes from the contractual commitments and obligations previously disclosed in that Annual Report on Form 10-K.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations is based upon our condensed consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires us to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reported periods. These items are monitored and analyzed by management for changes in facts and circumstances, and material changes in these estimates could occur in the future. Changes in estimates are reflected in reported results for the period in which the change occurs. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from our estimates if past experience or other assumptions do not turn out to be substantially accurate. During the three months ended March 31, 2019, there were no material changes to our critical accounting policies as reported in our Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 13, 2019.

RECENT ACCOUNTING PRONOUNCEMENTS

For a discussion of recent accounting pronouncements, please refer to Note A, “Basis of Presentation and Accounting Policies.”

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As part of our investment portfolio, we own financial instruments that are sensitive to market risks. The investment portfolio is used to preserve our capital until it is required to fund operations, including our research and development activities. None of these market risk-sensitive instruments are held for trading purposes. We do not have derivative financial instruments in our investment portfolio.

Interest Rate Risk

We invest our cash in a variety of financial instruments, principally securities issued by the U.S. government and its agencies, investment-grade corporate bonds and commercial paper, and money market funds. These investments are denominated in U.S. Dollars. All of our interest-bearing securities are subject to interest rate risk and could decline in value if interest rates fluctuate. Substantially all of our investment portfolio consists of marketable securities with active secondary or resale markets to help ensure portfolio liquidity, and we have implemented guidelines limiting the term-to-maturity of our investment instruments. Due to the conservative nature of these instruments, we do not believe that we have a material

exposure to interest rate risk. If interest rates were to increase or decrease by 1%, the fair value of our investment portfolio would increase or decrease by an immaterial amount.

In 2016, we entered into a credit agreement. Loans under the credit agreement bear interest, at our option, at either a base rate or a Eurodollar rate, in each case plus an applicable margin. The applicable margin on base rate loans ranges from 0.75% to 1.50% and the applicable margin on Eurodollar loans ranges from 1.75% to 2.50%, in each case, based on our consolidated leverage ratio (as defined in the credit agreement). We do not believe that changes in interest rates related to the credit agreement would have a material effect on our financial statements. As of March 31, 2019, we had no principal or interest outstanding. A portion of our "Interest expense" in 2019 will be dependent on whether, and to what extent, we reborrow amounts under the existing facility.

Foreign Exchange Market Risk

As a result of our foreign operations, we face exposure to movements in foreign currency exchange rates, primarily the Euro and British Pound against the U.S. Dollar. The current exposures arise primarily from cash, accounts receivable, intercompany receivables and payables, payables and accruals and inventories. Both positive and negative effects to our net revenues from international product sales from movements in exchange rates are partially mitigated by the natural, opposite effect that exchange rates have on our international operating costs and expenses.

We have a foreign currency management program with the objective of reducing the effect of exchange rate fluctuations on our operating results and forecasted revenues and expenses denominated in foreign currencies. We currently have cash flow hedges for the Euro, British Pound, Canadian Dollar and Australian Dollar related to a portion of our forecasted product revenues that qualify for hedge accounting treatment under U.S. GAAP. We do not seek hedge accounting treatment for our foreign currency forward contracts related to monetary assets and liabilities that impact our operating results. As of March 31, 2019, we held foreign exchange forward contracts that were designated as cash flow hedges with notional amounts totaling \$560.9 million and had a net fair value of \$19.8 million recorded on our condensed consolidated balance sheet.

Although not predictive in nature, we believe a hypothetical 10% threshold reflects a reasonably possible near-term change in exchange rates. Assuming that the March 31, 2019 exchange rates were to change by a hypothetical 10%, the fair value recorded on our condensed consolidated balance sheet related to our foreign exchange forward contracts that were designated as cash flow hedges as of March 31, 2019 would change by approximately \$56.1 million. However, since these contracts hedge a specific portion of our forecasted product revenues denominated in certain foreign currencies, any change in the fair value of these contracts is recorded in "Accumulated other comprehensive income" on our condensed consolidated balance sheet and is reclassified to earnings in the same periods during which the underlying product revenues affect earnings. Therefore, any change in the fair value of these contracts that would result from a hypothetical 10% change in exchange rates would be entirely offset by the change in value associated with the underlying hedged product revenues resulting in no impact on our future anticipated earnings and cash flows with respect to the hedged portion of our forecasted product revenues.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q, have concluded that, based on such evaluation, as of March 31, 2019 our disclosure controls and procedures were effective and designed to provide reasonable assurance that the information required to be disclosed is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. In designing and evaluating our disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Changes in Internal Controls Over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) occurred during the three months ended March 31, 2019 that has materially

affected, or is reasonably likely to materially affect, our internal control over financial reporting. We implemented and modified certain internal controls in connection with the new lease accounting standard, ASC 842, *Leases*, which we adopted effective January 1, 2019. There were no significant changes to our internal control over financial reporting due to the adoption of this standard.

PART II. Other Information

Item 1. Legal Proceedings

We are not currently subject to any material legal proceedings.

Item 1A. Risk Factors

Information regarding risk factors appears in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 13, 2019. There have been no material changes from the risk factors previously disclosed in the Annual Report on Form 10-K.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and, in particular, our Management's Discussion and Analysis of Financial Condition and Results of Operations set forth in Part I-Item 2, contain or incorporate a number of forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding:

- our expectations regarding the amount of, timing of and trends with respect to our revenues, costs and expenses and other gains and losses, including those related to net product revenues;
- our expectations regarding clinical trials, development timelines and regulatory authority filings and submissions for ivacaftor, lumacaftor, tezacaftor, VX-659, VX-445, VX-150 and the timelines for regulatory filings for a triple combination regimen;
- our ability to obtain reimbursement for our medicines in ex-U.S. markets and our ability to otherwise successfully market our medicines or any of our other drug candidates for which we obtain regulatory approval;
- our expectations regarding the timing and structure of clinical trials of our drugs and drug candidates and the expected timing of our receipt of data from our ongoing and planned clinical trials;
- the data that will be generated by ongoing and planned clinical trials and the ability to use that data to advance compounds, continue development or support regulatory filings;
- our beliefs regarding the support provided by clinical trials and preclinical and nonclinical studies of our drug candidates for further investigation, clinical trials or potential use as a treatment;
- our plan to continue investing in our research and development programs and our strategy to develop our drug candidates, alone or with third party-collaborators;
- the establishment, development and maintenance of collaborative relationships;
- potential business development activities;
- potential fluctuations in foreign currency exchange rates;
- our ability to use our research programs to identify and develop new drug candidates to address serious diseases and significant unmet medical needs; and
- our liquidity and our expectations regarding the possibility of raising additional capital.

Any or all of our forward-looking statements in this Quarterly Report on Form 10-Q may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many factors mentioned in this Quarterly Report on Form 10-Q will be important in determining future results. Consequently, no forward-looking statement

can be guaranteed. Actual future results may vary materially from expected results. We also provide a cautionary discussion of risks and uncertainties under “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 13, 2019. These are factors and uncertainties that we think could cause our actual results to differ materially from expected results. Other factors and uncertainties besides those listed there could also adversely affect us.

Without limiting the foregoing, the words “believes,” “anticipates,” “plans,” “intends,” “expects” and similar expressions are intended to identify forward-looking statements. There are a number of factors and uncertainties that could cause actual events or results to differ materially from those indicated by such forward-looking statements, many of which are beyond our control. In addition, the forward-looking statements contained herein represent our estimate only as of the date of this filing and should not be relied upon as representing our estimate as of any subsequent date. While we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Repurchases of Equity Securities

We have a share repurchase program, announced in January 2018, under which we are authorized to repurchase up to \$500.0 million of our common stock by December 31, 2019. As of December 31, 2018, we had repurchased \$350.0 million of common stock under this program and had remaining available \$150.0 million to repurchase additional shares under this program. The table set forth below shows repurchases of securities by us during the three months ended March 31, 2019; including shares repurchased under our share repurchase program and a small number of restricted shares repurchased by us from employees pursuant to our equity programs. As of March 31, 2019, we had repurchased \$448.0 million of common stock under the share repurchase program and had remaining available \$52.0 million to repurchase additional shares pursuant to this program.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs (2)
January 1, 2019 to January 31, 2019	70,691	\$169.74	69,778	\$138,000,783
February 1, 2019 to February 28, 2019	183,914	\$184.86	183,366	\$104,002,661
March 1, 2019 to March 31, 2019	285,909	\$181.87	283,874	\$52,004,541
Total	540,514	\$181.30	537,018	\$52,004,541

(1) Consists of 537,018 shares repurchased pursuant to our share repurchase program (described in footnote 2 below) at an average price per share of \$182.48 and 3,496 restricted shares repurchased for \$0.01 per share from our employees pursuant to our equity plans. While we have restricted shares that are continuing to vest under our equity plans that are subject to repurchase rights upon termination of service, we have transitioned our equity program to granting restricted stock units. Unvested restricted stock units are forfeited upon termination of service and do not result in an issuer repurchase that would be reflected in this table.

(2) Under our share repurchase program, we are authorized to purchase shares from time to time through open market or privately negotiated transactions and such purchases may be made pursuant to Rule 10b5-1 plans or other means as determined by our management and in accordance with the requirements of the Securities and Exchange Commission. The approximate dollar value of shares that may yet be repurchased is based solely on shares that may be repurchased under the share repurchase program and excludes any shares that may be repurchased under our employee equity programs.

Item 6. Exhibits

Exhibit Number	Exhibit Description
10.1	Employment Agreement, dated March 28, 2019, by and between Vertex Pharmaceuticals Incorporated and Charles F. Wagner, Jr.*
10.2	Change of Control Agreement, dated as of March 28, 2019, by and between Vertex Pharmaceuticals Incorporated and Charles F. Wagner, Jr.*
31.1	Certification of the Chief Executive Officer under Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of the Chief Financial Officer under Section 302 of the Sarbanes-Oxley Act of 2002.

/s/ Charles Wagner

Charles Wagner

*Executive Vice President, Chief Financial Officer
(principal financial officer and
duly authorized officer)*

EMPLOYMENT AGREEMENT

This Employment Agreement (this "Agreement") is made and entered into as of this 28th day of March, 2019, by and between Vertex Pharmaceuticals Incorporated, a Massachusetts corporation (together with its successors and assigns, the "Company"), and Charles F. Wagner, Jr. (the "Executive").

W I T N E S S E T H

WHEREAS, the Company is employing the Executive as the Company's Executive Vice President, Chief Financial Officer; and

WHEREAS, the Executive has been designated as an Executive Officer of the Company;

NOW, THEREFORE, in consideration of the promises and mutual covenants contained herein and for other good and valuable consideration, the receipt of which mutually is acknowledged, the Company and the Executive (each individually a "Party", and together the "Parties") agree as follows:

1. DEFINITIONS.

"Base Salary" shall mean the Executive's base salary in accordance with Section 4 below.

"Board" shall mean the Board of Directors of the Company.

"Cause" shall mean (i) the Executive is convicted of a crime involving moral turpitude, (ii) the Executive commits a material breach of any provision of this Agreement not involving the performance or nonperformance of duties, or (iii) the Executive, in carrying out the Executive's duties, acts or fails to act in a manner that is determined, in the sole discretion of the Board, after written notice of any such act or failure to act and a reasonable opportunity to cure the deficiency has been provided to the Executive, to be (A) willful gross neglect or (B) willful gross misconduct resulting, in either case, in material harm to the Company unless such act, or failure to act, was believed by the Executive, in good faith, to be in the best interests of the Company.

"Change of Control" shall have the meaning set forth in the Change of Control Agreement.

"Change of Control Agreement" shall mean the Change of Control letter agreement between the Company and the Executive of even date herewith.

"Code" shall mean the Internal Revenue Code of 1986, as amended.

"Common Stock" shall mean the common stock of the Company.

"Disability" or "Disabled" shall mean a disability as determined under the Company's long-term disability plan or program in effect at the time the disability first occurs, or if no such plan or program exists at the time of disability, then a "disability" as defined under Section 22(e)(3) of the Code.

"Effective Date" shall mean April 10, 2019.

"Good Reason" shall mean that, without the Executive's consent, one or more of the following events occurs:

- (i) the Executive's duties are materially diminished to an extent that results in the Executive no longer being an "officer," as such term is defined in Rule 16a-1(f) promulgated under the Securities Exchange Act of 1934; or
-

- (ii) the Executive's Base Salary is decreased unless such reduction is part of an across-the-board proportionate reduction in the salaries of the Company's senior management team; or
- (iii) the office to which the Executive is assigned is relocated to a place 35 or more miles away and such relocation is not at the Executive's request or with the Executive's prior agreement (and other than, for Executives assigned to the Company's principal executive offices, in connection with a change in location of the Company's principal executive offices);

provided that Good Reason shall not exist unless and until within 30 days after the event giving rise to Good Reason under either (i) or (ii) above has occurred, the Executive delivers a written termination notice to the Company stating that an event giving rise to Good Reason has occurred and identifying with reasonable detail the event that the Executive asserts constitutes Good Reason under either (i) or (ii) above and the Company fails or refuses to cure or eliminate the event giving rise to Good Reason on or within 30 days after receiving such notice and, with respect to the event giving rise to Good Reason under (iii) above, the Executive delivers a written termination notice to the Company within 30 days after the event giving rise to Good Reason occurs. To avoid doubt, the termination of the Executive's employment would become effective at the close of business on the thirtieth day after the Company receives the Executive's termination notice, unless, in the case of an event giving rise to Good Reason under either (i) or (ii) above, the Company cures or eliminates the event giving rise to Good Reason prior to such time.

"Severance Payment" shall mean an amount equal to the sum of the Base Salary in effect on the date of termination of Executive's employment, plus the full amount of the Target Bonus for the Executive for the year in which the Executive's employment is terminated; provided, however, that if the Executive terminates the Executive's employment for Good Reason based on a reduction in Base Salary, then the Base Salary to be used in calculating the Severance Payment shall be the Base Salary in effect immediately prior to such reduction in Base Salary.

"Target Bonus" shall mean the target cash bonus for which the Executive is eligible on an annual basis, at a level consistent with the Executive's title and responsibilities, under the Company's bonus program then in effect and applicable to the Company's senior executives generally.

2. TERM OF EMPLOYMENT.

The Company hereby employs the Executive, and the Executive hereby accepts such employment as of the Effective Date, continuing until termination in accordance with the terms of this Agreement. The period during which the Executive is employed hereunder is referred to in this Agreement as the "term of employment."

3. POSITION.

On the Effective Date, the Executive is employed as the Company's Executive Vice President, Chief Financial Officer, reporting to the Company's Chief Executive Officer.

4. BASE SALARY.

The Executive's annualized Base Salary as of the date of this Agreement is \$700,000, payable in accordance with the regular payroll practices of the Company. The Base Salary shall be reviewed no less frequently than annually, and any changes thereto (which shall thereafter be deemed the Executive's Base Salary) shall be solely within the discretion of the Board.

5. TARGET BONUS PROGRAM.

During the term of employment, the Executive shall be eligible to participate in the Company's annual cash incentive compensation program applicable to the Company's senior executives, as any such

programs are established and modified from time to time by the Board in its sole discretion, and in accordance with the terms of such program, with a Target Bonus as determined by the Board. The Executive's Target Bonus for 2019 is 50% of Base Salary, which amount shall not be pro-rated for 2019

6. INCENTIVE COMPENSATION PROGRAMS/SIGN-ON AWARDS.

(a) **Incentive Equity Programs.** During the term of employment, the Executive shall be eligible to participate in the Company's equity incentive compensation programs applicable to the Company's senior executives, as such programs may be established and modified from time to time by the Board in its sole discretion. Nothing in this Agreement shall preclude the Company from amending or terminating any of its equity incentive compensation plans, programs or arrangements.

(b) **Sign-On Cash Bonus:** The Executive shall receive a sign-on cash bonus in the amount of \$140,000 payable (with appropriate deductions as required by law) to the Executive at the first regular pay date applicable to the Executive after the Effective Date. If the Executive terminates this Agreement without Good Reason, and other than as a result of death or Disability, during the period commencing on the Effective Date and ending on the first anniversary of the Effective Date, the Executive shall repay the sign-on cash bonus to the Company within 60 days of such termination.

(c) **Sign-On Restricted Stock Unit Grant and Stock Option Grant:** The Executive will receive, pursuant to the Company's 2013 Stock and Option Plan, in accordance with the terms of award agreements executed and delivered to the Executive by the Company on the Effective Date (the "Grant Date"), restricted stock unit grants with an aggregate fair market value (based on the average of high and low stock price of shares of Common Stock on the Grant Date) of \$1,400,000 and a stock option grant with a fair market value on the Grant Date of \$600,000 (with an exercise price equal to the average of the high and the low stock price on the Grant Date). The restricted stock unit grants shall consist of three awards (i) a time vesting restricted stock award with a fair market value (as determined above) of \$700,000 vesting in three equal annual installments on April 30, 2020, 2021 and 2022, subject to the Executive's continued employment from the Grant Date through each applicable vesting date; (ii) a performance vesting restricted stock unit award with a fair market value of \$350,000 subject to the financial performance conditions contained in the February 2019 grants to the Company's other executive officers, which will vest in equal annual installments, subject to the achievement of the applicable performance conditions and the Executive's continued employment from the Grant Date through each applicable vesting date, on February 24, 2020, 2021 and 2022; and (iii) a performance vesting restricted stock unit award with a fair market value of \$350,000 subject to the non-financial performance conditions contained in the February 2019 grants to the Company's other executive officers, which will vest, subject to the achieve of the applicable performance conditions and the Executive's continued employment from the Grant Date through the February 24, 2022 vesting date.

7. EMPLOYEE BENEFIT PROGRAMS.

During the term of employment, the Executive shall be entitled to participate in all employee welfare and pension benefit plans, programs and/or arrangements offered by the Company to its senior executives, as such plans, programs and arrangements may be amended from time to time, to the same extent and on the same terms applicable to other senior executives. Nothing in this Agreement shall preclude the Company from amending or terminating any of its employee benefit plans, programs or arrangements.

8. VACATION.

During the term of employment, the Executive shall be entitled to at least 20 paid vacation days each calendar year in accordance with the Company's vacation policy then in effect.

9. TERMINATION OF EMPLOYMENT.

(a) **Termination in Connection with a Change of Control.** To the extent the Executive is entitled, in connection with the Executive's termination of employment, to severance or other benefits under the Change of Control Agreement, the Executive shall not be entitled to corresponding benefits under this Section 9.

(b) **Termination by the Company for Cause; or Termination by the Executive without Good Reason.** If the Company terminates the Executive's employment for Cause, or if the Executive voluntarily terminates the Executive's employment, other than for Good Reason, death or Disability, the term of employment shall end as of the date specified below, and the Executive shall be entitled to the following:

- (i) Base Salary earned by Executive but not paid through the date of termination of Executive's employment under this Section 9(b); and
- (ii) any amounts earned to the Executive but not yet paid under Sections 5 or 7 above.

Termination by Company for Cause shall be effective as of the date specified in the notice of termination provided by the Company to the Executive. Voluntary termination by Executive other than for Good Reason, death or Disability shall be effective upon 90 days' prior written notice to the Company and shall not be deemed a breach of this Agreement.

(c) **Termination by the Company Without Cause; or Termination by the Executive for Good Reason.** If the Executive's employment is terminated by the Company without Cause (other than due to death or Disability), or is terminated by the Executive for Good Reason (in accordance with the notice and cure provisions set forth in the definition of "Good Reason" above), the Executive shall be entitled to the following (provided that, with respect to (iii) and (v) such amounts shall be subject to and in exchange for a general release of all claims against the Company, its subsidiaries, and their officers, directors, agents and representatives, which is executed by Executive and becomes enforceable and non-revocable within 60 days of the date of termination as well as other customary terms including, without limitation, non-competition, non-solicitation and non-recruitment covenants substantially similar to those contained in the Employee Non-Disclosure, Non-Competition, and Intellectual Property Assignment Agreement):

- (i) Base Salary earned by Executive but not paid through the date of termination of Executive's employment under this Section 9(c);
 - (ii) all cash incentive compensation awards earned by Executive but not paid prior to the date of termination of Executive's employment under this Section 9(c);
 - (iii) a lump sum cash payment to the Executive in an amount equal to the Severance Payment, payable within ten days after the execution of a general release and expiration, without revocation, of any applicable revocation periods under the general release provided that if the 60-day period during which the release is required to become effective and irrevocable begins in one calendar year and ends in another calendar year, the Severance Payment shall not be made before the first day of the second calendar year;
 - (iv) any amounts earned but not yet paid under Sections 5 or 7 above;
 - (v) if COBRA coverage is elected by the Executive, the Company shall pay the cost of insurance continuation premiums on the Executive's behalf (whether or not covered by COBRA) to continue standard medical, dental and life insurance coverage for the Executive
-

(or the cash equivalent of same in the event the Executive is ineligible for continued coverage), on a monthly basis, until the earlier of:

- (A) the date 12 months after the date the Executive's employment is terminated; or
- (B) the date, or dates, on which the Executive receives equivalent coverage and benefits under the plans, programs and/or arrangements of a subsequent employer (such coverage and benefits to be determined on a coverage-by-coverage or benefit-by-benefit basis).

Notwithstanding anything to the contrary in this Agreement, if at the time of Executive's termination of employment, Executive is a "specified employee" (as defined below), any payment of "nonqualified deferred compensation" (as defined under Section 409A of the Code, as amended, including the regulations thereunder ("Section 409A")) attributable to a "separation from service" (as defined below) shall not commence until the first full business day that is six months and one day after the applicable separation from service (or, if earlier, the Executive's Death) ("Deferred Payment Date"); except (A) to the extent of amounts that do not constitute a deferral of compensation within the meaning of Treasury regulation Section 1.409A-1(b) (including without limitation by reason of the safe harbor set forth in Section 1.409A-1(b)(9)(iii), as determined by the Company in its reasonable discretion); (B) benefits that qualify as excepted welfare benefits pursuant to Treasury regulation Section 1.409A-1(a)(5); or (C) other amounts or benefits that are not subject to the requirements of Section 409A. Any payments that would otherwise have been made between the separation from service and the Deferred Payment Date, but for this paragraph, shall be made in a lump sum on the Deferred Payment Date. For purposes of this Agreement, all references to "termination of employment" and correlative phrases shall be construed to require a "separation from service" (as defined in Section 1.409A-1(h) of the Treasury regulations after giving effect to the presumptions contained therein), and the term "specified employee" means an individual determined by the Company to be a specified employee under Treasury regulation Section 1.409A-1(i).

10. ASSIGNABILITY; BINDING NATURE.

This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors, heirs (in the case of the Executive) and assigns. No rights or obligations of the Company under this Agreement may be assigned or transferred by the Company except that such rights or obligations may be assigned or transferred pursuant to a merger or consolidation in which the Company is not the continuing entity, or the sale or liquidation of all or substantially all of the assets of the Company; provided, however, that the assignee or transferee is the successor to all or substantially all of the assets of the Company and such assignee or transferee assumes the liabilities, obligations and duties of the Company, as contained in this Agreement, either contractually or as a matter of law.

11. REPRESENTATIONS.

The Company represents and warrants that it is fully authorized and empowered to enter into this Agreement, and that the performance of its obligations under this Agreement will not violate any agreement between it and any other person, firm or organization. The Executive represents and warrants that no agreement exists between him and any other person, firm or organization that would be violated by the performance of the Executive's obligations under this Agreement.

12. INDEMNIFICATION; INSURANCE.

The Executive shall at all times be indemnified and eligible for advancement of expenses on the same basis as is provided for the Company's other executive officers and in accordance with the

provisions of the Company's charter and by-laws then in effect. The Executive shall also be covered under all of the Company's policies of liability insurance maintained for the benefit of its directors and officers on the same basis as is provided for its other executive officers.

13. ENTIRE AGREEMENT; TERMINATION.

This Agreement, the agreements referenced herein and the Employee Non-Disclosure, Non-Competition & Inventions Agreement between the Executive and the Company contain the entire understanding and agreement between the Parties concerning the subject matter hereof and supersedes all prior agreements, understandings, discussions, negotiations and undertakings, whether written or oral, between the Parties with respect thereto. Subject to the terms of this Agreement, the Company shall be entitled to terminate the Executive's employment at any time, and the Executive may terminate the Executive's employment by the Company, at any time subject to the provisions of Section 9(b) of this Agreement, in each case by written notice provided in accordance with Section 20 of this Agreement.

14. AMENDMENT OR WAIVER.

No provision in this Agreement may be amended unless such amendment is agreed to in writing and signed by the Executive and an authorized officer of the Company provided that the Company may, without the Executive's consent, unilaterally adopt amendments that may be required so that this Agreement continues to comply with applicable law or regulations, including without limitation Section 409A of the Code. No waiver by either Party of any breach by the other Party of any condition or provision contained in this Agreement to be performed by such other Party shall be deemed a waiver of a similar or dissimilar condition or provision at the same or any prior or subsequent time. Any waiver must be in writing and signed by the Executive or an authorized officer of the Company, as the case may be.

15. SEVERABILITY.

If any provision or portion of this Agreement shall be determined to be invalid or unenforceable for any reason, in whole or in part, the remaining provisions of this Agreement shall be unaffected thereby and shall remain in full force and effect to the fullest extent permitted by law.

16. SURVIVORSHIP.

The respective rights and obligations of the Parties hereunder shall survive any termination of the Executive's employment to the extent necessary to the intended preservation of such rights and obligations.

17. BENEFICIARIES/REFERENCES.

The Executive shall be entitled, to the extent permitted under any applicable law, to select and change a beneficiary or beneficiaries to receive any compensation or benefit payable hereunder following the Executive's death by giving the Company written notice thereof. In the event of the Executive's death or a judicial determination of the Executive's incompetence, reference in this Agreement to the Executive shall be deemed, where appropriate, to refer to the Executive's beneficiary, estate or other legal representative.

18. GOVERNING LAW/JURISDICTION.

This Agreement shall be governed by and construed and interpreted in accordance with the laws of The Commonwealth of Massachusetts without reference to principles of conflict of laws.

19. RESOLUTION OF DISPUTES.

Any disputes arising under or in connection with this Agreement will, at the election of the Executive or the Company, be resolved by binding arbitration, to be held in Massachusetts in accordance with the Rules and Procedures of the American Arbitration Association. If arbitration is elected, the Executive and the Company shall mutually select the arbitrator. If the Executive and the Company cannot agree on the selection of an arbitrator, each Party shall select an arbitrator and the two arbitrators shall select a third arbitrator, and the three arbitrators shall form an arbitration panel that shall resolve the dispute by majority vote. Judgment upon the award rendered by the arbitrator or arbitrators may be entered in any court having jurisdiction thereof. Costs of the arbitrator or arbitrators and other similar costs in connection with an arbitration shall be shared equally by the Parties; all other costs, such as attorneys' fees incurred by each Party, shall be borne by the Party incurring such costs.

20. NOTICES.

All notices that are required or permitted hereunder shall be in writing and sufficient if delivered personally, sent by facsimile (and promptly confirmed by personal delivery, registered or certified mail or overnight courier), sent by nationally-recognized overnight courier or sent by registered or certified mail, postage prepaid, addressed as follows:

If to the Company: Vertex Pharmaceuticals Incorporated
50 Northern Avenue
Boston, MA 02210
Attn: Chief Executive Officer

If to the Executive: at the Executive's home address listed in the Company records.

Any such notice shall be deemed to have been given: (a) when delivered if personally delivered or sent by facsimile on a business day; (b) on the business day after dispatch if sent by nationally-recognized overnight courier; and/or (c) on the fifth business day following the date of mailing if sent by mail.

21. HEADINGS.

The headings of the sections contained in this Agreement are for convenience only and shall not be deemed to control or affect the meaning or construction of any provision of this Agreement.

22. COUNTERPARTS.

This Agreement may be executed in two or more counterparts.

23. SECTION 409A OF THE CODE.

It is the intention of the Company and the Executive that this Agreement and the payments provided for herein are either exempt from or meet the requirements of Section 409A of the Code. The Company and the Executive agree to cooperate in good faith in preparing and executing such amendments to this Agreement, if any, as the Company or Executive may reasonably request solely for the purpose of assuring that this Agreement and the payments provided hereunder remain exempt from or meet the requirements of Section 409A, as applicable. Nothing in this Agreement shall require the Company to increase the Executive's compensation or make the Executive whole for any such changes. In no event, however, shall the Company have any liability relating to the failure or alleged failure of any payment or

benefit under this Agreement to comply with, or be exempt from, the requirements of Section 409A of the Code.

Each payment made under this Agreement shall be treated as a separate payment and the right to a series of installment payments under this Agreement is to be treated as a right to a series of separate payments. The Executive's right to payment or reimbursement for any expenses hereunder shall be subject to the following additional rules: (i) the amount of expenses eligible for payment or reimbursement during any calendar year shall not affect the expenses eligible for payment or reimbursement in any other calendar year, (ii) payment or reimbursement shall be made not later than December 31 of the calendar year following the calendar year in which the expense or payment was incurred, and (iii) the right to payment or reimbursement shall not be subject to liquidation or exchange for any other benefit.

24. TAX WITHHOLDING; NO GUARANTEE OF ANY TAX CONSEQUENCES.

All payments hereunder shall be subject to all applicable withholding for any federal, state or local income taxes including any excise taxes under the Code. Notwithstanding any other provision of this Agreement to the contrary or other representation, the Company does not in any way guarantee the tax consequences of any payment or compensation under this Agreement including, without limitation, under Section 409A of the Code.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the date first written above.

RE: Change of Control Agreement

Dear Mr. Wagner:

You are a key member of the senior management team of Vertex Pharmaceuticals Incorporated (the "Company"). As a result, the Company would like to provide you with the following "change of control" benefits to help ensure that if the Company becomes involved in a "change of control" transaction, there will be no distraction from your attention to the needs of the Company.

I. *Definitions.* For the purposes of this Change of Control Agreement (this "Agreement"), capitalized terms shall have the following meanings:

1. "Cause" shall mean:

- (a) your conviction of a crime involving moral turpitude;
- (b) your willful refusal or failure to follow a lawful directive or instruction of the Company's Board of Directors or the individual(s) to whom you report, provided that you receive prior written notice of the directive(s) or instruction(s) that you failed to follow, and provided further that the Company, in good faith, gives you 30 days to correct such failure and further provided that if you correct the failure(s), any termination of your employment on account of such failure shall not be treated for purposes of this Agreement as a termination of employment for "Cause";
- (c) in carrying out your duties you commit (i) willful gross negligence, or (ii) willful gross misconduct, resulting in either case in material harm to the Company, unless such act, or failure to act, was believed by you, in good faith, to be in the best interests of the Company; or
- (d) your violation of the Company's policies made known to you regarding confidentiality, securities trading or inside information.

2. "Change of Control" shall mean that:

- (a) any "person" or "group" as such terms are used in Sections 13(d) and 14(d)(2) of the Securities Exchange Act of 1934 (the "Act"), becomes a beneficial owner, as such term is used in Rule 13d-3 promulgated under the Act, of securities of the Company representing more than 50% of the combined voting power of the outstanding securities of the Company having the right to vote in the election of directors; or
 - (b) all or substantially all the business or assets of the Company are sold or disposed of, or the Company or a subsidiary of the Company combines with another company pursuant to a merger,
-

consolidation, or other similar transaction, other than (i) a transaction solely for the purpose of reincorporating the Company or one of its subsidiaries in a different jurisdiction or recapitalizing or reclassifying the Company's stock; or (ii) a merger or consolidation in which the shareholders of the Company immediately prior to such merger or consolidation continue to own at least a majority of the outstanding voting securities of the Company or the surviving entity immediately after the merger or consolidation.

3. "Code" shall mean the Internal Revenue Code of 1986, as amended.
4. "Disability" shall mean a disability as determined under the Company's long-term disability plan or program in effect at the time the disability first occurs, or if no such plan or program exists at the time of disability, then a "disability" as defined Section 22(e)(3) of the Code.
5. "Good Reason" shall mean one of the following events has occurred without your consent:
 - (a) You suffer a material reduction in the authorities, duties or job title and responsibilities associated with your position as Executive Vice President, Chief Financial Officer for the Company as of the date hereof;
 - (b) your annual base salary is decreased;
 - (c) the office to which you are assigned is relocated to a place 35 or more miles away; or
 - (d) following a Change of Control, the Company's successor fails to assume the Company's rights and obligations under this Agreement;

provided that Good Reason shall not exist unless and until within 30 days after the event giving rise to Good Reason under (a), (b), (c) or (d) above has occurred, you deliver a written termination notice to the Company stating that an event giving rise to Good Reason has occurred and identifying with reasonable detail the event that you assert constitutes Good Reason under (a), (b), (c) or (d) above and the Company fails or refuses to cure or eliminate the event giving rise to Good Reason on or within 30 days after receiving your notice. To avoid doubt, the termination of your employment will become effective at the close of business on the thirtieth day after the Company receives your termination notice, unless the Company cures or eliminates the event giving rise to Good Reason prior to such time.

6. "Termination Date" shall mean the last day of your employment with the Company.

I. *Severance Benefits upon Change of Control.* If:

- (A) your employment is terminated by the Company (except for termination for Cause or due to a Disability or death) and the Termination Date is within 90 days prior to a Change of Control or within 12 months after a Change of Control; or
- (B) you, of your own initiative, (i) terminate your employment for Good Reason (in accordance with the notice and cure provisions set forth in Section I.5 above) and (ii) the event giving rise to Good Reason occurs within 90 days prior to a Change of Control or within 12 months after a Change of Control;

then, you shall receive the following benefits:

1. *Severance Payment.* In exchange for your execution within 60 days of the Termination Date of a general release, in a form satisfactory to the Company, of all claims against the Company, its subsidiaries, and its and their officers, directors and representatives, that becomes enforceable and irrevocable within such 60-day period, the Company shall make a cash payment (the "Severance Payment") to you in an amount equal to:
 - (a) (i) your annual base salary (provided, however, that if you terminate your employment for Good Reason based on a reduction in your annual base salary, then the annual base salary to
-

be used in calculating the Severance Payment shall be your annual base salary in effect immediately prior to such reduction in annual base salary) plus your target bonus under any bonus program applicable to you for the year in which the Termination Date occurs; plus

- (b) a prorata portion of your target bonus for the portion of the year in which the Termination Date occurs under any bonus program applicable to you; plus
- (c) all other cash incentive compensation awards earned by you but not paid prior to the Termination Date; provided that, if a fiscal year has been completed and the incentive award for such fiscal year has not been determined, the incentive compensation for such completed fiscal year shall equal the target bonus for such fiscal year.

Except with respect to any portion of the Severance Payment that is delayed as set forth in this paragraph, the Severance Payment shall be made in cash within ten days after the execution by you of the general release referred to above and expiration without revocation of any applicable revocation periods under such general release (or, if the Change of Control resulting in your becoming entitled to such benefits occurs after such execution and expiration, within ten days after the Change of Control), provided that, if the 60-day period during which the general release is required to become effective and irrevocable begins in one calendar year and ends in another calendar year, the Severance Payment shall not be made before the first day of the second calendar year.

If you are a “specified employee” (as defined below) on the Termination Date, the commencement of the delivery of any such payments that constitute nonqualified deferred compensation payable upon a “separation from service” (as defined below) will be delayed until the first business day that is more than six months after your Termination Date. The determination of whether, and the extent to which, any of the payments to be made to you hereunder are nonqualified deferred compensation shall be made after the application of all applicable exclusions, including those set forth under Treasury Reg. § 1.409A-1(b)(9) and Treasury Reg. § 1.409A-1(a)(5). For purposes of this Agreement, to the extent required to ensure compliance with Section 409A of the Code, all references to “termination of employment” and correlative phrases shall be construed to require a “separation from service” (as defined in Treasury Reg. §1.409A-1(h) after giving effect to the presumptions contained therein), and the term “specified employee” means an individual determined by the Company to be a specified employee under Treasury Reg. §1.409A-1(i). Each payment made under this Agreement shall be treated as a separate payment and the right to a series of installment payments under this Agreement is to be treated as a right to a series of separate payments. Your right to payment or reimbursement for any expenses hereunder that would constitute nonqualified deferred compensation subject to Section 409A will be subject to the following additional rules: (i) the amount of expenses eligible for payment or reimbursement during any calendar year shall not affect the expenses eligible for payment or reimbursement in any other calendar year, (ii) payment or reimbursement shall be made not later than December 31 of the calendar year following the calendar year in which the expense or payment was incurred, and (iii) the right to payment or reimbursement shall not be subject to liquidation or exchange for any other benefit.

2. *Accelerated Vesting.*

- (a) On the Termination Date, stock options for the purchase of the Company’s securities held by you as of the Termination Date and not then exercisable shall immediately become exercisable in full. The options to which this accelerated vesting applies shall remain exercisable until the earlier of (a) the end of the 90-day period immediately following the later of (i) the Termination Date or (ii) the date of the Change of Control and (b) the date the stock option(s) would otherwise expire; and
-

- (b) On the Termination Date, each outstanding restricted stock unit grant shall be accelerated and the Shares shall be delivered to you within two business days (subject to (i) your making satisfactory arrangements with the Company providing for the payment to the Company of all required withholding taxes and (ii) with the number of shares subject to the restricted stock unit grants that contain performance criteria vesting at target or based on earned shares as set forth in the applicable restricted stock grant). 1-year financial performance stock unit awards vest as to target shares until the initial vesting date and based on earned performance shares thereafter. 3-year non-financial performance stock unit awards vest as to target shares.

Notwithstanding anything to the contrary in this Agreement, the terms of any option agreement or restricted stock unit agreement shall govern the acceleration, if any, of vesting or lapsing of the Company's repurchase rights and period of exercisability of such awards, as applicable, except to the extent that the terms of this Agreement are more favorable to you.

3. *Continued Insurance Coverage.* If COBRA coverage is elected by you, the Company shall pay the cost of insurance continuation premiums on your behalf (whether or not covered by COBRA) to continue standard medical, dental and life insurance coverage for you (or the cash equivalent of same if you are ineligible for continued coverage) until the earlier of (i) the date 12 months after the Termination Date or (ii) the date you begin receiving substantially equivalent coverage and benefits through a subsequent employer.
4. *No Mitigation.* You shall not be required to mitigate the amount of the Severance Payment or any other benefit provided under this Agreement by seeking other employment or otherwise, nor shall the amount of any payment or benefit provided for in this Agreement be reduced (except as provided in Article II Section 3(ii)) by any compensation earned by you as the result of other employment, by retirement benefits, or be offset against any amount claimed to be owed by you to the Company or otherwise (except for any required withholding taxes); provided, that if the Company makes any other severance payments to you under any other program or agreement, such amounts shall be offset against the payments the Company is obligated to make pursuant to this Agreement.

II. *Miscellaneous.*

1. *Employee's Obligations.* Upon the termination of employment, you shall promptly deliver to the Company all property of the Company and all material documents, statistics, account records, programs and other similar tangible items which may be in your possession or under your control and which relate in a material way to the business or affairs of the Company or its subsidiaries, and no copies of any such documents or any part thereof shall be retained by you.
 2. *Entire Agreement.* This Agreement, the "*Employment Agreement*" and the "*Employee Non-Disclosure, Non-Competition & Intellectual Property Assignment Agreement*" executed by you covers the entire understanding of the parties as to the subject matter hereof, superseding all prior understandings and agreements related hereto. No modification or amendment of the terms and conditions of this Agreement shall be effective unless in writing and signed by the parties or their respective duly authorized agents, provided, however, that the Company may, without your consent, unilaterally adopt amendments that may be required so that this Agreement continues to comply with applicable law or regulation, including without limitation Section 409A of the Code, provided such amendments do not adversely affect the benefits to be provided to you under Section II of this Agreement. In no event shall the Company have any liability relating to the failure or alleged failure of any payment or benefit under this Agreement to comply with or be exempt from, the requirements of Section 409A.
 3. *Governing Law.* This Agreement shall be governed by the laws of The Commonwealth of Massachusetts, as applied to contracts entered into and performed entirely in Massachusetts by Massachusetts residents.
-

4. *Successors and Assigns.* This Agreement may be assigned by the Company upon a sale, transfer or reorganization of the Company. Upon a Change of Control, the Company shall require the successor to assume the Company's rights and obligations under this Agreement. The Company's failure to do so shall constitute Good Reason and a material breach of this Agreement. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their successors, permitted assigns, legal representatives and heirs.

Kindly indicate your acceptance of the foregoing by signing and dating this Agreement as noted below, and returning one fully executed original to my attention.

Very truly yours,

Vertex Pharmaceuticals Incorporated

By: /s/ Michael Parini

Name: Michael Parini

Title: Executive Vice President, Chief Legal and Administrative Officer

ACCEPTED AND AGREED:

Charles F. Wagner, Jr.

CERTIFICATION

I, Jeffrey M. Leiden, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Vertex Pharmaceuticals Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
